# BIG GIFT PLANTING

**To All Early  
Cash Buyers  
Your Choice of  
Flaming Giant  
Raspberry  
or  
Climbing  
Hydrangea  
Plants Free**

## **Flaming Giant Red Raspberry** **Yields Twice as Much Fruit—Berries 50 Per Cent Larger Than Many Kinds**

We are again offering a limited supply of this wonderful Red Raspberry which we consider one of the most outstanding kinds of all time.

Flaming Giant has a rich, attractive red color, with firm fleshed berries that assure fine shipping quality. They are large, ruby-red lumps of deliciousness. Just imagine having a bountiful supply of this luscious fruit to serve on your own table, picked direct from your own garden.

Although our supply is limited, we offer Flaming Giants while they last at a price considerably lower than sometimes quoted by other firms, and in addition are offering our early cash buyers a liberal trial planting, as explained below.

### **PRICES:**

3 plants, \$1.25.	6 plants, \$2.00.	12 plants, \$3.50.	25 plants, \$6.00.
50 plants, \$11.00.	75 plants, \$17.50.	100 plants, \$20.00.	

**Flaming Giant Red Raspberry.**

## **The New and Rare Climbing Hydrangea**

A very rare, beautiful climber. Blooms in June or July, with a mass of white or greenish white, very fragrant flowers, similar to Bush Hydrangeas. The leaves are large, shiny, dark green. Clings closely to stone and brick work, requiring no tying. Gives an especially attractive effect when allowed to climb up the trunks of trees. A wonderful new variety.

You've seen Bush Hydrangeas and Tree Form Hydrangeas, and admired their beauty. Now be first in your locality to grow the CLIMBING HYDRANGEA. It will create a sensation.

**PRICES, 2-year vines, \$1.00 each; 2 for \$1.75; 3 for \$2.50.**

## **HERE are the GIFT OFFERS**

### **Flaming Giant Red Raspberry Gift Planting TO EARLY CASH BUYERS**

To every customer who sends us an order before April 1st, 1934, accompanied by cash in full at regular catalog rates, and who in addition sends the names and addresses of six fruit growers, or of those really interested in purchasing nursery stock, we will send absolutely free the following number of

Flaming Giant Red Raspberry Plants (or, if you prefer Climbing Hydrangeas, see below).

- 2 Flaming Giant Red Raspberry Plants. Free with Cash Orders for less than \$3.00.
- 6 Flaming Giant Red Raspberry Plants (Priced at \$2.00). Free with Cash Orders between \$3.00 and \$5.00.
- 12 Flaming Giant Red Raspberry Plants (Priced at \$3.50). Free with Cash Orders between \$5.00 and \$10.00.
- 25 Flaming Giant Red Raspberry Plants (Priced at \$6.00). Free with Cash Orders between \$10.00 and \$15.00.
- 50 Flaming Giant Red Raspberry Plants (Priced at \$11.00). Free with Cash Orders between \$15.00 and \$20.00.
- 75 Flaming Giant Red Raspberry Plants (Priced at \$17.50). Free with Cash Orders amounting to \$20.00 or more.

**OR** If you prefer CLIMBING HYDRANGEAS for your gift with early cash orders, we will give you:

- 1 Two-year Climbing Hydrangea Vine Free with Cash Orders between \$2.00 and \$6.00.
- 2 Two-year Climbing Hydrangea Vines Free with Cash Orders between \$6.00 and \$10.00.
- 3 Two-year Climbing Hydrangea Vines Free with Cash Orders amounting to \$10.00 or more.

### **These Offers Open Until April 1st, 1934 Only**

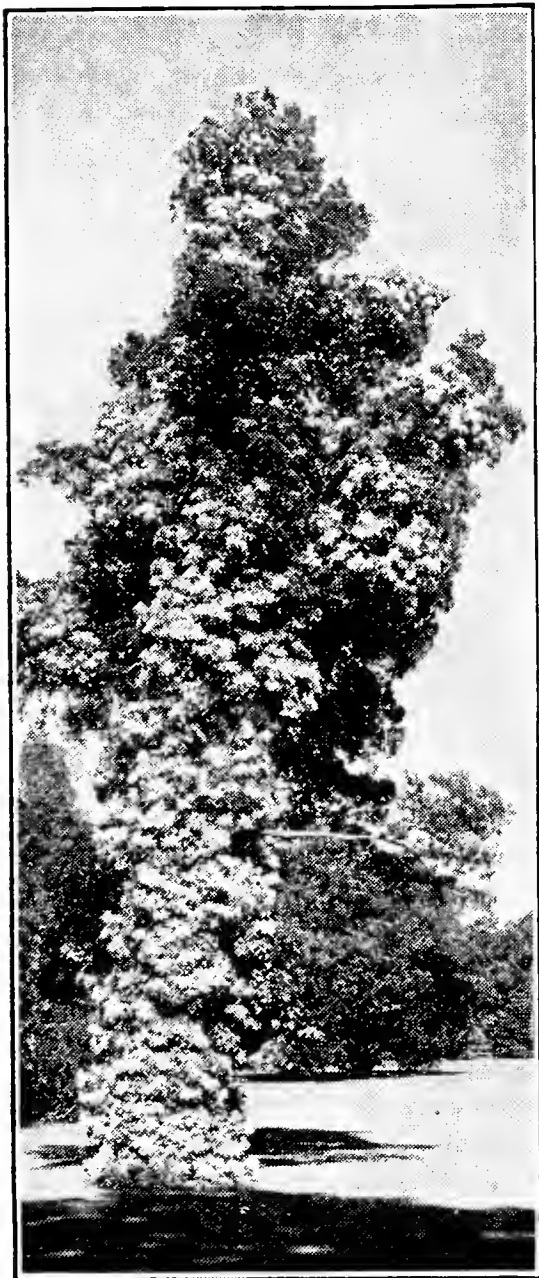

Our supply of Flaming Giant Red Raspberry plants and Climbing Hydrangea vines is too limited to make these offers effective after April 1st.

Be sure to send the six names and addresses with your order. The gift positively will not be sent unless customer complies with this condition.

On all cash orders received after April 1st, when accompanied by the six names referred to, we will include free the Flaming Giant Red Raspberry plants or Climbing Hydrangea vines if still available; but if not, we will include additional nursery stock of our own selection as to variety and value, absolutely free of charge. No postpaid bargain collections are included in this free plant offer, nor cash orders where a special reduced price has been quoted.

**BE SURE TO SPECIFY WHICH GIFT YOU PREFER**

See Pages 23, 26, 27 and 52 for Special Bargain Offers.

### **CERTIFICATE OF NURSERY INSPECTION MICHIGAN STATE DEPART- MENT OF AGRICULTURE**

**Orchard and Nursery Inspection  
No. 2144.**

This is to certify that the nursery stock of the Whitten-Ackerman Nurseries, Bridgman, Michigan, has been examined and found to be apparently free from dangerous insects and dangerously contagious tree and plant diseases.

Fee paid, \$10.00.

This certificate to be void after September 15, 1934.

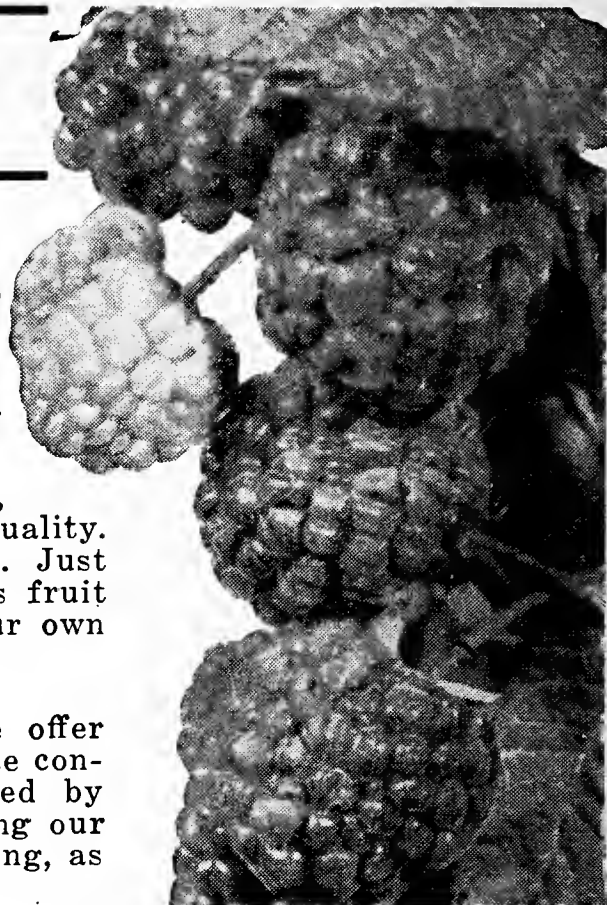

Lansing, Michigan, September 13, 1933.

**SAMUEL T. METZGER,**  
Commissioner.

Bureau of Agricultural  
Industry.

**PAUL VAN DEINSE,**  
Director.

**E. C. MANDENBERG,**  
In Charge of Orchard and  
Nursery Inspections.

# Not A New Deal, But A Square Deal

## For New Customers As Well As Old

R. C. WHITTEN

**E**VER since our fathers started in business 50 years ago we have adhered to this policy of square dealing, and have furnished the best nursery stock that Mother Earth produces at the lowest possible cost to our customers.

In every section of the country you will find many friends of ours that have ordered regularly from us for years. In the yards and gardens of thousands of homes you will find our nursery stock. Our nation-wide business has been built upon these principles of Honest and Square Dealing:

1st—We sell only the best hardy stock for the lowest possible prices.

2nd—We were the first nursery in this section to ship stock subject to examination before payment.

3rd—We sell direct from our catalog only—you have no agents' commissions to pay.

4th—We do not spend thousands of dollars on colored pictures in our catalog—we pass that saving on to

our customers. Don't be fooled into paying high prices by flashy catalogs, full of colors and catch-phrases. Mother Earth colors her fruits and flowers more beautifully than mere man can reproduce. We sell the trees, shrubs and plants that will produce the finest crops this earth has to offer.

5th—We purchase no large advertising space—we depend largely upon our friends and customers to advertise our stock.

6th—We promise a fair and square deal to everyone—and make good our promise.

See page 4 for letters from our customers. Note that we print the names and addresses. We can refer you to persons in your own community upon request.

If you have never sent us an order before and believe in our business policy—send us a trial order today and we will quickly convince you that our stock is all and more than we claim for it.

We are just farmers who can and will guarantee you a square deal—enough said!

R. W. ACKERMAN

### No Cash Payment Before Shipment

possible for customers to order without sending any money. Make out your order at full prices listed in catalog, and instruct us to ship by C. O. D. Express or Parcel Post, subject to your examination by Express only, as the postal authorities do not permit examination of parcel post shipments.

Look over the shipment and see for yourself whether the stock is in good condition. If shipment is satisfactory, pay your express agent the amount due and the plants are yours—still covered by our guarantee. What could be more fair? We simply must furnish good nursery stock, or we couldn't possibly afford to make this offer.

We would advise all small shipments sent by mail, and will send your order by Parcel Post C. O. D. for purchase price, plus postage, if you prefer. All such shipments are fully covered by our guarantee.

**NOTICE:** The above offer does not apply on orders amounting to less than \$3.00; on Special Bargain Collections; Special Quoted Prices; nor on any orders specifying shipment later than April 25th, 1934. Cash in full must accompany all orders under \$3.00, or those calling for shipment later than April 25th; but on such orders customers will be entitled to our cash discounts from regular catalog rates, as explained at the right. **WE GUARANTEE SAFE ARRIVAL OF ALL SHIPMENTS MADE ON OR BEFORE MAY 25TH, 1934.**

#### You Examine Stock Before You Pay.

This offer applies only on orders amounting to \$3.00 or more, for shipment on or before April 25th, 1934.

We were the first nursery in this section of the country to adopt this unique selling plan, whereby it is possible

### Order Early and Make a Big Saving

**20%** DISCOUNT on All Cash Orders received during January, 1934.

**15%** DISCOUNT on All Cash Orders received during February, 1934, and until March 10, 1934.

**10%** DISCOUNT on All Cash Orders received during the balance of 1934.

To those who wish to send all cash with order, we offer these special cash discounts from our regular printed prices (Bargain Offers and Special Quotations excepted), applying on orders received for shipment any time during 1934. Order must be accompanied by cash in full to secure the benefit of these discounts. This is your opportunity to effect a material cash saving, especially on larger orders. Remember, we guarantee safe arrival of shipments made on or before May 25th, 1934. You take no chance whatever.

You may deduct the amount of the discount from your order, or include more stock for the amount.

See pages 23, 26, 27 and 52 for SPECIAL BARGAIN OFFERS.

# We Have Satisfied Customers in Every State in the Union

We receive letters of confidence, appreciation and satisfaction such as these from customers in every state in the Union. They prove conclusively our claims for superior quality and service. Read them.

Decatur, Ind., May 6, 1933.

Dear Sirs: We received the nursery goods some time ago, and say, did it grow! Every one of the 500 strawberry plants grew, every one of the Grape plants grew, and in the pear trees there was nothing but quality. We never saw such roots on strawberry plants before. Really, they were just like a beard. I am a booster for Whitten-Ackerman, because I ordered much nursery goods from different nurseries, but never in my life got quality, price and size as I did here.

Your customer,  
ELMER GERBER

Look at these fine Grape vines loaded with fruit, just two years after planting. One of our thousands of satisfied customers sends us this photograph with the following letter:

Kunkle, Ohio, August 21, 1933.

I am enclosing a small picture of the grapes which were bought from your firm. They are two years old, and have an abundance of grapes. Everyone believes them to be older vines. We are very proud of them.

Yours truly,  
MRS. ELDO ALLEMAN.

There's a reason for such excellent results—turn to page 32 and see why our Grape vines are the kind to plant.

## Our Prices Save You 20% to 40%

El Paso, Tex., February 15, 1933.

Gentlemen: I want to thank you for your promptness and the all-around quality of the shrubs. All of us were pleased, and so were neighbors that have seen them.

Yours truly,  
F. E. BAIRD.

Cornell, Mich., April 27, 1933.

Dear Sirs: Our order of apple trees arrived in excellent condition, and we wish to thank you for your careful packing of same, also for your promptness and honesty in dealing. We have never seen finer looking trees, and know that we saved from 50 to 70 per cent by buying from you.

Yours truly,  
GEO. L. McFADDEN & SON.

Inglewood, Calif., March 9, 1933.

Dear Sirs: I received my order today and I can't tell you how surprised I was at the wonderful plants I received. Everything came in fine shape and it surely pays to order early.

Thanks very much,  
CHARLOTTE GERLACH.

Bloomington, Ind., April 12, 1933.

Gentlemen: I received the stock you sent me and found it in good condition. I think I know something about fruit trees and I pronounce the stock you sent me first class. Permit me to say further, that I like your plan of making your prices as low as is consistent with good stock and instead of spending the money for costly advertisements or replacing stock which customers lose by negligence.

Very truly yours,  
C. A. STUMP.

## All Stock Packed Right—Priced Right Satisfaction Guaranteed

Moline, Ill., April 28, 1933.

Dear Sirs: Sure am proud of the nursery stock received of you this spring. Everything was packed so fine and arrived in moist shape and sure to grow. Hope to order from you again next spring.

Yours truly,  
CHAS. GRUBE.

Union Hill, N. Y., April 14, 1933.

Gentlemen: I received the rose bushes yesterday and am very much pleased with them, they came through fine. Many thanks for the splendid service rendered.

Sincerely yours,  
MRS. FRANK P. CHAPMAN.

Wadsworth, Ohio, April 15, 1933.

Dear Sirs: My shipment of roses, shrubs, etc., was delivered to me the second day after you shipped it, and planted out the same day. It was all strong and healthy looking, with vigorous rooting. Am well pleased and shall be glad to speak freely in recommending your nursery and service. Very truly,

AVERY WOOD.

Halifax, Pa., April 4, 1933.

Gentlemen: Just a few lines to inform you that my order arrived in excellent shape, and that they are the best trees and blackberry plants I have ever purchased from any grower.

Yours truly,  
W. H. RETTINGER.

## We Believe in a Square Deal and Practice What We Believe

### Our Guarantee

We guarantee all of our nursery stock to be just as represented in our catalog; fully up to grade, of good quality, free from disease, and absolutely true to name; also to reach the customer alive, and in perfect growing condition.

Furthermore, we will, at our option, either replace free of charge, or refund purchase price, on any stock that arrives in bad condition; PROVIDING CLAIM IS MADE WITHIN FIVE DAYS FROM ARRIVAL OF SHIPMENT, ACCOMPANIED BY A SIGNED STATEMENT FROM THE EXPRESS AGENT OR POSTMASTER AT DESTINATION, SHOWING EXTENT OF LOSS OR DAMAGE.

If any stock proves untrue to name it will, at our option, either be replaced free of charge, or purchase price will be refunded, but in no case will we be responsible for a sum greater than the original purchase price paid. Beyond this our liability ceases. It is understood and agreed between the customer and ourselves that the purchaser's order, and our acknowledgment of its receipt, shall constitute a mutual acceptance of the above terms and conditions.

# WHITTEN-ACKERMAN

## Ornamental Shrubs

For that outdoor living room you've been wanting. Many happy hours are spent in well planted home grounds.

All shrubs we offer are heavy, two- and three-year-old stock; many will bloom the first year.

**Althea** (Rose of Sharon). Beautiful treelike shrub, blooming late in August and September with a profusion of large and brightly colored flowers. Grows 10 to 12 feet high. Attractive as a specimen or for hedges. Your choice of White, Purple, Red or Pink. 2-year, 18 to 24 in. size, 20c each; 6 for \$1.00; 12 for \$1.85; or \$16.00 per 100. Mixed colors only, 2-year, 18 to 24 in., 15c each; 6 for 85c; 12 for \$1.65; or \$12.00 per 100.

**Golden Elder** (*Sambucus nigra aurea*). A variety with golden yellow foliage and large, flat clusters of white flowers. Contrasts beautifully when planted with green-leaved shrubs. Grows 6 to 8 feet high, but should be pruned back severely each spring to secure denser and brighter foliage. Strong, 2-year, 2-3 ft. shrubs, 33c each; 6 for \$1.80; 12 for \$3.30.

**Beauty Bush** (*Kolkwitzia amabilis*). New and rare shrub from China. Covered early in May with the utmost profusion of small, bell-shaped, clear pink flowers with brownish spots and veins. The tiny rose colored buds are fascinatingly hooded with fuzzy jackets which remain to decorate the seed pods. This lovely and graceful shrub is beautiful the year around, and is perfectly hardy. Strong, 2-year, 15 to 18 in. size, 45c each; 3 for \$1.10.

**Buddleia** (Butterfly Bush or Summer Lilac). Blooms July to October. When the lovely spikelike blooms appear in July, this shrub, which had probably died down nearly to the ground during winter, is a perfect specimen of about 5 feet, radiating a delightful perfume and glowing with the tints and flower shape of the spring lilacs. Strong, 2-year, No. 1 bushes, 25c each; 6 for \$1.35; 12 for \$2.40; or \$18.00 per 100.

**Flowering Almond** Pink. Early spring-flowering shrub, usually in full bloom before leaves appear. Growth dwarf and bushy, compact, with slender branches. Fine plants to use in grouping or for lawn. Flowers are very showy, and produced in great abundance. 2-year, 18-24 in. bushes, 40c each; 6 for \$2.20; or 12 for \$3.80.

### Bargain C

One each of the lovely shrubs illustrated on this page 5 two-year-old shrubs for only

Forsythia.

**Forsythia Intermedia** The earliest blooming. Lights up the garden with glinting masses of yellow very early in the spring, and before the leaves appear. These bright golden flowers often appear before the snow is gone. Thrives in any locality. Tall grower. Strong, 2-year, 18-24 in. bushes, 15c each; 6 for 75c; 12 for \$1.40; or \$11.00 per 100.

**Forsythia Fortunei** An erect-growing type with slender, upright branches. Fortunei grows the tallest and most slender of the Forsythias, and is especially desirable for tall background. Has lovely, golden yellow flowers very early in spring. Strong, 2-year, 18-24 in. bushes, 17c each; 6 for 85c; 12 for \$1.55; or \$12.00 per 100.

### Deutzia, Pride of Rochester

Produces large, white flowers, tinged with rose. Vigorous grower, profuse bloomer. One of the earliest to blossom. Grows 6 to 8 feet tall, and is useful for specimens or for background planting. Very hardy and adapts itself to any type of soil. Strong, 2-year, 18-24 in. shrubs, 15c each; 6 for 80c; 12 for \$1.50; or \$11.00 per 100.

**Deutzia Lemoine** Medium large flowers of pure white, borne in cone-shaped heads. Attains about 4 feet in height, and is especially useful in partial shade. One of the most popular of the Deutzias. Strong, 2-year, 12-18 in. bushes, 25c each; 6 for \$1.25; 12 for \$2.40; or \$20.00 per 100.

**Deutzia Gracilis** Dwarfest growing Deutzia; dense and bushy. Its drooping branches are wreathed with pure white flowers in May. An excellent and beautiful edging shrub; does very well in shade. Strong, 2-year, 15-18 in. bushes, 30c each; 6 for \$1.50; 12 for \$2.75; or \$22.00 per 100.

**Honeysuckle, Pink Tartarian** Has bright pink flowers, followed by red berries which ripen in midsummer and cling to the bush for several weeks. Graceful and spreading branches and bright green foliage. Tall grower. 2-year, 18-24 in. size, 15c each; 6 for 75c; 12 for \$1.40; or \$11.00 per 100.

**Honeysuckle, Tatarica Rubra** Similar in growth and attractive foliage to Pink Tartarian Honeysuckle, but with light crimson flowers in early summer. A very choice shrub. Strong, 2-year, 18-24 in. bushes, at 30c each; 6 for \$1.50; or \$2.75 per doz.

**Dogwood** (Cornus paniculata). One of the best native shrubs; free flowering; very handsome when in bloom, and with its white berries on red stems in the fall. Grows compactly, 6 to 10 feet in height. Strong, 2-year, 2-3 ft. size, 33c each; 3 for 85c.

**White Kerria** Grows 5 to 6 feet high in rounded form. Has beautiful light green, corrugated foliage. Large, single, white flowers in May are followed by black berries which remain throughout the winter. Grows well in partial shade. Strong, 2-year, 18-24 in. bushes, only 25c each; 6 for \$1.20; or \$2.00 per doz.

Deutzia Gracilis.

Hydrangea A. G.

grow and blooms the first season planted. Strong, 2-year, 18-24 in. bushes, 25c each; 6 for \$1.20; or \$2.15 per doz.

**Purple Lilac, Common** One has to travel far to find anything that can outclass the old-fashioned purple Lilac for sheer attractiveness, when in early spring its branches are a mass of gorgeous bloom and solid color, filling the air with its rich fragrance. Be sure to plant a few this spring. They grow fast, and will be blooming before you know it. Strong, 2-year, 18-24 in. bushes, 15c each; 6 for 75c; 12 for \$1.25; or \$10.00 per 100. Extra heavy, 3-year, 2-3 ft. shrubs, 20c each; 6 for 90c; 12 for \$1.65; or \$12.00 per 100.

### Bargain F

1 Tree Hydrangea P. G.

3 Bush Hydrangea

(Your choice, A. G. or P. G.)

Only **\$1.00** Net  
Not Prepaid

**High Bush Cranberry** (*Viburnum opulus*). A magnificent shrub, of upright, spreading form, with smooth, light gray branches and broad, oval, 3-lobed, bright green leaves. Produces small, white flowers which are borne in broad, flat clusters surrounded by a ring of large, sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter. Grows 8 to 10 feet tall. Strong, 2-year, 18-24 in. bushes, 33c each; 6 for \$1.80; or \$3.30 per doz.

**Hydrangea A. G. (Hills of Snow).** Large, flat clusters of white bloom from June to September. The most hardy of the Hydrangeas and especially useful for shady places. Excellent for solid low borders or in foundation plantings. Very popular shrub. Strong, 2-year, 18-24 in. bushes, 25c each; 6 for \$1.20; or \$2.15 per doz.

**Hydrangea P. G.** This lovely, showy shrub produces in abundance during August and September clusters of white flowers, which gradually change to pink. Valuable for winter decorations if flowers are allowed to dry on bush. Useful for foundation planting or for massing in borders. Hardy, easy to

High Bush Cranberry.

### BARGAIN E

FOR A BEAUTIFUL HEDGE OR SCREEN.

6 Persian Purple Lilac.

6 Common Purple Lilac.

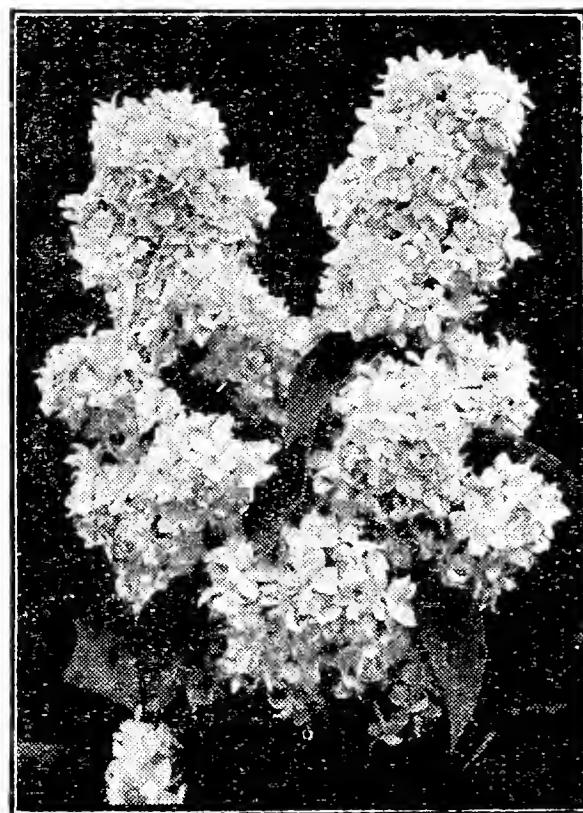

2 to 3 ft., extra heavy. Ready to bloom.

**\$1.50** Net, Not Prepaid.

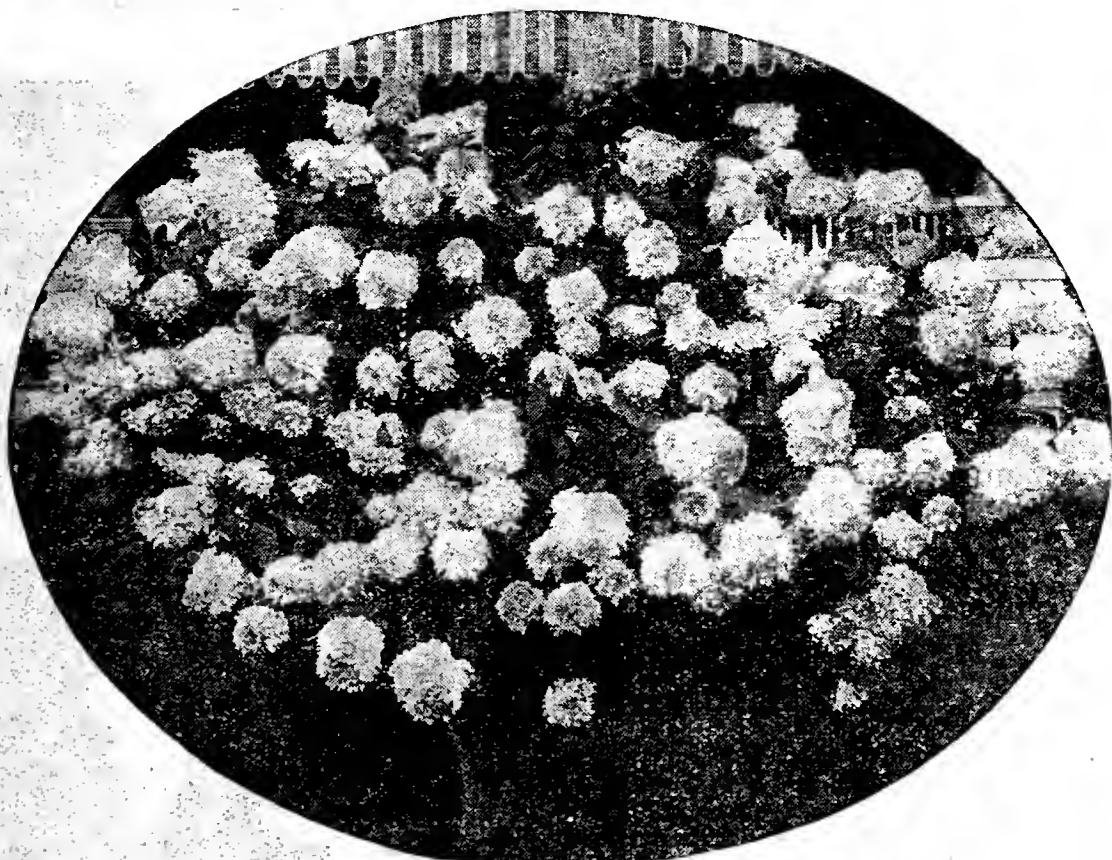

**Lilac, Persian Purple** A decided improvement over the common Lilac. A shrub with slender, arching branches, attaining a height of 5 to 10 feet. The foliage is small, the flowers bright purple. Blooms in May and June. A much more profuse bloomer than the common, and does not sprout so much from the roots. We consider the Persian much preferable. Strong, 2-year, 18-24 in. bushes, 20c each; 6 for 90c; 12 for \$1.65; or \$12.00 per 100. Extra heavy, 3-year, 2-3 ft. shrubs, 35c each; 6 for \$2.00; \$3.50 per doz.

### Tree Form, Hydrangea P. G.

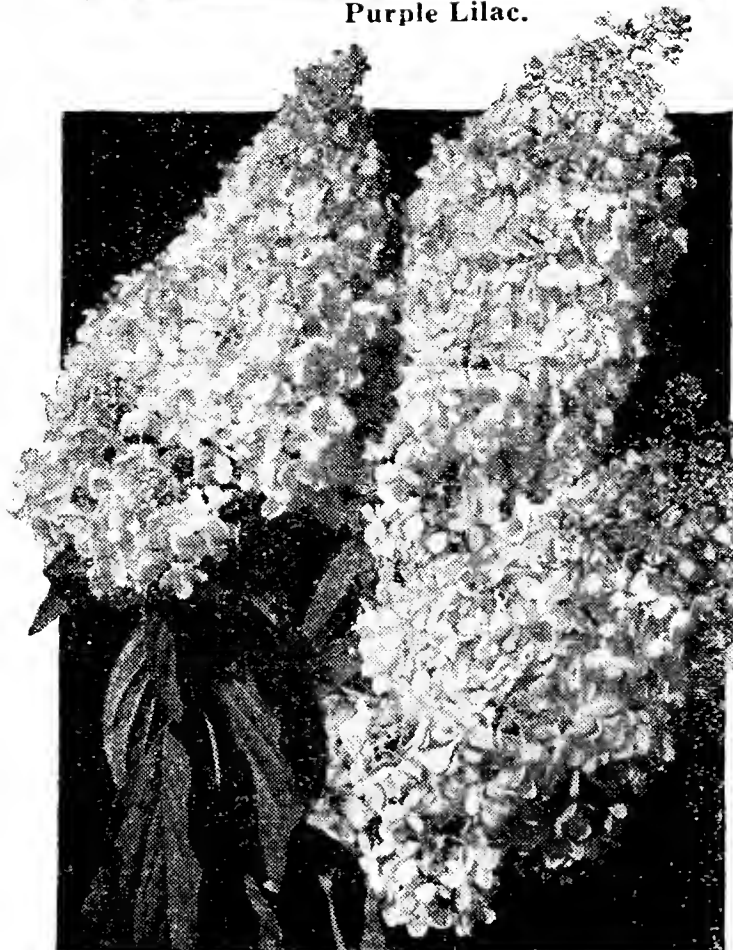

Beautiful, well developed trees of the true P. G. type that are ready to jump right in and grow. Good roots and plenty of branches. We don't need to tell you where to plant them. They're beautiful anywhere. A bargain at the price we ask. 3-year, 3-4 ft. trees, 70c each; 3 for \$2.00; or \$3.85 for 6.

Purple Lilac.

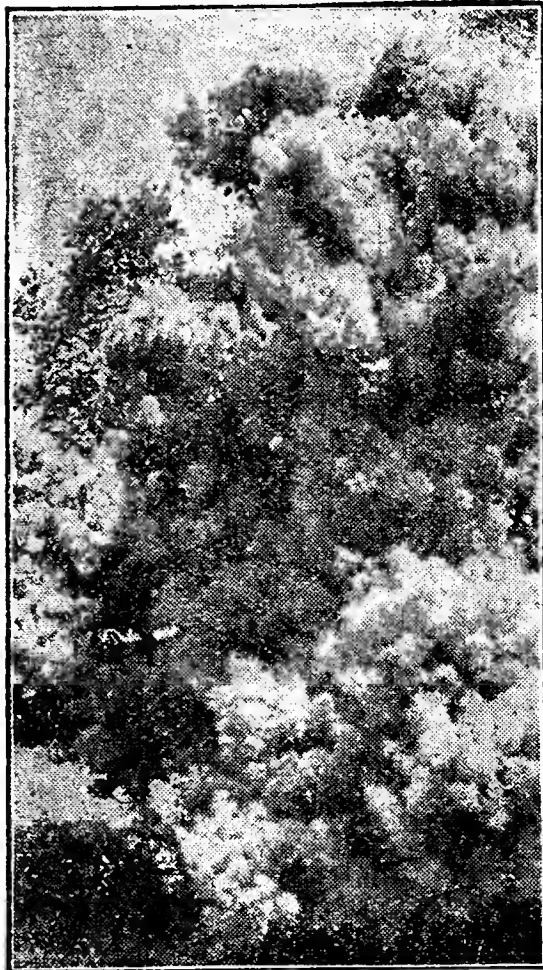

Tree Form, Hydrangea P. G.

Hydrangea P. G.

Special Discounts On All Cash Orders. See Page 3.

Smoke Tree.

**Smoke Tree** (Purple Fringe; *Rhus cotinus*). Unique, spreading, treelike shrub with large leaves. Overhung in midsummer by cloudlike masses of mist-like flowers having the appearance of smoke. Foliage changes to a brilliant red and yellow in autumn. Good as a single specimen on the lawn, or to mass with tall shrubs. Good, 2-year, 18-24 in. specimens, 45c each; 6 for \$2.40; or \$4.20 per doz.

Red Snowberry.

**Snowberry, White** (*Symphoricarpos racemosus*). A desirable shrub with small, pink flowers, followed by large, white, waxlike berries, which hang on the plant through most of the winter. Is very showy and succeeds everywhere. Does well in shade. Grows 3 to 4 feet tall. Strong, 2-year, 18-24 in. bushes, 23c each; 6 for \$1.25; or \$2.25 per doz.

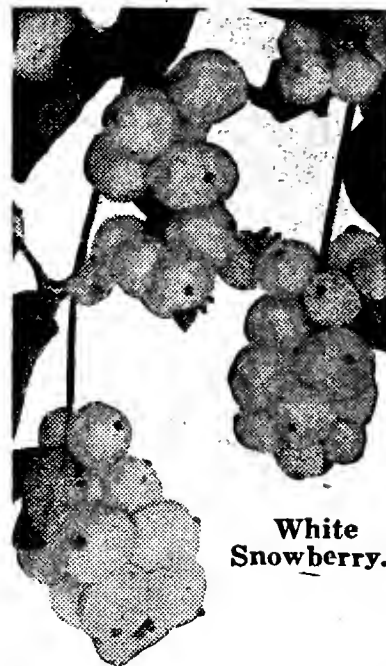

**Snowberry, Red** (*Symphoricarpos vulgaris*). Often called Coralberry or Indian Currant. Similar to White Snowberry but with red berries clustering in ropes along the weighted down stems. Grows 2 to 4 feet tall. Strong, 2-year, 18-24 in. bushes, 23c each; 6 for \$1.25; \$2.25 per doz.

**Russian Olive** Rugged, treelike shrub, growing 10 to 12 feet high. Foliage is a beautiful, silvery gray, contrasting sharply with other shrubs. Flowers are deep golden and very fragrant, followed by ornamental yellowish brown fruits with silver scales.

Strong, 2-year, 2-3 ft. shrubs, only 35c each; 6 for \$2.00; or \$3.75 per doz.

**Japan Quince** (Burning Bush). Very early in the spring this fine, attractive shrub is completely covered with dazzling scarlet flowers followed by small, fragrant, quince-shaped fruits. Foliage is dark, glossy green. Very desirable for single specimens, also hedges. Strong, 2-year, 18-24 in. bushes, 25c each; 6 for \$1.25; or \$2.35 per doz.

**Siberian Pea Shrub** Tall shrub, 10 to 12 feet high, with bright green, compound leaves and many small clusters of yellow flowers in May and June. Useful for group or background planting. Hardest and best hedge shrub for the Northwest. Strong, 2-year, 2 ft. bushes, 30c each; 6 for \$1.60; \$3.00 per doz.

White Snowberry.

Japan Quince.

## Bargain G

One each of the fine shrubs illustrated on these two pages. 12 two-year shrubs, many of them ready to bloom.

ONLY **\$2.95** Net Not Prepaid

**FREE:** With every order for this Bargain, we will give absolutely free a Norway Spruce, 2 to 3 feet tall. Very popular evergreen.

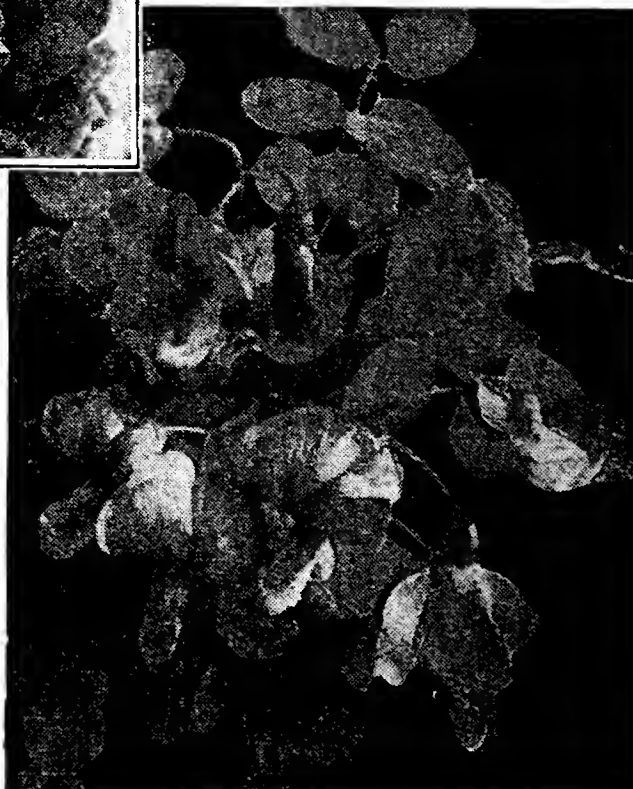

## Tamarix Africana

Tall shrubs, 8 to 10 feet high, with fine feathery foliage and small, bright pink flowers, in slender racemes in April and May. Splendid for planting in damp or other places. Strong, 2-year, 18-24 in. specimens, 25c each; 6 for \$1.35; 12 for \$2.50.

Remember! In our bargains we offer no low grade "bargain-counter" stock. All bargains are our regular grade shrubs, 2 and 3 years old, heavy rooted and well branched.

Tamarix Africana.

1 Japanese Snowball.  
1 Common Snowball.

**\$1.15**

Net, Not Prepaid

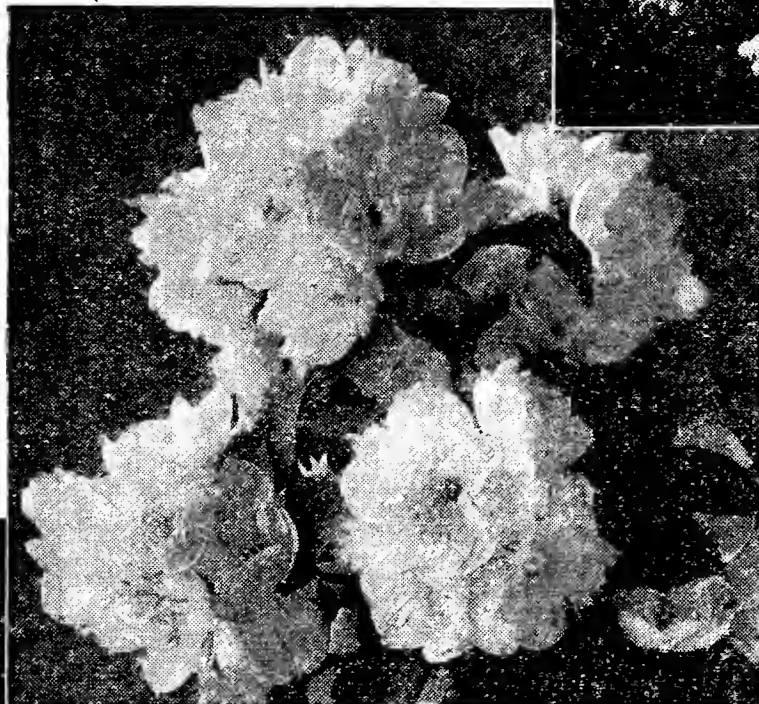

**Japanese Snowball** (*Viburnum plicatum*). One of the very best of the Snowballs, with purple tinted leaves. Erect and compact growing, reaching a height of 6 to 8 feet. Bears a mass of white ovoid corymbs in June. Strong, 2-year, 18-24 in. shrubs, only 50c each; 6 for \$2.65; or \$4.65 per doz.

**Common Snowball** (*Viburnum opulus sterile*). The well known, favorite Snowball. Lovely white flowers, which appear in numerous, compact balls. Valuable for specimen plants and also for grouping and massing. Heavy, well branched, 2-year, 18-24 in. bushes, 40c each; 6 for \$2.20; or \$4.15 per doz.

**Philadelphus Glacier** Flowers are double, rich cream color, produced in thick clusters of six or seven, giving the effect of one enormous double flower. Grows to a height of 5 feet, and can be used to good advantage when taller varieties would be out of place. One of the very best, and should be included in every home planting. Strong, 2-year, 2-3 ft. bushes, 30c each; 6 for \$1.50; or \$2.75 per doz.

**Philadelphus Coronarius** One of the best and most popular shrubs; tall, hardy and vigorous. Blooms in May, in very graceful sprays of large, white flowers which are delightfully fragrant. Grows 8 to 10 feet tall. 2-year, 2-3 ft. shrubs, 15c each; 6 for 80c; 12 for \$1.40; or \$11.00 per 100.

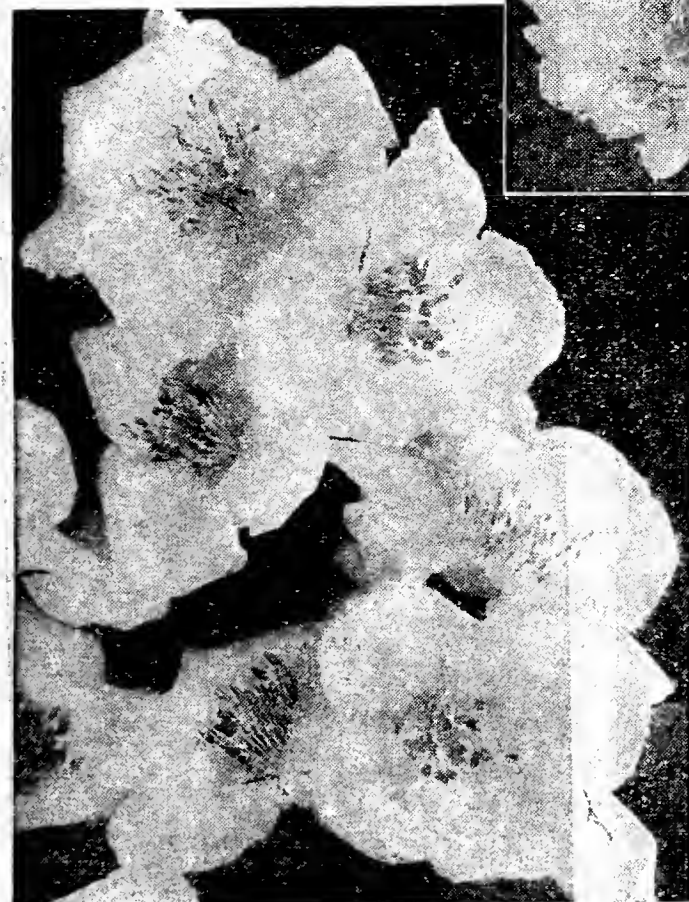

Philadelphus Virginalis.

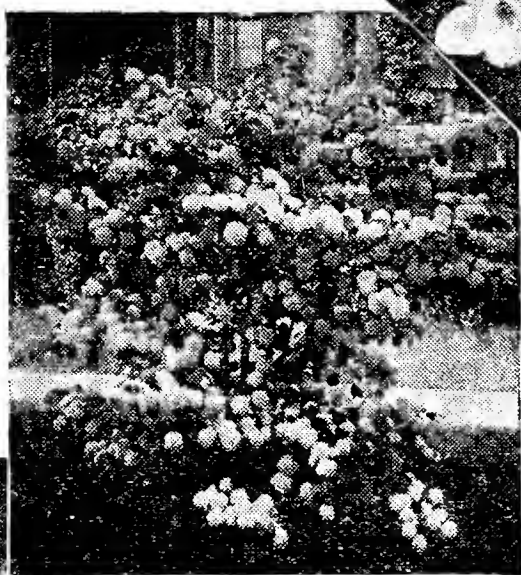

**Pussy Willow** (*Salix discolor*). A large, treelike shrub with long, narrow leaves. Its popular appeal is the conspicuous silky catkins which bud in the fall and make such delightful, springlike bouquets just as the snow is melting away. We offer strong, 2-year, 3-4 ft. bushes at only 30c each; 6 for \$1.50; or \$2.75 per doz.

**Philadelphus Virginalis**

A wonderful new Mock Orange. We consider this to be the most beautiful white flowering shrub that has been introduced for many years. Has unusually large, semi-double blooms, pure white, sweetly scented, appearing in clusters of five to seven. Closely resembles a bride's bouquet of orange blossoms; ranks among the best for cutting. A vigorous, tall grower, used with striking effect as a hedge; also makes wonderful individual specimens. Heavy, 2-year, 2-3 ft. bushes, 45c each; 6 for \$2.40; or 12 for \$4.20.

Philadelphus Coronarius.

Viburnum Carlesi.

**Viburnum Carlesi**

The New Pink Snowball. A valuable recent introduction from Korea, which produces delicate, spice scented flowers in May and June. The buds are an attractive pink,

Common Snowball.

opening into clusters of pure white. The large flowers preserve their form and purity of color an unusually long time. Bush is low growing and of rounded form. Strong, 2-year, 12-15 in. shrubs, balled and burlapped, at the very low price of 75c each; or 3 for \$2.00.

Pussy Willow.

Spirea Anthony Waterer.

### Spirea Van Houttei

One of the finest of the Spireas, giving a most graceful appearance even when out of bloom. The flowers are pure white, and borne in dense clusters along the whole length of the branches. Excellent as a hedge plant or for grouping with other shrubs. Well branched, 2-year, 18-24 in. bushes, 11c each; 6 for 55c; 12 for \$1.00; or \$7.00 per 100. Heavy, 2-3 ft. bushes, at the unusually low price of 16c each; 6 for 85c; 12 for \$1.60; or \$9.00 per 100. Extra large, 3-year, 3-4 ft. bushes, 25c each; 6 for \$1.20; 12 for \$1.95; or \$7.25 for 50.

FREE! With Every Order for This Bargain  
1 ROSE ACACIA

### Spirea Callosa Rosea

A dwarf Spirea, producing large, flat clusters of reddish pink flowers nearly all summer. An especially desirable Spirea on account of its long blooming habit. Strong, 2-year, 12-18 in. bushes, 25c each; 6 for \$1.20; or 12 for \$2.00.

Rose Acacia.

**Spirea Anthony Waterer** A dwarf variety, growing 15 to 20 inches high, covered with large heads of crimson flowers. Foliage is very handsome, being variegated with creamy white or yellow. If flowers are removed as they fade, it will cause the plant to keep up a continuous bloom until freezing weather occurs. Strong, 2-year, 15-18 in. shrubs, 35c each; 6 for \$2.00; or \$3.75 per doz.

**Spirea Billiardi** A grand shrub for group or mass planting. Has dense spikes of rose-pink flowers that crown sparsely twigged, erect branches. Very pretty and showy; also an excellent cut flower. Blooms from July to September. Grows 4 to 5 feet high. One of the most attractive of all the Spireas. Strong, 2-year, 18-24 in. bushes, 30c each; 6 for \$1.60; or \$3.00 per doz.

Spirea Van Houttei.

**Spirea Aurea** (Golden Spirea). A strong, upright grower, attaining a height of 8 to 10 feet, although the branches are loaded with a mass of bloom in June that makes the branches droop somewhat. The young foliage is a bright yellow, changing to golden bronze in the autumn. Our price for strong, 2-year, 18-24 in. bushes, only 20c each; 6 for \$1.00; 12 for \$1.85; or \$16.00 per 100.

**Rose Acacia** (Moss Locust). Elegant shrub, with light green pinnate leaves, and long, graceful clusters of pea-shaped, rose colored flowers in June and often later. An attractive addition to any planting. Strong, 2-year, 2-3 ft., bushes, 30c each; 6 for \$1.60; or \$3.00 per doz.

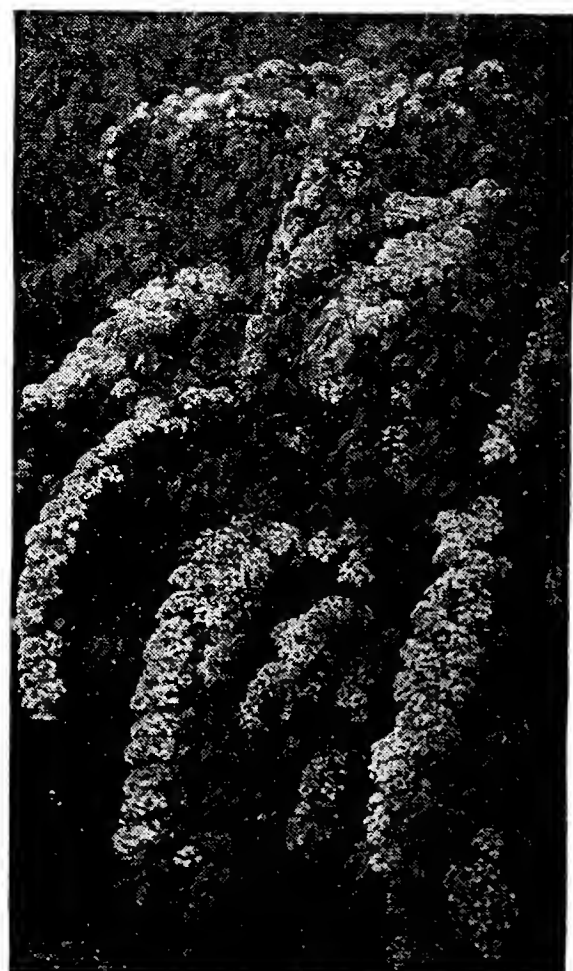

Spirea Callosa Rosea.

Spirea Billiardi.

### Korean Spirea

(*Spirea trichocarpa*). A handsome new shrub which has been acclaimed the best of all the Spireas. Grows 4 to 6 feet tall, and forms a big, dome-shaped bush covered in its season with large, rounded clusters of snowy flowers marked with darker eyes. It is very hardy, and is most attractive in habit and foliage, even when not in bloom. It is more robust and blooms 2 weeks later than the familiar Spirea Van Houttei and is far more desirable. It retains its beautiful glossy green foliage late into the autumn. Our price for strong, 2-yr., 18-24 in. bushes, only 45c each; 6 for \$2.40; or \$4.20 per doz.

Korean Spirea.

Special Discounts on Shrubs When All Cash Accompanies Orders. See Page 3.

Weigela, Eva Rathke.

**Weigela Eva Rathke** Very charming with its deep, carmine-red, bell-like flowers in June and again later. Low growing, only reaching a height of 3 to 4 feet, and spreading in character. Strong, 2-year, 18-24 in. bushes, at the very low price of 30c each; 6 for \$1.60; or \$3.00 per doz.

**Weigela Rosea** A tall growing, vigorous sort with deep pink flowers, trumpet-shaped, that are borne thickly along the stems in greatest abundance during June and more sparingly at intervals throughout the summer. Strong, 2-year, 18-24 in. bushes, at only 22c each; 6 for \$1.20; or \$1.95 per doz.

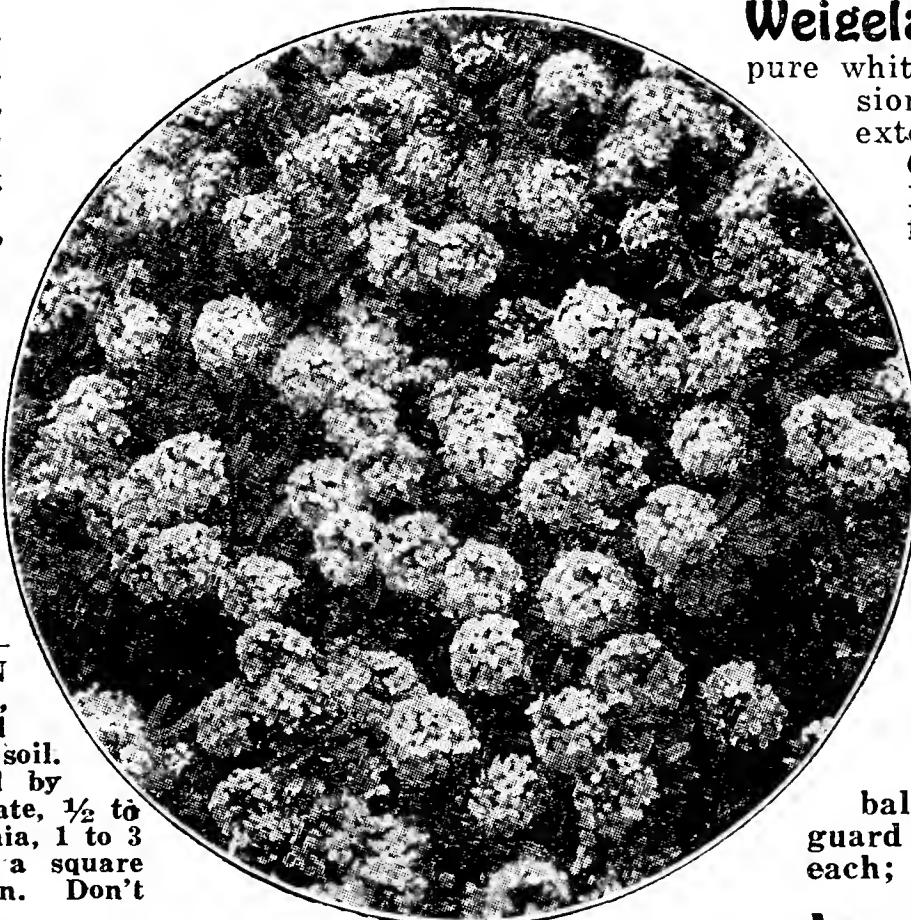

**Weigela Floribunda** A beautiful, comparatively new shrub, with large, showy red flowers appearing in profuse clusters and almost hiding the glossy green leaves. Commences blooming early in spring, and continues all summer. This attractive shrub should be in every border planting. Our price for strong, 2-year, 18-24 in. bushes, only 35c each; 3 for 90c.

Weigela Floribunda.

**Azalea Mollis** One of the aristocrats of the flower family. A strikingly beautiful shrub, covered with a flaming mass of orange, yellow or red bloom during the month of May. The flowers are large, 2½ inches in diameter, and appear in bunches at the ends of the shoots. Azalea Mollis is absolutely hardy, grows to a height of about 2 feet, and does well in both sunny and partially shaded locations. We offer strong, 12-15 in. bushes, balled and burlapped, at only \$1.35 each; or 3 for \$3.50.

**BROADLEAF EVERGREEN SHRUBS** and associating shrubs, such as Azalea, Daphne, and Spurge, grow best in an acid soil. This condition can be induced by application of Aluminum Sulphate, ½ to 1 pound, or Sulphate of Ammonia, 1 to 3 pounds, sprinkled evenly over a square yard of surface and spaded in. Don't allow them to become over-dry.

Daphne Cneorum.

**Weigela Candida** A choice variety with pure white flowers. Blooms in profusion during June and to some extent all summer. Grows 4 to 6 feet tall. Strong, 2-year, 18-24 in. bushes, 25c each; 6 for \$1.35; or \$2.50 per doz.

**Daphne Cneorum** Charming "Garland Flower." A very dwarf shrub, almost evergreen, with spreading branches on which blue-green leaves are crowded. Each branch stem is tipped with a dense cluster of rose-pink, deliciously fragrant flowers. Blooms profusely in April and May, and at intervals throughout the summer. Hardy but should be given a sunny location in northern states. Strong, 6-9 in. bushes, balled and burlapped to safeguard transplanting, at only 85c each; or 3 for \$2.25.

**Japanese Spurge** (*Pachysandra terminalis*). One of the best ground covering plants, which gives finish to your planting of shrubs, trees and evergreens by covering the bare soil. Fine for growing on banks and terraces. Averages 6 to 8 inches in height and branches freely into a dense mat. Its rubbery, lustrous dark green foliage is practically evergreen. For immediate carpeting effect, use 4 or 5 plants to each square foot. Makes its most luxuriant growth in dense or partial shade, but does well in sun when planted thickly to keep the sun from the root system. Strong, field-grown plants, 6 for 90c; 12 for \$1.50; \$10.00 per 100.

Azalea Mollis.

Japanese Spurge.

Bechtel's  
Double Flowering  
Crab.

fragrant. We recommend it highly for lawns and it is especially desirable for use in the small yard.

### Eleyi Crab

Red-Leaved Crab. The foliage of this variety is brilliant purplish red; very attractive. The flowers are rich red in color, in thick clusters like apple blossoms. In autumn the showy clusters of dark red fruits are much admired. A newer, much prized ornamental.

### Cut-Leaved Weeping Birch

A beautiful, tall, slender tree of vigorous growth, with graceful drooping branches, silvery white bark and delicately cut foliage. Very popular for single lawn specimens or groups; the white bark of trunk and twigs gleaming conspicuously among the darker greens and browns.

### Cornus Florida (White Flowering Dogwood).

Flowers white, 3 to 3½ inches in diameter, produced in spring before leaves appear; very abundant and showy. Foliage grayish green, glossy and handsome; in autumn turning to deep red. Spreading, irregular form, growing 20 to 25 feet high.

**Cornus Florida Rubra (Red Flowering Dogwood).** Slower growing and more formally shaped than the above. An attractive lawn specimen or group subject. The flowers are large and numerous, a lovely rose-red in color, and appear early in the spring, before the leaves.

**Japanese Flowering Cherry (Sekiyama Kwanzan).** A recently developed line of small sized

flowering trees which are taking America by

# Ornamental Trees

## For Shade and Beauty

All two- and three-year-old, strong and vigorous, well branched and well rooted. We offer no small, spindly whips.

### Bechtel's Double Flowering Crab

A wonderful low, bushy tree which blooms when quite young. Words fail to describe its surpassing beauty when in bloom. It is a rose in disguise and as sweet as the breath of spring. At a distance the tree seems covered with dainty roses of delicate pink color. Very

storm. We have selected Kwanzan as one of the best of this extremely beautiful species. Flowers are very full and double, deep pink or old rose, varying in tone according to weather conditions. Try to duplicate our low price elsewhere for trees of equal size and quality.

Lombardy Poplar.

Prunus Pissardi.

Cut-Leaf Sumac.

Weir's Cut-Leaf Maple.

**Silver Maple** (*Acer dasycarpum*). A hardy, rapid growing, beautiful native tree attaining a large size, valuable for producing a quick shade. Its leaves are good sized, rather deeply and irregularly indented, bright green above and silvery beneath, turning to bright yellow and bronze in the fall. It makes a broad, bulky tree, getting to a shading size quicker than any other variety. Trees well rooted, well branched, straight trunks; all fine, sturdy specimens.

**Chinese Elm** (*Ulmus pumila*). Fully as beautiful as the American Elm, and has the advantage of being a far more rapid grower. Will give ample and luxurious shade in only 5 or 6 years from planting. The Chinese Elm is a tree of rare beauty; has dense, dark green foliage; is the first shade tree to leaf out in the spring, and the last tree to shed its leaves in the autumn. Thrives on rich or poor soil, resists drought and cold, and succeeds in all parts of the United States. Does well everywhere, except on low, wet ground. Chinese Elm is destined to shortly become the most popular lawn and shade tree in America.

**Poplar, Lombardy** A tall, narrow, tapering tree of obelisk form, growing rapidly to a height of 60 feet or more at maturity. Always makes a striking feature in any landscape. Fine for planting in groups, along driveways and boundary lines; also for tall screen hedges.

### BARGAIN L—SPECIAL!

6 Lombardy Poplar. Large, 10 to 12 ft. size.  
Only \$3.00 By Express, Not Prepaid

**Cut-Leaf Sumac** (*Rhus typhina laciniata*). An attractive small tree with deeply cleft leaves. If pruned to induce considerable bottom growth, a delightfully ferny effect is created. White flowers are borne during June and July, followed by red fruits. Leaves turn to brilliant red in the fall.

**Weir's Cut-Leaf Maple** This variety is one of the most attractive of the well known, popularly loved Maples. It is a Silver Maple with remarkable and dissected foliage. Of rapid growth, shoots slender and drooping, giving it a very dense appearance clear to the ground.

**Wisconsin Weeping Willow** A graceful tree of large size. Its fresh, bright green tint, and long, wavy branches make it very attractive. This is the most generally planted variety, and makes immense broad-topped specimens.

**Prunus Pissardi** (*Purple-Leaved Plum*). A very remarkable and beautiful tree, with almost black bark, and striking pinkish purple leaves in the spring that deepen in color as the season advances. Has single, white flowers. Very striking and ornamental for lawn planting.

**Prunus Triloba** (*Double-Flowered Plum*). The Rose Tree of China. One of the most beautiful and showy of flowering trees. Very early in spring, before its leaves appear, the small tree is decked in a fleecy cloud of very double light pink blossoms. No lawn is too small for at least one of these trees, as they seldom attain a height of more than 8 feet. A row along the driveway also gives a lovely effect. The roselike blossoms make excellent cut flowers.

**Catalpa Bungei** (*Umbrella Catalpa*). Makes an umbrella-shaped top without pruning, forming a pretty, symmetrical, dome-shaped head of large, glossy, heart-shaped, deep green leaves. Very desirable for border along drive or walk, or for lawns.

Judas Tree.

**Judas Tree** (Redbud). A medium sized tree with large, irregular head and heart-shaped leaves. Especially beautiful in early spring, when covered with bright pink blossoms. Grows best in a moist, sandy loam. One of the finest ornamental trees.

**European Mountain Ash** (*Sorbus aucuparia*). A hardy, medium size, smooth barked tree; head dense and regular. Covered from July until winter with large clusters of bright red berries. Reaches a height of 25 to 30 feet when matured. A most beautiful and attractive tree.

**Magnolia Tripetala** Attains an average height of 30 to 40 feet; has immense leaves, usually from 12 to 24 inches long, and from 7 to 10 inches wide. Leaves grow in clusters about the large white flowers and rose colored fruit cones. Flowers are from 8 to 10 inches across. Spreading branches form an open head.

**Ailanthus** (Tree of Heaven). An extremely rapid grower with brilliant green, palmlike leaves. Thrives in city lots exposed to gas and smoke, and in soil where other trees would perish.

**Teas' Weeping Mulberry** The most graceful hardy weeping tree in existence. Forms a perfectly round, tent-shaped head, with slender, leaf-studded branches drooping to the ground; the diameter of its leaf-screened bower about half the height. It has beautiful foliage, is hardy, safe and easy to transplant. Admirably adapted for small grounds, specimens or for cemetery planting. It is equally valuable when used as a screen against high walls, or to separate the garden from the lawn. We offer well developed trees, with straight stems, the best to be had, at an unusually attractive price.

### Paul's Double Scarlet Thorn

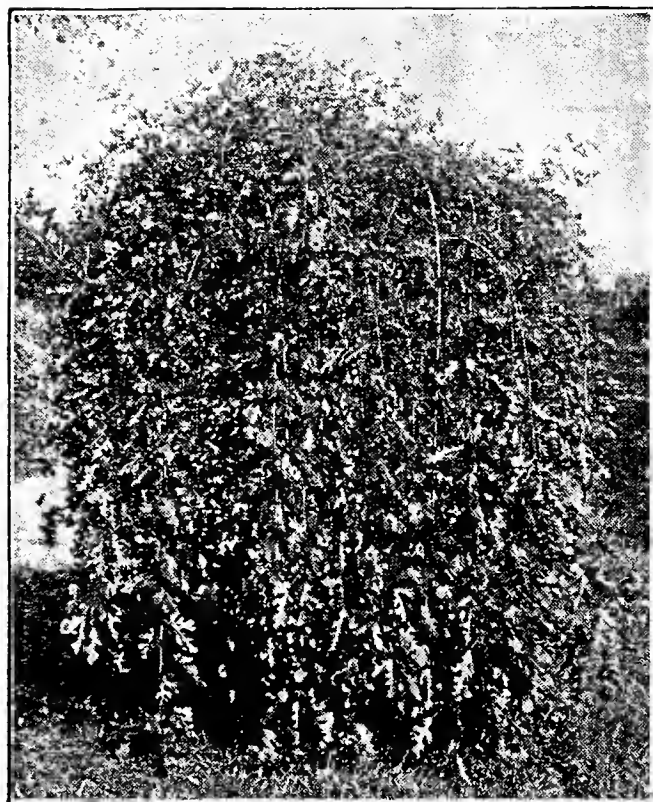

A handsome dwarf tree with shiny leaves of attractive shape and color; blooming in profusion late in spring with compact clusters of deep crimson-scarlet flowers, very double. These are followed by large red fruits of vivid autumnal colorings. A most attractive small tree for solitary specimens, as showy in fruit as when in bloom.

Japanese Red-Leaved Maple.

### Japanese Red-Leaved Maple

A valuable addition to any planting—the most beautiful of the Maples. Leaves are a vivid blood-red, of unrivaled brilliancy and charm. Tree is hardy and dwarf growing, rarely attaining a height of more than 8 to 10 feet. Very effective as single specimens, in groups, or as foreground subjects in mixed groups.

Teas' Weeping Mulberry.

# HEDGE PLANTS

Red-Leaved Barberry.

## Red-Leaved Japanese Barberry

The greatest really worth while, and most outstanding novelty of a lifetime. Excepting color of foliage, it is similar in all respects to the green-leaved Japanese Barberry, so popular for hedgings, shrubbery borders, group plantings, or as single specimens on the lawn. Its foliage, however, as it develops in early spring, assumes a deep, bronzy red color, similar to the richest red-leaved Japanese Maple, which it retains until fall, when it changes to vivid orange, scarlet and red shades, far more brilliant than the ordinary Japanese Barberry. This unrivaled coloring is followed by the same scarlet berries common to the type, which remain on the plant throughout the entire winter.

### Hardy Dwarf Boxwood

Elegant dwarf shrub with deep green, glossy, dense foliage, which may be pruned into any shape desired. Propagated here in Michigan, and entirely hardy. Unsurpassed by any other hardy edging in refinement and lustrous beauty. Usually offered at very high rates, but we are now pricing Boxwood within the reach of all.

### Amoor River North Privet

One of the best hedge plants because of its extreme hardiness. It is of similar form and habit to the well known California type, but much hardier. Of fine, upright growth with lustrous dark green foliage, nearly evergreen. Grows quickly, making a hedge the first year, and succeeds in practically all soils. Especially valuable for hedges and borders in cold or exposed locations. When planting cut back to four inches above ground to make hedge bushy at bottom.

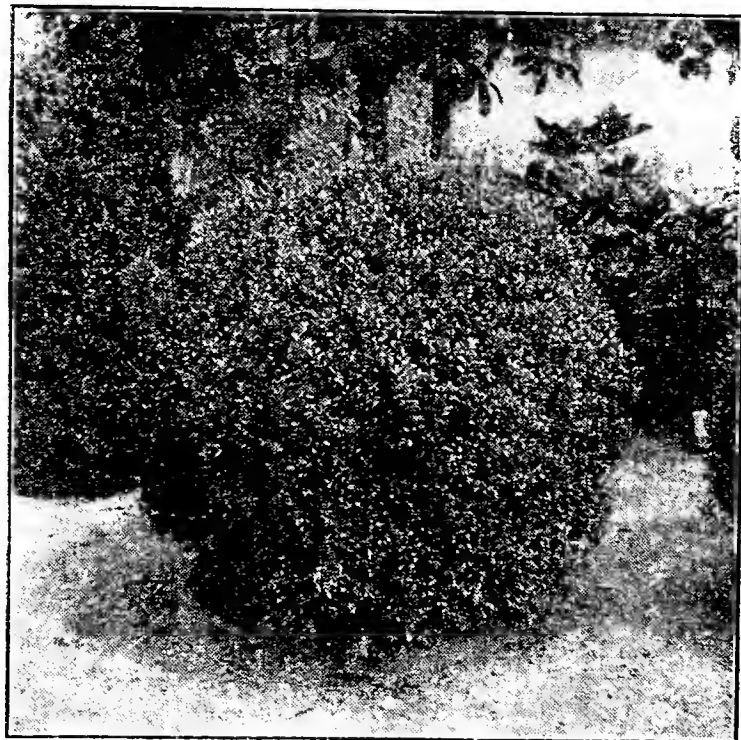

### California Privet

One of the finest all-purpose hedges. A pretty shrub with smooth, shining leaves of unusual beauty. Thrives in almost any soil. Equally pretty for shrubs and in group plantings. Shears splendidly to any shape or form. Sometimes subject to winter injury in the coldest climates.

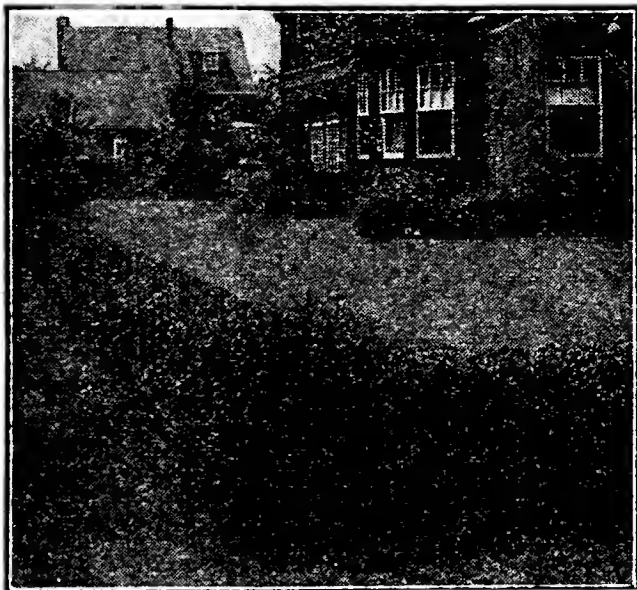

### Japanese Barberry

(Berberis Thunbergi). Immune to rust. Dwarf growing, uniformly bushy and rounded in form, numerous leaves covering thorny twigs. As a filler, edging for other shrubbery, as foundation screen in front of porches, as a hardy, low hedge, it is unsurpassed. Foliage bright, rich green, turning to a blaze of crimson and gold in autumn. Small, creamy white flowers followed by oval red berries which gleam along every branch in late fall, and far into the winter.

We have a large supply of Red Barberry this spring, and at our new low price you can now have a hedge of this beautiful shrub at little more than the cost of the more ordinary hedging varieties.

Boxwood, Trimmed to Ball Shape.

## The NEWER

### All Hybrid Teas

Will bloom continuously this summer and every year following. Everyone loves Roses. At our low prices you can plant all you want. Remember, our Roses are strong, two-year, field-grown bushes, ready to bloom.

**Schwabenland** New pink Rose unlike any other in color or in the splendid formation of its buds. Flowers are over 5 inches in diameter, with a high, spiral center, and peculiarly curled petals. Luminous rose-pink in color, carried on long, stiff stems.

**Talisman** Most astounding Rose novelty produced in many years. Its brilliant orange-red buds open to large, fragrant, high-pointed bloom of glowing golden yellow stained with copper-red and orange-rose on inside of petals. As the petals unfold, they become bright apricot-gold, deep rose-pink or old rose, and unlike most Roses, the color becomes brighter as the flowers develop. Plants are vigorous, healthy and hardy growers.

### Rev. F. Page - Roberts

Remarkably beautiful Rose, both in form and color. Long, coppery red buds, opening to marvelously colored flowers of golden yellow stained with copper and reddish buff on the outside of petals. Unusually large, double flowers; sweetly scented. Plants are strong and branching, with healthy foliage.

### Edith Nellie Perkins

Long pointed buds; flowers moderately double, and produced on long stems. The outside of the petals is cream and blush, shaded with orange at the base. The inner face is salmon-pink with a golden orange base. Very fragrant. Bushes are of strong, robust growth.

Talisman.

Edith Nellie Perkins.

### Dame Edith Helen

Largest, most perfectly shaped and most perfumed pink Rose. Clear, glowing pink, from the time the bud opens until the petals fall. Blooms abundantly, with long, strong stems. Growth of bush is vigorous and thoroughly hardy. Wins praise and admiration everywhere.

**Etoile de Hollande** Large, velvety crimson flowers produced in great profusion throughout the summer. Deliciously perfumed. Vigorous, upright grower. Unquestionably a popular and excellent red Rose.

**Lady Margaret Stewart** Flowers are full and double, sweetly scented, and of wonderful shape. Immense buds, long and pointed, of a deep sunflower yellow, heavily veined and splashed with orange-scarlet. As the flowers open, these colors intermingle, forming a beautiful cadmium-orange effect.

### Mevrouw G.A. Van Rossem

Vivid flowers of deep golden apricot, shaded with copper-pink and heavily veined with deep orange-russet. Very large, perfect in form and sweetly scented; produced freely on strong upright growths.

# BETTER ROSES

## SPECIAL! BARGAIN 21

**Ten  
Rose  
Bushes**

All two-year, field-grown. Will bloom this year. One each of the ten new varieties illustrated on these two pages.

**\$3.75** Net Postpaid

**Mrs. E. P. Thom** Best yellow Rose. Fine long buds open into perfectly shaped, open flowers of rich lemon-yellow which do not fade; sweetly scented. Very vigorous grower and continuously in bloom.

**Patience** Fine, long, pointed buds of deep scarlet-carmine. As the flowers open, they become brilliant orange at the base of the petals, shaded to rich carmine at the edges and suffused with copper. Large, double, perfect blooms, very fragrant. Strong, robust bushes with glossy leaves; very free flowering.

**E. G. Hill** New, best red Rose. Beautiful long buds of perfect form, and full, double, high centered flowers of dazzling scarlet, shading to deeper velvety red as they develop. Exquisitely perfumed. Vigorous, free flowering habit.

## Pres. Herbert Hoover

A gorgeous Rose of a really new color combination. Buds are coppery red, beautifully pointed, and borne on rigid stems. Large flowers are a vivid cerise-pink, scarlet-orange and gold, rioting in the most dazzling color effect imaginable. Exquisite fragrance. Unusually attractive in all stages of bloom. Very free flowering. Very popular new Rose.

Golden Dawn.

**Olympiad** A wonderful new Rose—unique in color. Lustrous, dark oriental scarlet, its depth and warmth accentuated by a bright golden base and intensified by a marvelous velvety sheen that makes its rich coloring particularly effective, especially under artificial light. Blooms are beautifully formed, of globular type with a high center, perfumed and long stemmed.

**Golden Dawn** Delightful new Rose, with coloring suggestive of the name Golden Dawn. Bud rich straw-yellow, flushed old rose; flower double, well formed, fragrant, sunflower yellow passing to lemon-yellow with age. Very free flowering; strong plant with large, glossy, healthy green foliage. We recommend this in every way.

Mrs. E. P. Thom.

## Chas. P. Kilham

Long pointed buds of perfect shape, opening to high centered, full double flowers. Blooms are a blazing scarlet-orange at first, opening to bright orange-pink with fiery centers. Sweetly scented. Vigorous grower, very free flowering, and excellent both for bedding and cutting.

Chas. P. Kilham.

## New and Old

# Favorite Roses

**Wilhelm Kordes.** (Hybrid Tea). Very double, star-shaped flowers of vivid salmon-pink shaded with orange and yellow. Large, long pointed buds. Strong, 2-year, field-grown bushes, 50c each; 3 for \$1.35; 6 for \$2.40.

**Betty Uprichard.** (Hybrid Tea). Deep toned carmine with coppery orange blend; interior mostly delicate salmon-pink. Very choice. Strong, 2-year, field-grown bushes, 40c each; \$1.05 for 3; \$1.80 for 6.

**Red Radiance.** (Hybrid Tea). Large, globular flowers of an even, clear red. Constantly in bloom. Very popular.

**Pink Radiance.** (Hybrid Tea). Extra hardy, vigorous and prolific. Beautiful blending of carmine-rose with shades of opal and copper.

**Gruss an Teplitz.** (Hybrid Tea). Bright scarlet, shading to velvety crimson; fragrant; free flowering.

**Mme. Edouard Herriot.** (Pernetiana). Unique and unsurpassed coloring. Glorious commingling of terra cotta, bronze, geranium-red and dull copper; fine long pointed buds of coral-red and yellow.

**Souv. de Claudius Pernet.** (Pernetiana). Most satisfactory yellow Rose. Strong, sunflower-yellow, even deeper toned at center. Large flowers; buds long and pointed. Vigorous growing bush, with brilliant foliage.

**Paul Neyron.** (Hybrid Perpetual). Largest Rose in cultivation. Color bright cerise-red, very fragrant. June until late October. Flowers full and double.

**Los Angeles.** (Hybrid Tea). Beautifully shaped, fragrant flowers of pale salmon-pink, richly shaded with deep rose and gold.

**Kaiserin Augusta Victoria.** (Hybrid Tea). Most popular white Rose. Large, double, very fragrant flowers borne on long stiff stems.

**Mrs. Aaron Ward.** (Hybrid Tea). Very distinct, coppery orange in the bud, golden orange when partly developed, and pinkish fawn when fully opened; very fragrant.

**Frau Karl Druschki.** (Hybrid Perpetual). Very large, perfect form, and snow-white; vigorous grower; free bloomer.

**Rosa Hugonis.** Golden Rose of China. Unlike any other Rose. Has a shrublike manner of growth, and naturally forms symmetrical bushes about 6 feet high and the same in diameter. Flowers are single and delicate, ranging in color from deep gold to canary, and produced on long, arching sprays early in May.

**F. J. Grootendorst.** (Baby Rambler Rugosa Rose). Typical Rugosa foliage and habit; compact, bushy growth. Bloom is in clusters of oversized, double red flowers, produced from early summer until fall. Valuable for either specimen or group planting.

# Climbing Roses

*For Beautiful Effects on Trellises, Arbors and Pergolas*

## Blaze

The New Hardy Everblooming Scarlet Climber. Blooms continuously throughout the summer. Protected under U. S. Plant Patent No. 10 and offered for the first time last season. A cross between Paul's Scarlet and Gruss an Teplitz, from which it inherits its everblooming qualities. Blaze is seldom out of bloom. In the middle of August the bushes are covered with vivid scarlet flowers from bottom to top. A brand-new creation. Be first in your community to plant this new climber, and be assured of a wealth of flaming scarlet bloom all summer. Strong, 2-year field-grown bushes, \$2.00 each; \$10.00 for 6.

## New Dawn

The New Everblooming Dr. W. Van Fleet. First plant patented under U. S. Patent Laws. Identical in every way with the popular Dr. W. Van Fleet, except that it flowers throughout the season. Has long pointed flesh-pink buds and double flowers on fine long stems. Extremely vigorous, with marvelously fine foliage.

Blaze.

Strong, 2-year, field-grown bushes, \$1.50 each; \$7.50 for 6.

## Chaplin's Pink Climber

Produces its large flowers, similar in size and form to Paul's Scarlet, profusely in strong trusses of from 8 to 12 flowers each but in color a rich, lively pink. Strong growing and perfectly hardy. Our stock of strong, 2-year, field-grown bushes priced exceptionally low at 35c each; 3 for 85c; 6 for \$1.50.

## Paul's Scarlet

A wonderful Rose for trellis or pergola. No other Rose, in any class, can compare with this for brilliancy of color, which is maintained until the petals fall. The flowers, a vivid scarlet, are of good size, semi-double, very freely produced in clusters, on much branched canes, the plants being literally covered from top to bottom with bloom. Blooms very long, holding flowers after many June bloomers have dropped their petals. Strong, 2-year, field-grown bushes, 30c each; 3 for 80c; 6 for \$1.40.

## American Beauty

The famous American Beauty Rose in climbing form. Has all the characteristics of its relative, including form and fragrance. Lovely deep rose colored flowers. Healthy foliage, and has strong climbing habit of growth. Strong, 2-year, field-grown bushes, 30c each; 3 for 80c; or 6 for \$1.40.

## Baby Rambler

A fine Rose for massing in beds. Seldom attains a height of more than 18 to 24 inches; spreads out about 18 inches. Flowers are crimson-red in color, florets of good size in gracefully arranged clusters. We suggest that at least three bushes be planted for most attractive effect. Strong, 2-year, field-grown bushes, 22c each; 3 for 55c; 6 for \$1.00.

## Dorothy Perkins

A most beautiful shell-pink. The flowers are borne in large clusters of small double blooms, and are very sweet scented. This is undoubtedly the thriftiest, showiest and most practical of the older climbers, and is probably more extensively planted than any other. Strong, 2-year, field-grown bushes, 18c each; 3 for 50c; 6 for 90c.

## Primrose

New Yellow Climber. Light primrose-yellow blooms which do not fade. Large flowers borne in trusses of from two to five, on long stems; very long lasting. Hardy, vigorous grower, with healthy, dark green foliage. Will undoubtedly become the most popular yellow climber for the North.

Our price for strong, 2-year, field-grown bushes, only 50c each; 3 for \$1.35; or 6 for \$2.40.

## Mme. Gregoire Staechelin

The charming new "Spanish Beauty" climber. The buds are long and pointed, crimson at first, then the firm outer petals show splashes of carmine as the flower opens, with an iridescent pearl-pink inside; richly perfumed. It grows to a height of 12 feet or more, and has large, disease-resistant foliage. We price this new variety very low at 40c each; 3 for \$1.05; 6 for \$1.80.

Primrose.

Mme. Gregoire Staechelin.

# EVERGREENS

## For Year-Round Beauty

Plant WHITTEN-ACKERMAN Balled and Burlapped Evergreens for immediate effect. They are fine specimens, large enough to make a good showing the first year.

These trees are dug with a ball of earth around the roots and wrapped with burlap, to insure safe transplanting. They are quite heavy, and we have found that when more than one balled and burlapped tree is ordered, freight shipment is advisable and perfectly safe. Carrying charges are very reasonable, and we will ship in this manner whenever possible.

**Colorado Blue Spruce** (*Picea pungens*). The most popular and showy of all Spruces. Its silver foliage, glistening in the sunlight, creates such a delightful appearance that it surpasses in beauty any other evergreen. It is very hardy, a good grower, will withstand severe winters and excessive moisture, and is very easily transplanted. When dormant the tree acquires a somewhat greenish cast, but as soon as the new growth makes its appearance, clothing it in a deeper cast of blue, the full beauty of this glorious tree can be appreciated to the utmost. Our price for balled and burlapped, 18-24 in., XXX, selected, true-blue specimens, only \$2.50 each; or 3 for \$6.50.

**Austrian Pine** (*Pinus nigra*). Long, slender needles, of a deep, rich green color. One of the best evergreens for city planting, coal gas and smoky atmospheres having no effect on its growth. Equally good for seashore planting and for inland. Balled and burlapped, 24-30 in. trees, XX, only \$1.35 each; 3 for \$3.75.

**Black Hills Spruce** (*Picea canadensis albertiana*). The hardiest of all Spruces—symmetrical, compact and bushy in habit of growth. Foliage varies from bright, fresh green to a bluish tint. Rather spreading in habit and used mainly for specimens, background and in places away from buildings. However, it is a slow grower, and is often seen in foundation plantings. Our price for balled and burlapped, 12-18 in. trees, XX, only \$1.35 each; 3 for \$3.75.

**Mugho Pine** (*Pinus mughus*). Genuine true dwarf type. Growth is dense and plants are thickly covered with heavy, dark green needles. It never grows over 4 to 5 feet tall, but spreads out 6, 8 or more feet in diameter when full grown. By annual shearing it can be kept as small as desired. Color is deep green in summer and winter. Our price for balled and burlapped, 15-18 in. trees, XXX, only \$1.75 each; 3 for \$4.50.

**American Arbor-Vitae** (*Thuja occidentalis*). Of erect, broadly pyramidal habit, with soft bright green foliage, dense from ground up. Grows rapidly, does well in any location, and is very hardy. Can be trimmed or sheared to any shape, and is the best evergreen for hedging purposes. Our price for balled and burlapped, 18-24 in. trees, XX, only 80c each; 3 for \$2.25.

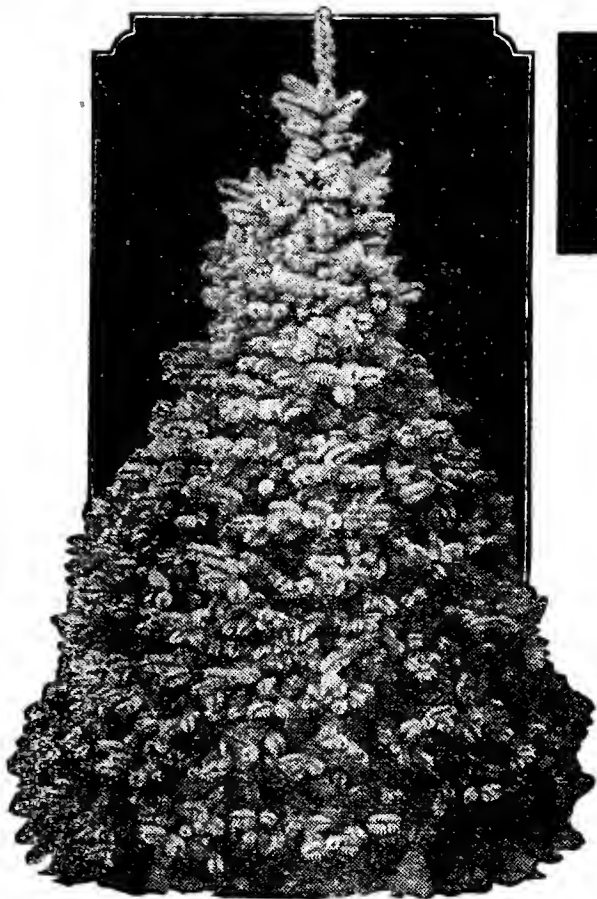

**Woodward Arbor-Vitae** (*Thuja occidentalis Woodwardi*). This splendid globe Arbor-Vitae is rapidly becoming one of the most popular varieties. This is due to the fact that it maintains itself well under all conditions, and keeps the globe habit without trimming. Seldom attains a height of more than 3 feet. Foliage is dense, and of deep sea green shade. Our price for balled and burlapped, 12-15 in., XX, \$1.15 each; 3 for \$2.75.

**Pyramidal Arbor-Vitae** (*Thuja occidentalis pyramidalis*). A densely columnar type, most compact and erect of all the Arbor-Vitae, and at 12 feet high averaging only 24 to 30 inches in diameter. Foliage a deep green, retaining color. Height when matured, 12 to 15 feet. The most popular pyramidal tree on the market. Balled and burlapped, 24-30 in. trees, XX, \$1.40 each; 3 for \$3.50.

### PLANT LIVING CHRISTMAS TREES SPECIAL BARGAIN X

Big Reduction in Express Rates on Evergreens. See Page 48.

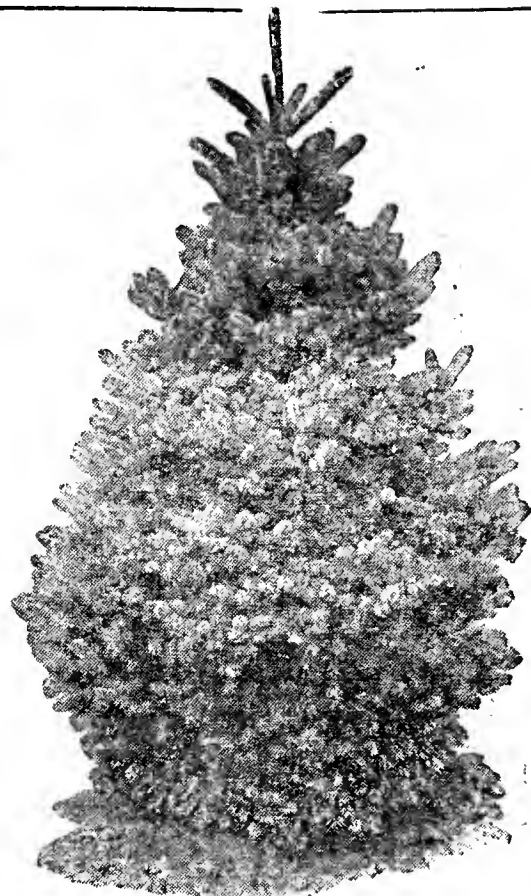

**Moerheim's Blue Spruce** The Finest Blue Spruce. Much bluer than either Koster's or Colorado Blue Spruce. Grows straight and shapely. Originated in Holland, and so much superior to other kinds that the U. S. Government allowed the stock to come into the country for propagating purposes. You'll surely want this excellent Spruce in your evergreen planting, so order early, for our supply is limited. Our price, balled and burlapped, 15-18 in., twice transplanted, selected trees, only \$3.25 each; 3 for \$9.00.

**Concolor Fir** (*Abies concolor*). Also known as "Silver Fir" and "White Fir." It is the showiest of all Firs, because it is the nearest to blue. One of the most attractive evergreens in winter. It retains its lower branches, has no insect enemies, and is the best Fir tree to withstand heat and drought. Its large, flat leaves, thickly disposed on the branches, are very noticeable, giving it a dignified appearance. No evergreen planting is complete without it. Balled and burlapped, 18-24 in., three times transplanted, \$2.50 each; 3 for \$6.50.

**Pfitzer's Juniper** (*Juniperus chinensis Pfitzeriana*). The great popularity of this evergreen is due to its ability to thrive in all parts of the country and under almost any conditions of soil or exposure. One of the few evergreens that will stand considerable shade. Color is deep green, with a grayish cast. Should be in every evergreen planting. Balled and burlapped, 18-24 in., twice transplanted trees, only \$2.00 each; 3 for \$5.00.

**Irish Juniper** (*Juniperus communis hibernica*). An erect and slender evergreen, formal and columnar in form. The foliage is deep green and very compact. When matured, this tree reaches a height of six to seven feet, but it is never over one and one-half feet in diameter. Much used in cemetery plantings, as well as in landscaping the home grounds. Balled and burlapped, 18-24 in., twice transplanted, \$1.15 each; 3 for \$3.00.

**Scotch Pine** (*Pinus sylvestris*). A hardy, rapid grower, which does well on almost all soils. Needles light green in color. Makes a loose but symmetrical growth when young. In old age it inclines more to the picturesque than the beautiful. Balled and burlapped, 2½-3 ft. trees, three times transplanted, only \$1.50 each; 3 for \$4.00.

Moerheim's Blue Spruce.

## BABY EVERGREENS

Varieties same as illustrated and described on these two pages, but smaller trees, not balled and burlapped.

Four years old, transplanted, well rooted, and with very nice tops.

Will average from 6 to 15 inches in height, depending upon variety.

Hibiscus.

**Prices:** ALL VARIETIES LISTED BELOW.

Strong, 2-year, field-grown plants:  
15c each; 3 for 40c; 6 for 75c, net, postpaid.

**Gypsophila** (Baby's Breath). Beautiful branching plant, covered in midsummer with a fleecy mass of small, white flowers, useful for mixing in bouquets.

**Hibiscus** (Giant Flowering Rosemallow). Perfectly hardy and does well anywhere. Very large, showy flowers throughout the summer. Your choice of Red, Pink or White with Crimson Eye. Specify color.

**Carnation** Hardy, giant flowering. Your choice of Red, White or Pink. Specify color.

**Campanula** (Cup and Saucer Canterbury Bells). Lovely border plant, with a liberal number of flower spikes along which are a crowded profusion of bells. Blue or Pink. Specify color wanted.

**Aquilegia** (Columbine). Long-Spurred Hybrids. Dainty, showy and desirable as cut flowers. Bloom in June and July. Prefer partial shade. Pastel shades of rose, blue and yellow. Mixed.

**Chrysanthemums** Hardy. Valuable for cut flowers. Brighten the garden after most perennials are gone. Homestead, dark pink. India, copper-red. Snowclad, white. Golden Queen, yellow. Specify variety wanted.

**Hollyhocks** Fine for showy backgrounds and tall borders. Bloom freely throughout the summer. All double flowering in your choice of Red, White, Pink or Yellow.

**Olympia Poppy** Oriental. New double, large flowering. Scarlet, overlaid with salmon.

**Tritoma** (Red Hot Poker). Flaming scarlet flowers, the opened lower petals rimmed with orange. Mulch for winter protection.

**Pyrethrum** (Painted Daisy). Blooms throughout the summer. Fine cut flower. Lovely rose color.

**Foxglove** Giant Shirley. Tall spikes of long, bell-shaped flowers in various shades of white, shell-pink and rosy red.

## Delphiniums

One of the most popular of perennials. Bloom all summer, with tall, showy flower spikes.

**English Hybrids** Very choice. Greater height, longer flower spikes and more delightful color tones and patterns. Among them occur the much prized shades of pink and white, besides the full range of blues; but no particular colors are guaranteed.

**Belladonna** A magnificent sort with large spikes of delicate turquoise-blue.

**Bellamosa** A very dark blue. Contrasts strikingly with Belladonna.

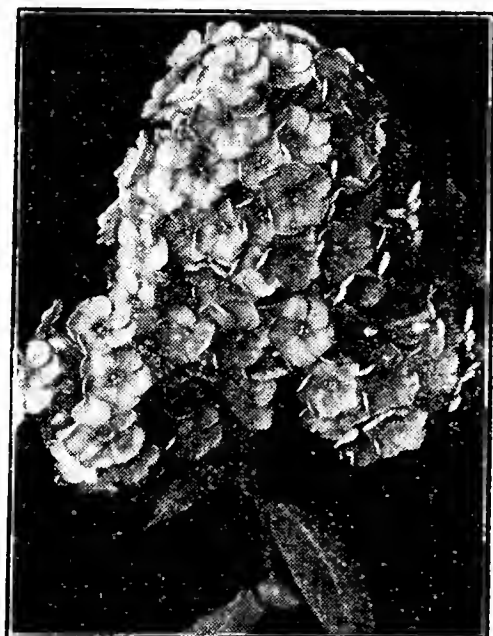

Your choice of any of the above three varieties, strong, 2-year, field-grown plants, only 20c each; 3 for 50c; 6 for 95c; 12 for \$1.75. Net, postpaid.

## Hardy Lilies

**Regal Lily** Magnificent new hardy Lily from China. Tall spikes of white flowers, slightly suffused with pink, with a beautiful glow of canary-yellow at the center, which continues part way up the trumpet. Exquisite perfume. Starts blooming end of June. Large size bulbs that will bloom this summer, only 15c each; 3 for 40c; 6 for 70c; 12 for \$1.25. Net, postpaid.

**Tawny Day Lily** (*Hemerocallis fulva*). Many tall stems of coppery red, double blooms in June and July. Very hardy and thrives everywhere, but prefers a rich, moist loam. Strong, 2-year bulbs, only 15c each; 3 for 40c; 6 for 70c. Net, postpaid.

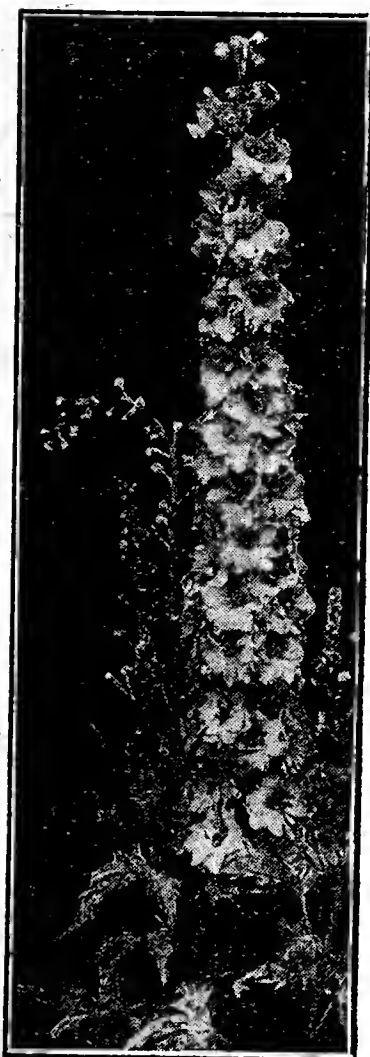

**White Day Lily** (*Funkia subcordata*). Grow 18 inches high, with a wide circle of broad leaves. Large flowers, beautiful waxy white, very fragrant, and borne in clusters on 12 to 15 inch stems. Their broad, massive foliage makes these Lilies attractive subjects for the border, even when not in flower. Strong, 2-year bulbs, only 15c each; 3 for 40c; 6 for 70c. Net, postpaid.

Phlox.

Gladiolus.

Delphinium.

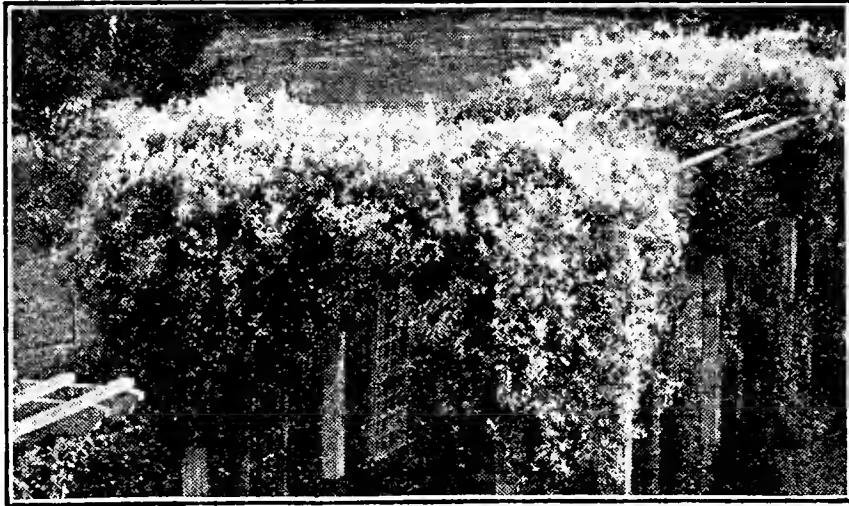

Regal Lily.

Special Gift Planting Offer on Page 2.

**Silver Lace Vine**

(*Polygonum Auberti*). Always scarce and in demand is this charming climber which will clamber gracefully over a trellis, porch or arch, or upon any support which may be devised. Grows rapidly, averaging 25 feet in a season. A well grown specimen is a cloud of lacy, misty white shot with tints of cream and pale rose of exquisite effect; covers a season extending from late summer till well into the fall. Strong, 2-year vines, 50c each; 3 for \$1.25.

Silver Lace Vine.

**American Bittersweet**

(*Celastrus scandens*). A native climber, with handsome, glossy foliage and large clusters of beautiful, orange-crimson berries, remaining all winter. Very bright in effect, and charming for winter house decorations. 2-yr., No. 1 vines, 30c each; 3 for 75c.

**Climbing Hydrangea**

A rare and beautiful new climber.

See page 2 for illustration and full description.

1 Chinese Purple Wisteria  
1 Boston Ivy

Only **90c** Postpaid

# CLIMBING VINES

**Wisteria, Chinese Purple** One of the most elegant and rapid growing of all climbing plants. Attains an immense size. Has long pendulous clusters of pale blue flowers in May and June, and in autumn. 2-year, No. 1 plants, choice specimens, from blooming wood, only 40c each; 3 for \$1.10.

**Wisteria, American** (*Magnifica*). A very strong growing vine with lacy foliage and beautiful, drooping trusses of blue flowers as large as bunches of grapes. Propagated from blooming wood. 2-year, No. 1 vines, from blooming wood, only 25c each; 3 for 60c.

**Clematis Paniculata** (*Sweet Scented Japanese Clematis*). A rapid grower, and desirable wherever a quick growing vine is needed on walls, verandas, etc. In late summer it produces dense sheets of medium sized, pure white flowers of the most pleasing fragrance. Will grow in almost any soil, and is entirely free from blight and insects. 2-year, No. 1 vines, 30c each; 3 for 75c.

**Clematis Jackmani** Immense flowers of an intense violet-purple color that bloom continuously throughout the summer. Strong 2-year vines, 80c each; 3 for \$2.25.

**Kudzu Vine** A grand hardy climber. Large foliage and dense shade. Will run 30 to 40 feet in one season. Flowers plentiful in August; rosy purple, pea-shaped, in small racemes. 2-year, No. 1, 20c each; 3 for 50c.

**Honeysuckle, Hall's Japan** A strong, vigorous vine, with pure white flowers changing to yellow. Foliage remains green well into the winter. Extremely fragrant and covered with flowers almost the entire season. 2-year, No. 1 vines, 20c each; 3 for 50c.

**Honeysuckle, Scarlet Trumpet**

Similar in manner of growth to Hall's Japan, but bearing innumerable trumpet-shaped flowers of bright scarlet. 2-year, No. 1 vines, 30c each; 3 for 75c.

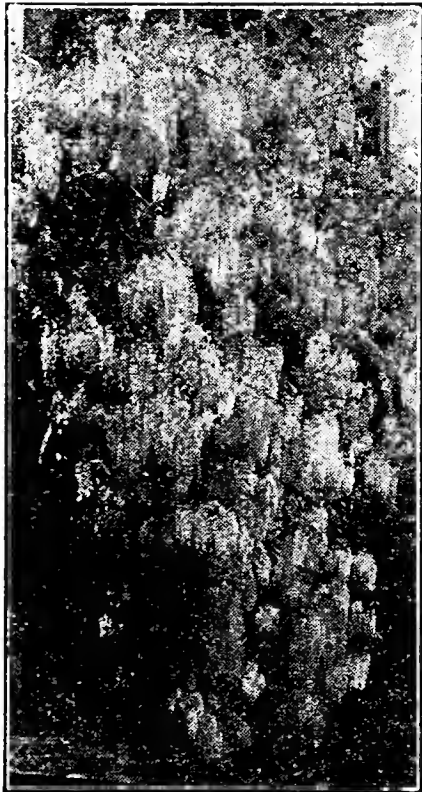

**Boston Ivy** (*Ampelopsis Veitchi*). One of the finest hardy climbers for covering walls, verandas and trunks of trees, as it clings firmly to the smoothest surface, covering closely with overlapping foliage. The color is a fresh, deep green in summer, changing to the brightest shades of crimson and scarlet in autumn. 2-year, No. 1 plants, 35c each; 3 for 95c.

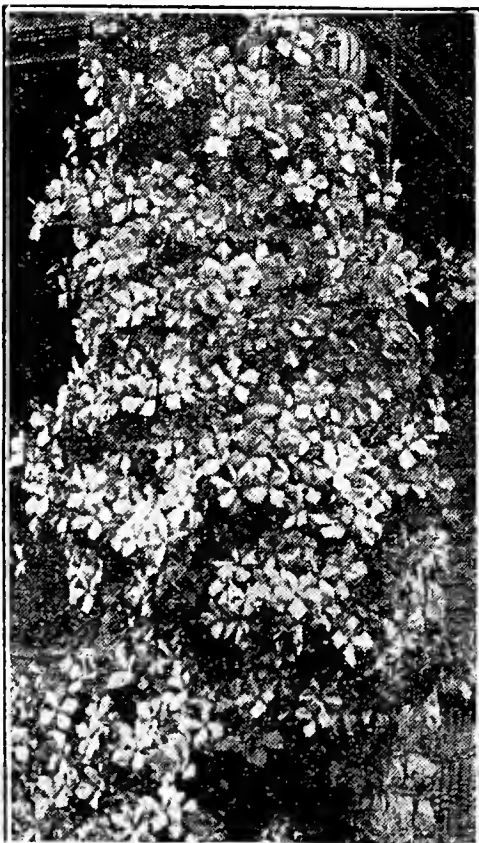

American Bittersweet.

Clematis Paniculata.

Chinese Purple Wisteria.

Clematis Jackmani.

Boston Ivy.

Hall's Japan Honeysuckle.

See Page 2 for Special Gift Planting Offers.

# Blackberries

## Increase Your Profits

**Alfred** The Blackberry Without a Core. Alfred bears young, providing nearly a full crop of fruit the year after planting. Vigorous grower, producing strong, well branched canes, perfectly capable of carrying the big crop of fruit produced. It is perfectly hardy, and can be grown anywhere without winter protection. Alfred ripens early, beginning a week in advance of other varieties, and continues over a long season. The berries are of immense size, some measuring three inches around and two inches in length. The color is a glossy, jet black, and the flavor sweet and delicious.

**Mersereau** On account of its hardiness and freedom from winter injury, this variety is grown extensively in the cooler climates. Mersereau is a mid-season variety, especially suitable as a main crop, and we highly recommend it to our customers as one of the most satisfactory and profitable Blackberries.

### The New Youngberry

A cross between the Loganberry and Dewberry, which two varieties it resembles in manner of growth. Fruit is very large, dark wine color, with few seeds; highly flavored, sweet and delicious. It is easy to handle, very attractive, keeps well and ships well; an excellent canner and valuable for table use, jellies and pies.

**Bargain No. 1**

15 Alfred

2-Year Transplants

Postpaid in U. S.

**\$1.00**

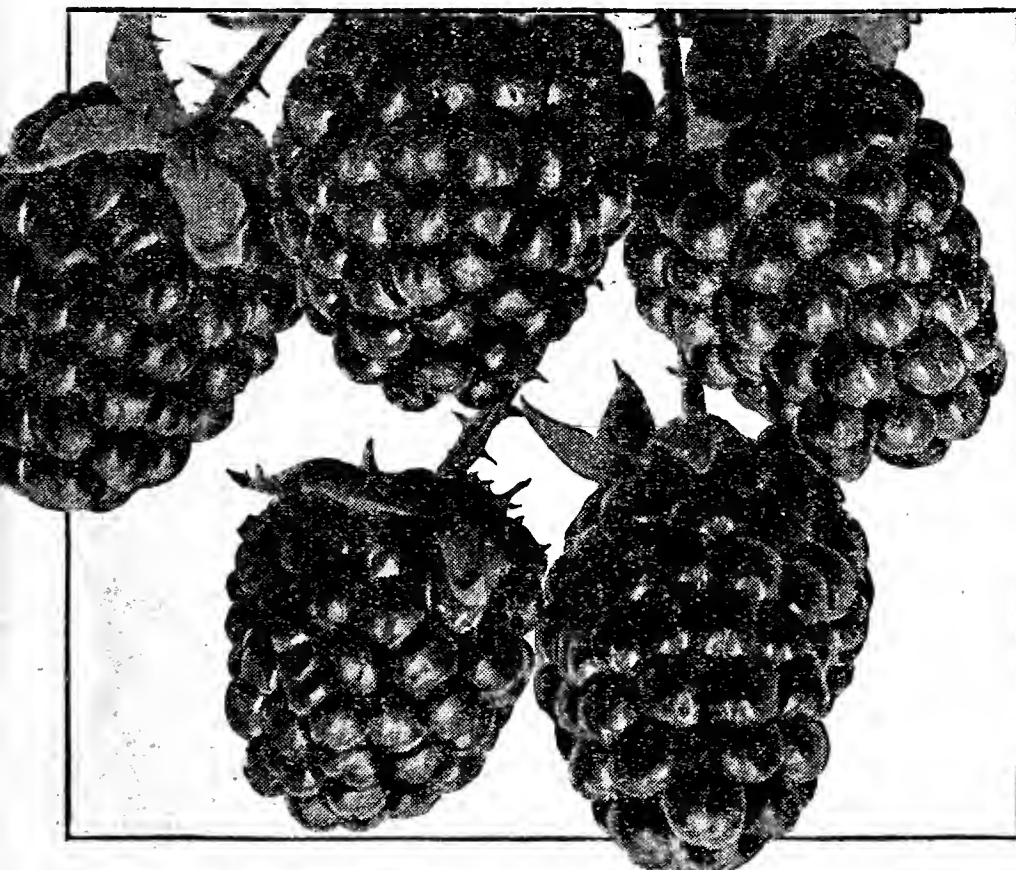

Alfred.

**Eldorado** Very hardy — never winter-kills.

The best commercial variety. Always free from disease—immune to orange rust. Berries are of good size, color, flavor and quality. A wonderful shipper. Fruits over a long season and insures a big profit to the grower. There are more Eldorado under cultivation than all other Blackberries combined. We recommend it highly for either home or commercial plantings.

### Blackberry Transplants

We offer transplanted stock in all Blackberry varieties listed; extra heavy bushes that will fruit this summer. Especially desirable when a few extra choice bushes are wanted in the garden. Supply limited. A good buy at the prices quoted.

Eldorado—Leading Commercial Blackberry.

# Black Raspberries

**Whitten-Ackerman**  
**Disease-Free, Heavy-Rooted Plants**

Grown for plants only on ideal soil, and given the best of care and plenty of fertilizer, making them vigorous and full of pep. Awarded a clean bill of health by Michigan State Inspectors. Packed to reach you in first class condition.

Michigan has the most rigid plant inspection of any state in the Union. Buy from us and be assured of disease-free stock.

**Cumberland** The largest of all black-caps, and the very best mid-season kind. We advise planting Cumberland as a main crop variety. No black-cap has ever been grown as extensively as Cumberland, nor attained its great popularity in all Raspberry producing sections of the country. A heavy yielder, berries large, rich black in color, fruit firm and of delicious flavor. Bush is absolutely hardy, vigorous growing, producing plenty of fruiting wood; especially free from anthracnose, the common disease of all Raspberries. The greatest money-making black-cap of all time.

Cumberland.  
The Leading  
Blackcap.

## Black Raspberry Garden Bargain No.2

- 25 New Logan. Early.
- 25 Cumberland. Medium.
- 25 Quillen. Late.

**\$1.75** Net  
Not Prepaid

New Logan.

**New Logan** The Most Dependable Early Black Raspberry Grown. This variety, through sheer merit, has replaced very nearly all of the standard kinds in Ohio, and it does equally well in other sections of the country. The berry ripens one week earlier than Cumberland, giving the grower a chance to make some real money before Cumberland comes into bearing. It is an extra heavy yielder, with berries as large or larger than Cumberland. It holds well through drought, and, in fact, the last picking has always proven fresh and free from seediness and a tendency to crumble as the first. Its most outstanding characteristic is its resistance to mosaic and other Raspberry diseases.

We offer a small supply of medium grade Cumberland one-year plants. Somewhat smaller in size than our No. 1 grade, but well rooted and sure to grow.

### PRICES OF BLACK RASPBERRY PLANTS:

Cumberland, 1-year Tips, Medium Grade 500 plants for \$4.00. Additional 100's at same rate of 80c per 100. No less than 500 plants sold at this low price.									

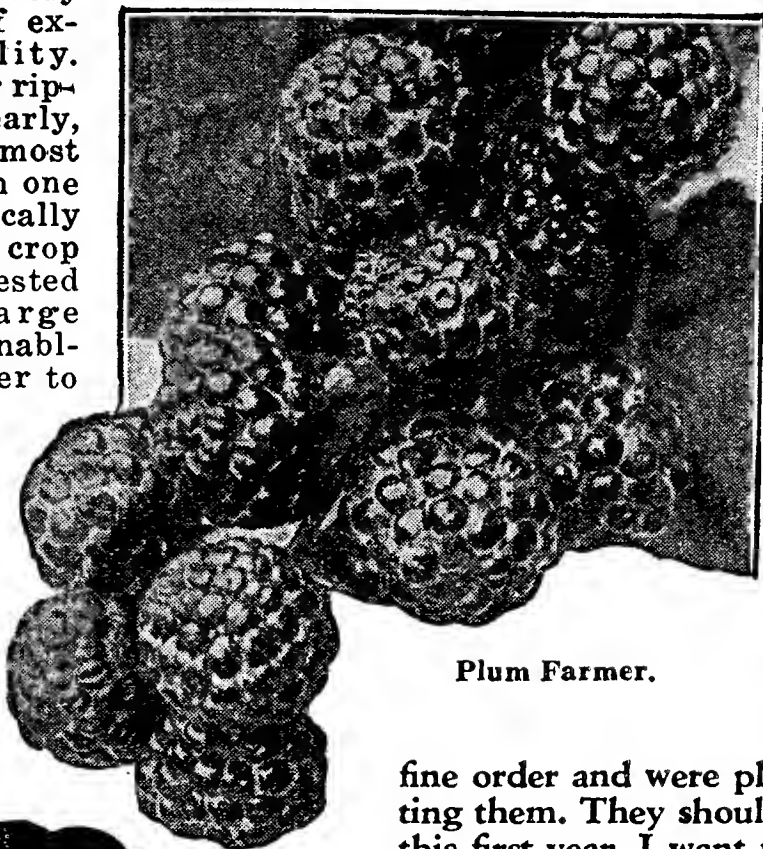

Big Discounts on All Cash Orders. See Page 3.

**Quillen** The Latest Blackcap. Comes into bearing after all other varieties are practically through. Fruit is even larger than Cumberland and of fully as good quality and texture. Recent trials during the past few years have shown Quillen to be practically immune to mosaic, anthracnose and other serious diseases. This variety shows great merit in all sections of the country, and we urge you to give it a trial.

**Kansas** A valuable early blackcap so strong and hardy as to endure extremes of cold and drought, and yet bear heavy crops of very black, juicy, good flavored and good sized berries. Not a new variety, but one of the best.

**Plum Farmer** This is the best early blackcap in existence. The plants are fine growers, free from disease, producing many laterals, thus giving lots of fruiting wood, insuring a big crop of fruit; while the berry is very large, and of excellent quality. Plum Farmer ripens very early, producing most of its fruit in one week. Practically the entire crop can be harvested in three large pickings, enabling the grower to reach an early market, and harvest the crop with a minimum amount of labor.

Plum Farmer.

Quillen.

CUSTOMERS  
ARE  
SATISFIED.

You  
Cannot Buy  
Better Plants  
Than Ours  
at Any Price

Here's one of the many letters of appreciation we receive.

Warren, Ohio, May 4, 1933.

Gentlemen:

All of the plants came through in fine order and were planted soon after getting them. They should make good growth this first year. I want to tell you that these are the finest Raspberry plants I have ever seen. I am very well pleased with the stock and can assure you that you will hear from me again when in need of some more berry plants.

Cordially yours,  
WM. P. SULLIVAN.

You'll be Just as Well Pleased With  
WHITTEN-ACKERMAN Stock!

## TRANSPLANTS

### Whitten-Ackerman Bearing-Age Red and Black Raspberry Transplants

Note actual photograph of our Raspberry transplants. Two years old, extra heavy rooted, well branched, full of vigor and vitality, and ready to fruit this year.

Gain a year on commercial plantings. If you do not care for berries the first year, cut back the tops to six inches above the ground. Plants will then throw out a heavy root and top growth, and will produce a full crop the second year.

**SPECIAL:** We have a small supply of 3-year-old Cumberland transplants. For quick results and a nice crop this year, plant a few in your garden.

Prices on pages 28 and 31.

For Big Gift Planting, See Page 2.

Red Raspberry Transplant.

# RED RASPBERRIES

## Latham

*The Leading Red Raspberry  
First Choice of Commercial  
Growers*

Latham.

## Latham

The Greatest Red Raspberry of All Time—A Popular Favorite in All Large Fruit Growing Sections—Extra Large Berries, Some Measuring an Inch in Diameter—Bears a Tremendous Crop of Fruit—Brings Highest Prices on Any Market.

We have no hesitation in giving Latham our unqualified recommendation as the best all around Red Raspberry.

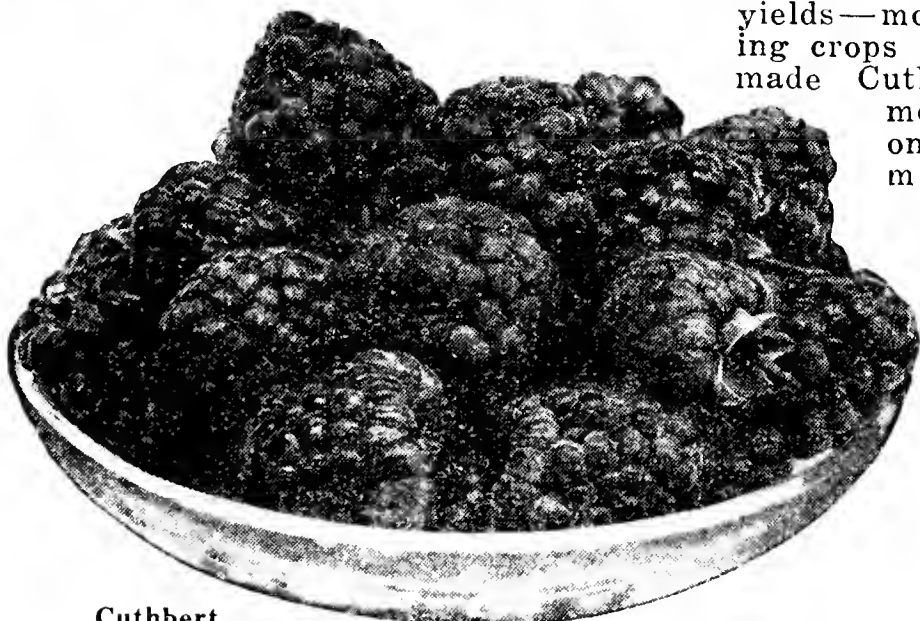

Chief for early—Latham for midseason to late—A real money-making combination.

**King** Extra early. A tried and tested favorite for many years. One of the best market varieties. Berries are large in size, bright red, very firm and easy to pick. King bears enormous crops of fruit over a long period. Does well on any soil; perfectly hardy and never known to winter-kill. King should be a part of your order without fail, for it belongs in every Raspberry planting.

**Cuthbert** The old standby. Best Canner of All. Season after season this variety has continued to produce big yields—money-making crops that have made Cuthbert famous.

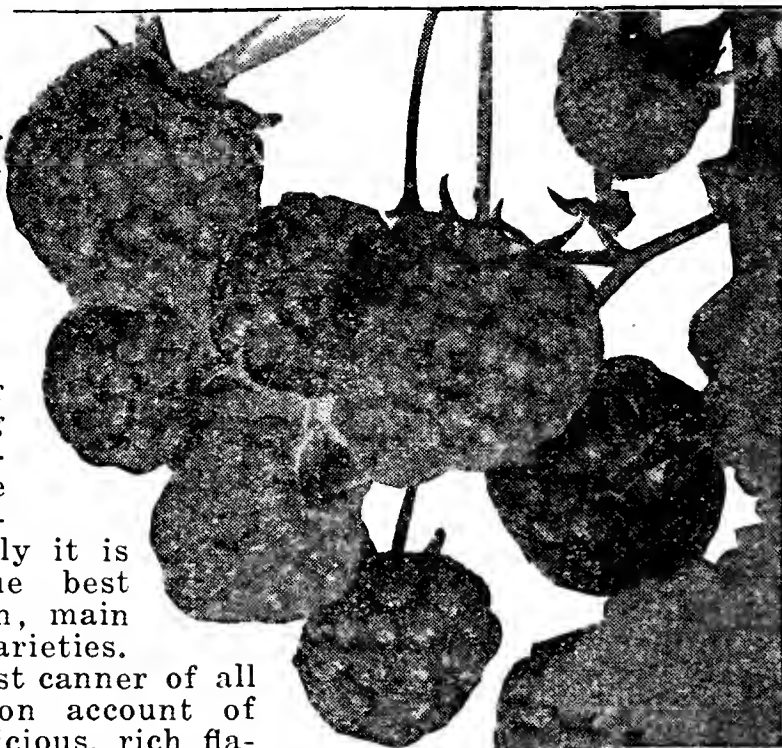

Surely it is one of the best midseason, main crop varieties.

The best canner of all kinds on account of its delicious, rich flavor and ability to remain canned for a long period without fading. You cannot go wrong on this variety. One of our best sellers.

Cuthbert.

We have a small supply of medium grade Latham and Chief one-year plants to offer this spring. Somewhat smaller in size than our No. 1 grade, but well rooted and sure to grow. Low in price.

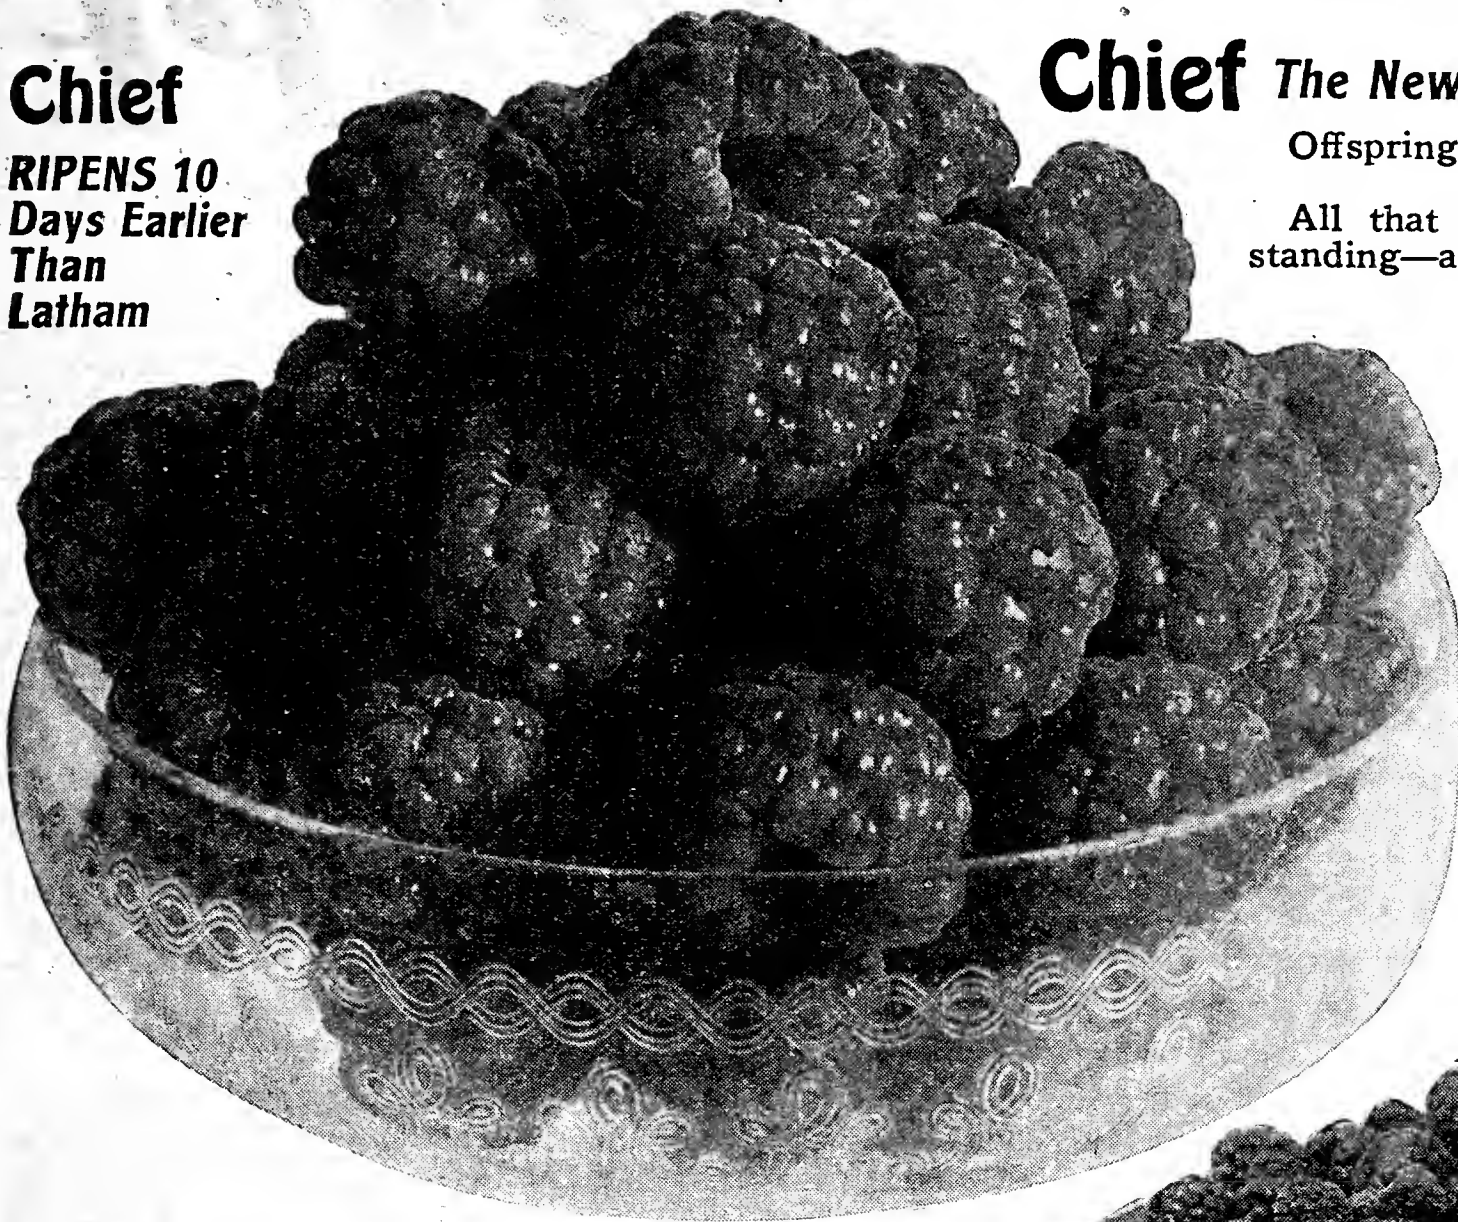

King.

**Flaming Giant** A strong, hardy, heavy bearing Red Raspberry. See page 2 for full description, and liberal gift planting offer.

# Chief

**RIPENS 10  
Days Earlier  
Than  
Latham**

# Chief The New Red Raspberry

Offspring of the famous Latham.

All that the name implies—out-standing—ahead of others—a leader.

Has proven hardy, disease-resistant, a heavy cropper, of excellent quality and a good shipper.

Berries large, rich bright red.

Ripens ten days earlier than Latham, bridging the gap between Strawberries and ordinary Raspberries.

Brings wonderful prices on any market.

**Viking** Notable new Red Raspberry. Give it a trial—you won't go wrong. Fruit is larger than Cuthbert, firm and carries well; of good quality and substance. Color is a bright, lively red. Most thrifty grower of all Red Raspberries. Viking originated at the Ontario Horticultural Experiment Station, and our propagating stock was imported by us direct from Canada, so we can positively guarantee to furnish genuine, true-to-name Viking. Stock limited. Order early.

**St. Regis** The Best Everbearing Red Raspberry. Ripens even earlier than Chief, and is the earliest Red Raspberry known. Produces a full crop during regular raspberry season, and continues to fruit heavily throughout the summer and fall. Brings in a double profit, and is a real money-maker in spring or fall—in fact, you'll realize more profit from 1 acre of St. Regis than from 20 acres of wheat. Berries are bright crimson, of good size, and have a delicious flavor. Excellent shipper. Give St. Regis a trial this year, and you'll plant more the next.

St. Regis.

Special Discounts on All Cash Orders. See Page 3.

Concord.

# GRAPE

Now's the time to plant Grapes for a commercial proposition.

**Concord** A large, purplish black Grape. Bunch is large, shouldered and compact. Berries are large; flesh is juicy, sweet and tender; excellent flavor. Vine a strong grower; very healthy, hardy and productive. The most reliable and profitable market variety.

## Caco

New, widely advertised Red Grape. Bears enormous bunches of unusually large berries of a rich wine-red and amber color. Flavor of the finest, very rich and sweet. Ripens early in September. Stock of this variety is limited. Order early.

## Agawam

A large, dark red Grape. Bunches large, compact. Berries large; pulp soft and sweet; vine vigorous. Ripens early.

## Delaware

Berries are compactly set, light red, sugary and delicious. A favorite dessert Grape, and among the very best red varieties.

## Campbell's Early

A large, dark blue Grape of high quality; large size and attractive appearance, and a good shipper. Ripens ten days to two weeks ahead of Concord.

## Catawba

Berries large, round; when fully ripe of a dark copper color, with sweet, rich flavor; late. An excellent variety.

**SELECTED  
VARIETIES**

*The Best  
of Many*

## A Vineyard is a Lifetime Investment

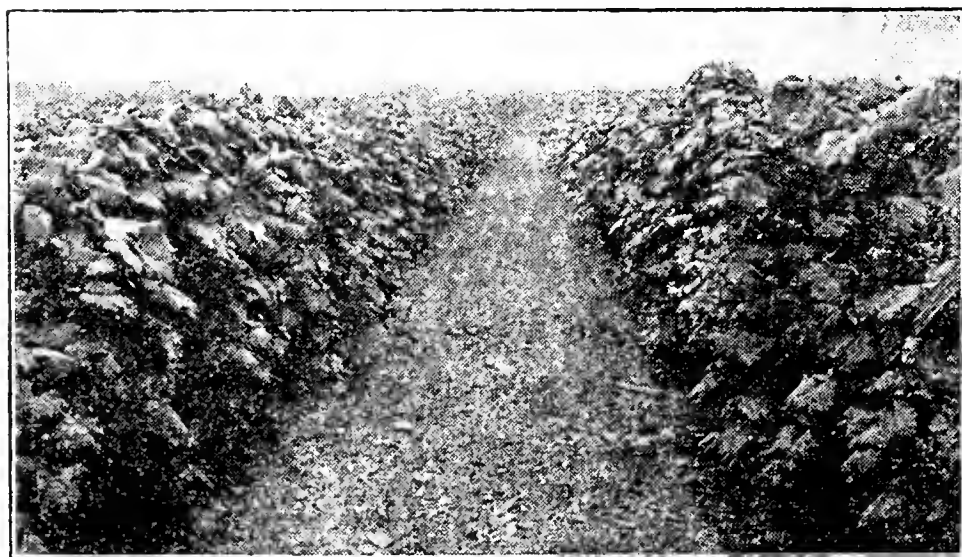

### Select Your Planting Stock with Care

Every Whitten-Ackerman Grape Vine is guaranteed to be true-to-name, free from disease and propagated from productive strains. The cuttings for our plants are all taken from heavy producing vines, each vine being selected for productiveness and size of fruit.

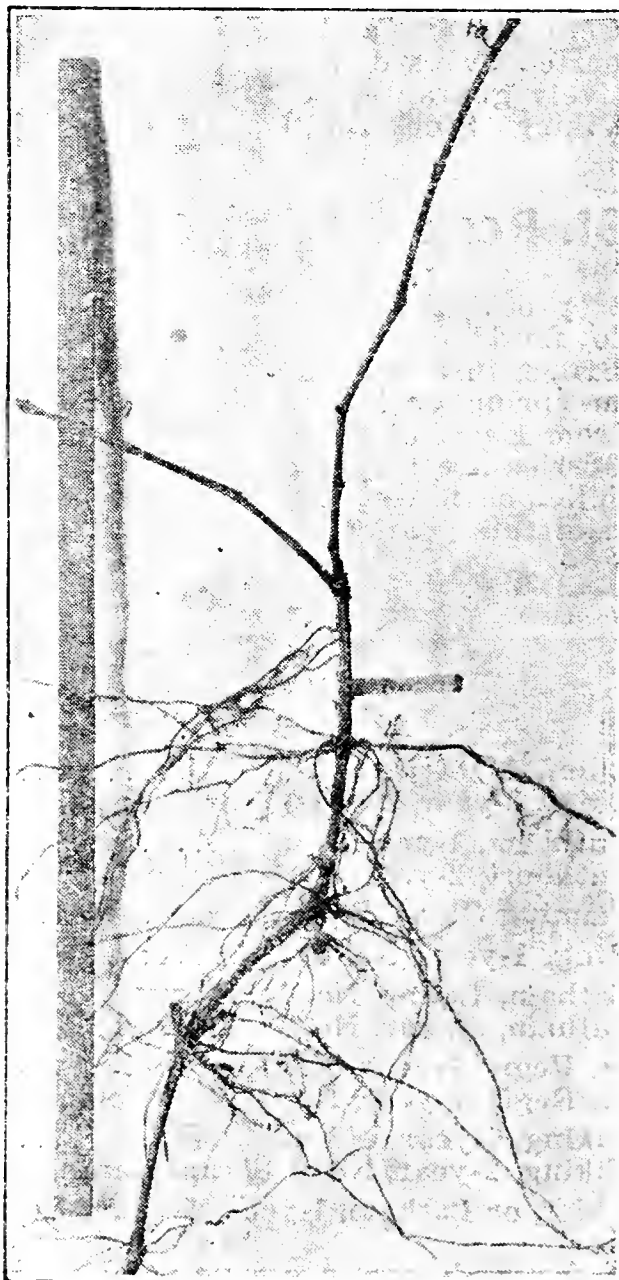

When buying from us you are absolutely assured of getting the best. Notice actual photograph of one of our Concord vines at the right—vines that will produce heavy, uniform yields year after year—a result that cannot be secured from cuttings made in a haphazard way, regardless of quality—a practice all too common in recent years.

Our Grape Vines cost no more than others—you don't pay for the added quality. You can't afford to experiment with vines of unknown origin—we can't afford to sell them.

A well cared for vineyard, such as the field of Concord shown below will yield bumper crops year in and year out.

We don't know of a single farm crop that can be relied on with the same assurance as the Grape harvest. Many a grower has been able to keep the wheels turning through a lean year, only because of his Grape crop. It's good insurance for anyone.

Concord Grape Vine Produced From Extra Heavy, Selected Cuttings.

# VINES

The United States is now wet, which will cause a big demand for years to come.

**Niagara** The Most Popular White Grape. Perfectly hardy, and very productive. Bunches very large and compact; sometimes shouldered. Berries fully as large or larger than Concord, mostly round, yellowish green when fully ripe, slightly amber in sun. The skin is thin but tough and does not crack. Quality of the best, very little pulp, melting and pleasing to the taste. Of exceptional value for eating, grape juice or market and unsurpassed for wine. We have now reduced our prices so all of our customers can afford to plant Niagara.

**Lucile** A beautiful, bright reddish color; bunch of good size; extremely prolific. Vine growth is prodigious. Flavor is foxy, but sweet even before fully ripe.

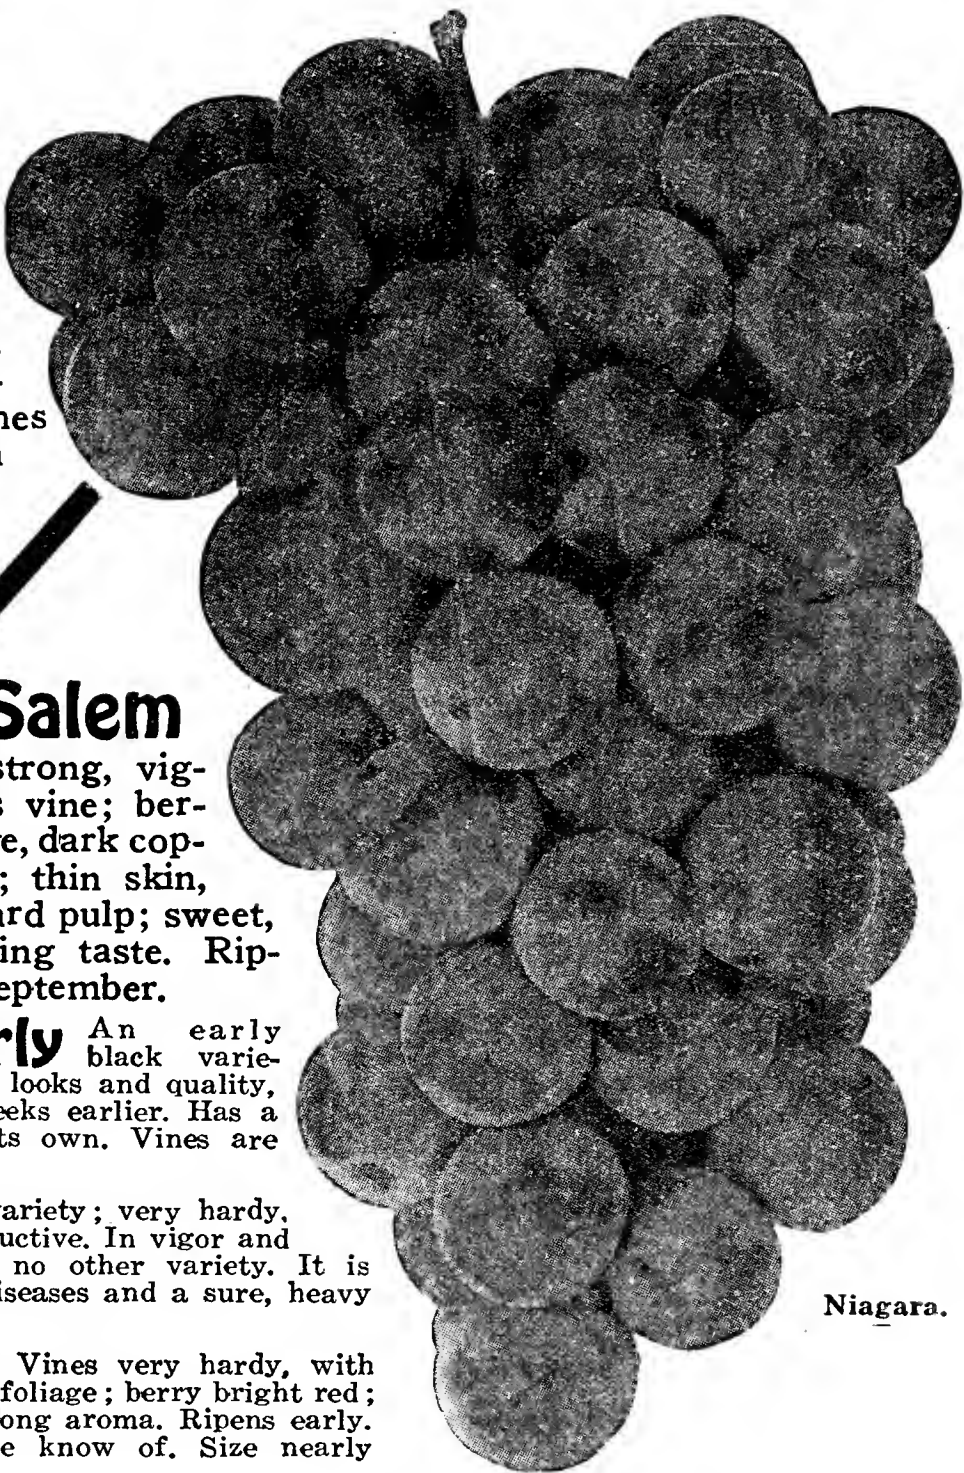

Chosen for  
FLAVOR  
SIZE and  
YIELD

**Worden** An early black variety; very hardy, healthy and productive. In vigor and health Worden is surpassed by no other variety. It is practically immune to fungous diseases and a sure, heavy cropper.

**Wyoming** A red variety. Vines very hardy, with thick, leathery foliage; berry bright red; large, flesh tender, juicy with strong aroma. Ripens early. One of the best red Grapes we know of. Size nearly double that of Delaware.

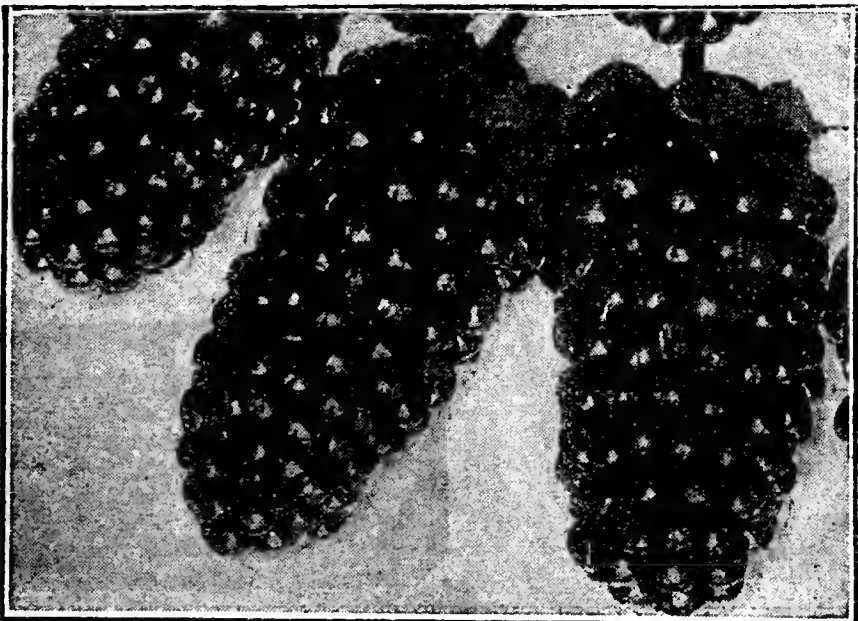

**Salem** A strong, vigorous vine; berries large, dark copper color; thin skin, free from hard pulp; sweet, and of pleasing taste. Ripens first of September.

**Moore's Early** An early black variety, similar to Concord in looks and quality, but ripening about two weeks earlier. Has a peculiarly sweet flavor of its own. Vines are hardy and good bearers.

Niagara.

Lucretia Dewberry.

## Lucretia Dewberry

The First to Ripen—Ten Days Earlier Than Blackberries

Brings a big price on any market and makes real profits for the grower.

Of the Blackberry type, but produced on a trailing vine instead of an upright bush. Very hardy and practically immune to disease. Best results are secured on the higher, sandier soils, their natural home. Berries are extra large, lustrous black, sweet, and juicy. 1-year, No. 1 plants, 12 for 40c; 25 for 75c; 50 for \$1.30; 75 for \$1.75; 100 for \$2.10; 200 for \$3.50; 300 for \$4.60; 400 for \$5.70; or \$12.85 per 1000.

# Strawberry Plants

### at the Right Price

The lowest price is the right price, providing quality has not been sacrificed. We never sacrifice quality to make a low price.

## FAIRFAX and DORSETT

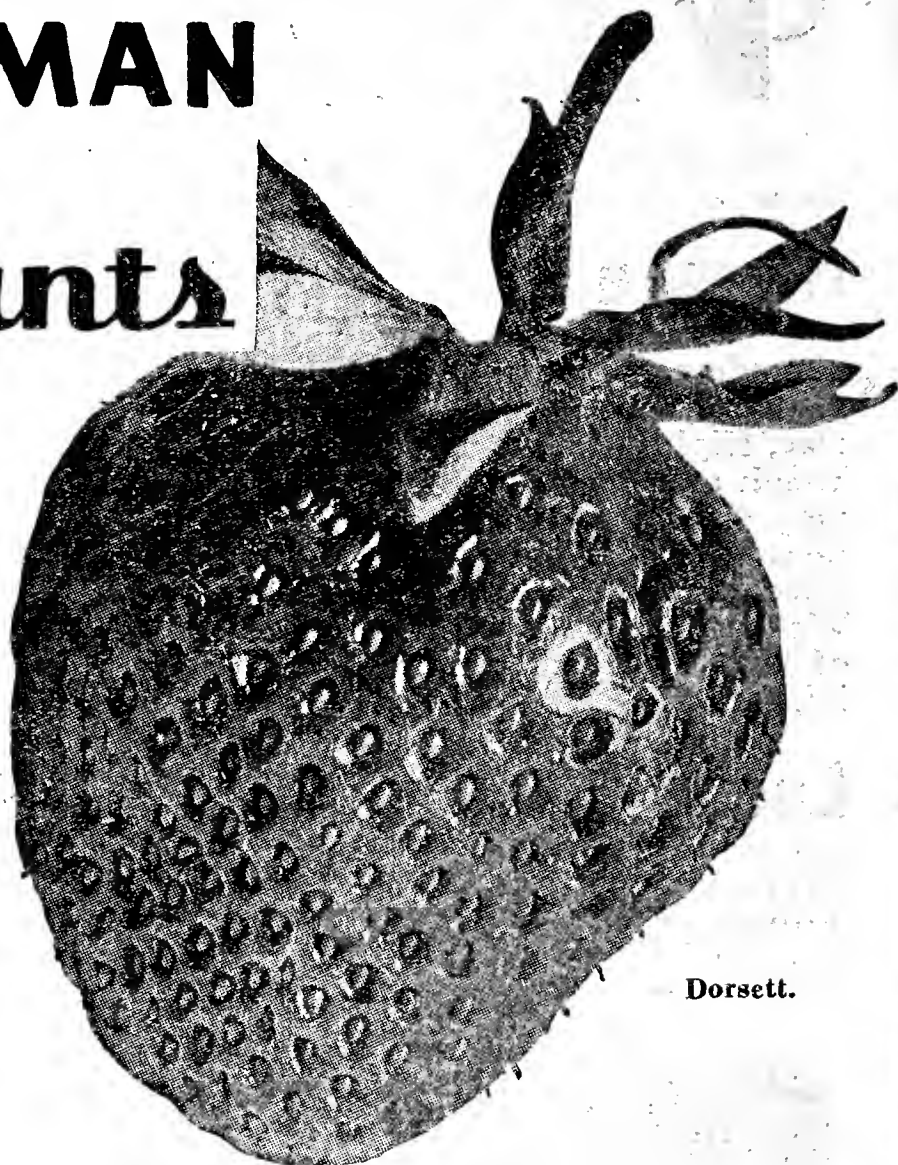

*Two Brand New Varieties of Superior Quality*

Developed by the U. S. Department of Agriculture. Selected from thousands of seedlings, and tested for several years.

Both Fairfax and Dorsett far surpass in quality any varieties known to growers in this country. Flavor of the finest, coupled with the vigorous, healthy and productive growing habits, and the large, beautiful berries will, we believe, make them the leading early Strawberries, even displacing Premier in many places.

The berries of Dorsett and of Fairfax differ in some ways. Fairfax berries are very firm. They are a bright red when picked at the proper time; can be left on the vines for several days without picking and still be of good quality, solid and firm. If this is done, berries will be somewhat darker in color, which may be a disadvantage on the market, making Fairfax more of a home market and garden variety.

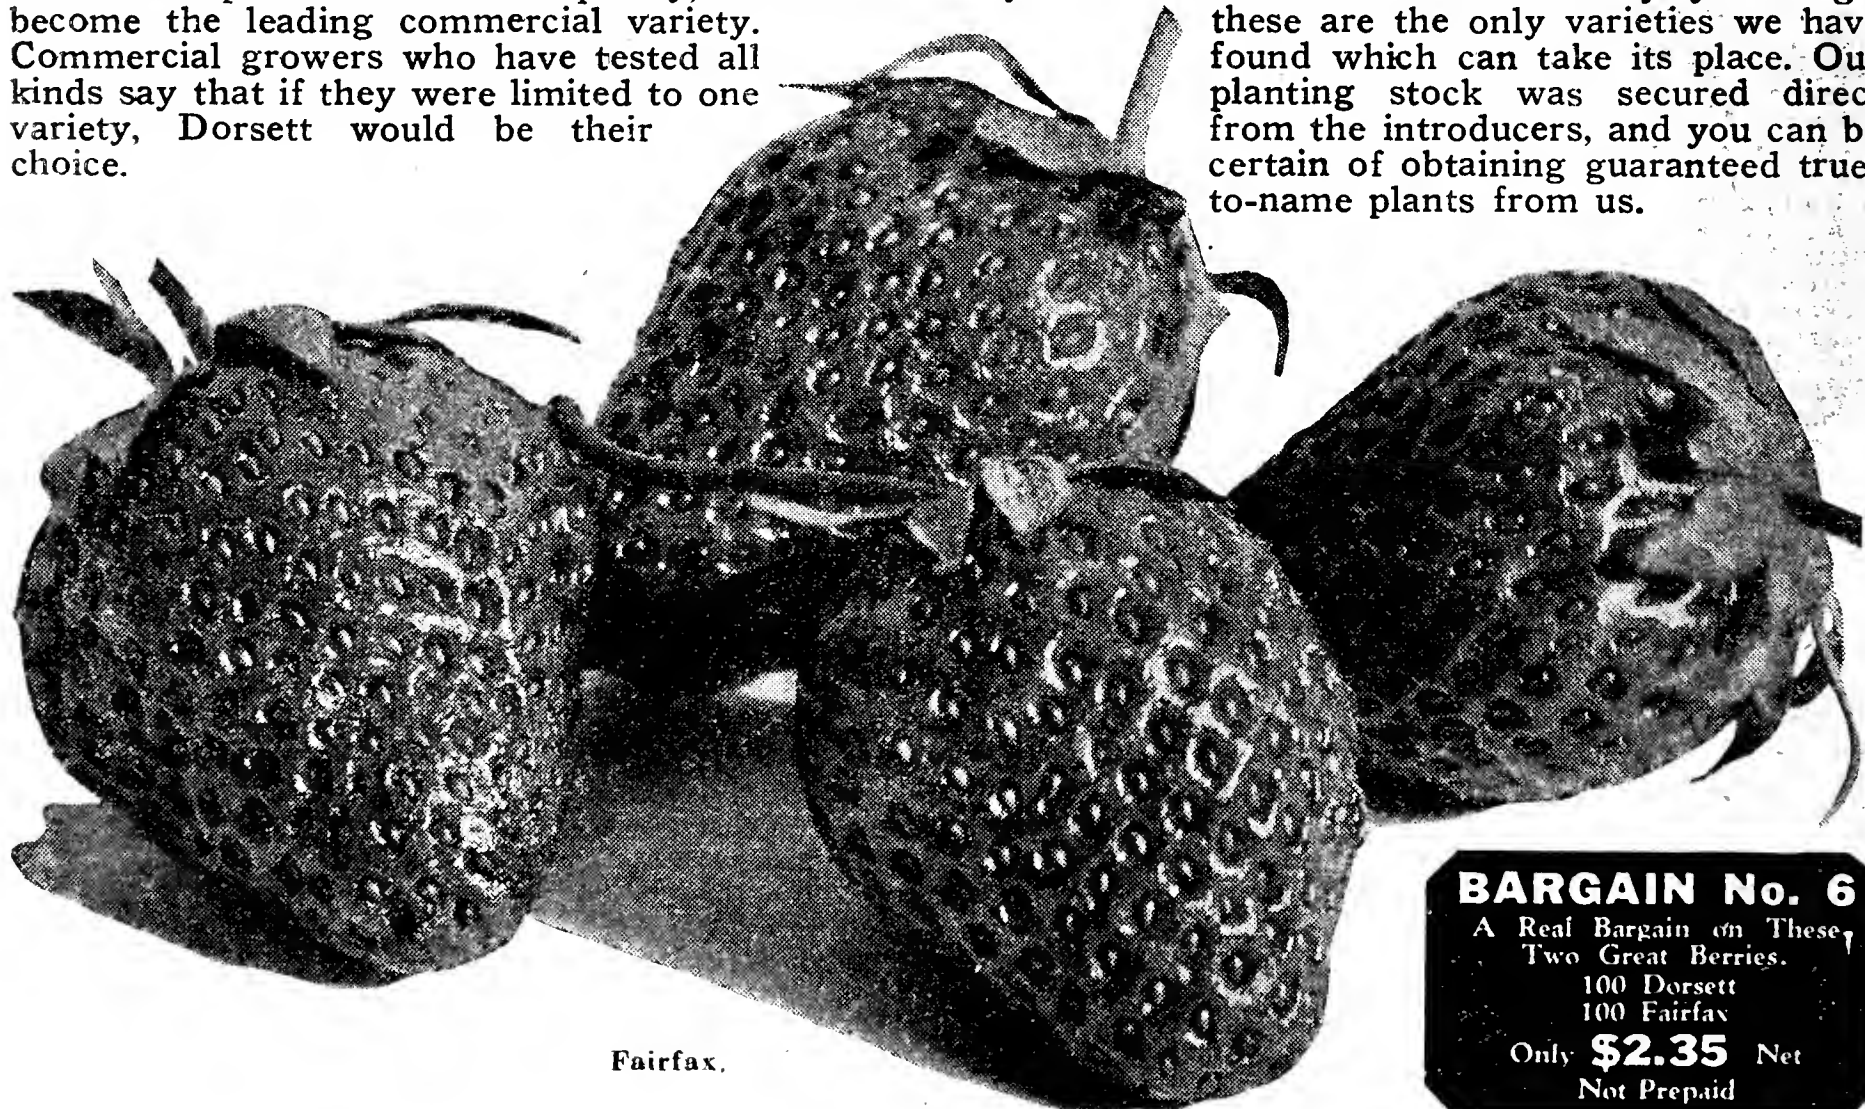

Dorsett berries are also firm; firmer than Premier, and are a beautiful light red in color. They hold this color well, and for this reason, together with their attractive shape and extra fine quality, will undoubtedly become the leading commercial variety. Commercial growers who have tested all kinds say that if they were limited to one variety, Dorsett would be their choice.

Dorsett.

Both Dorsett and Fairfax ripen at the same time as Premier, and are very heavy producers. The introducers report a yield of 400 to 500 16-quart cases per acre. The plants are vigorous and healthy in manner of growth, and are frost resistant.

Those Strawberry growers who are constantly looking for something better should get started with these two varieties. Since Premier was introduced many years ago, these are the only varieties we have found which can take its place. Our planting stock was secured direct from the introducers, and you can be certain of obtaining guaranteed true-to-name plants from us.

Fairfax.

**PREMIER**  
Does Well in Any  
Locality—The Leader  
For Many Years.

## Premier

Too well known to require a description. A standard of excellence with all growers, and the earliest worth-while Strawberry of the older varieties we know of. This feature alone makes it a great money maker, for it yields its fruit crop at a time when Strawberries are in great demand and sell at fancy prices.

Premier is as nearly frost-proof as any Strawberry can be. It is unusually healthy, being free from leaf spot and other diseases. Its deep, heavy roots enable it to easily withstand dry weather, and mature a full crop of big berries when many varieties are a complete failure.

Remember, our stock is from the original, heavy fruiting strain, bearing our true-to-name guarantee.

## Chesapeake

The Aristocrat of All Late Strawberries.

Because so many growers have planted early varieties exclusively in the past 5 or 10 years, there is now a heavy demand for, and prices paid are much higher on a good late berry. For this reason, foresighted planters are turning to Chesapeake as the best late Strawberry.

The large berries of Chesapeake hold their size well to the end of the season. Flavor is unsurpassed. A leading market variety, and sells at highest prices because of its lateness, size, quality, firmness and appearance of its fruit. Strong, healthy foliage. Practically frost-proof because of its late blooming habit. To obtain best results, grow on rich soil or land that is well manured, and give good care, and you will have no trouble in getting a good fruiting row.

**Gibson** A midseason berry that should be included in every order, large or small. An unusually safe variety for commercial planting, inasmuch as it always produces a big crop of large marketable berries, seeming to thrive equally well in all sorts of soils and climates. This is a feature hard to find in Strawberries, and one that makes a variety especially valuable. The berries

Chesapeake.

ries are large, holding their size to the end of the season, and are all that could be asked for in color, flavor, firmness and productiveness. Gibson is not only an ideal market berry, but one that is especially good for canning and commercial planting.

Gibson.

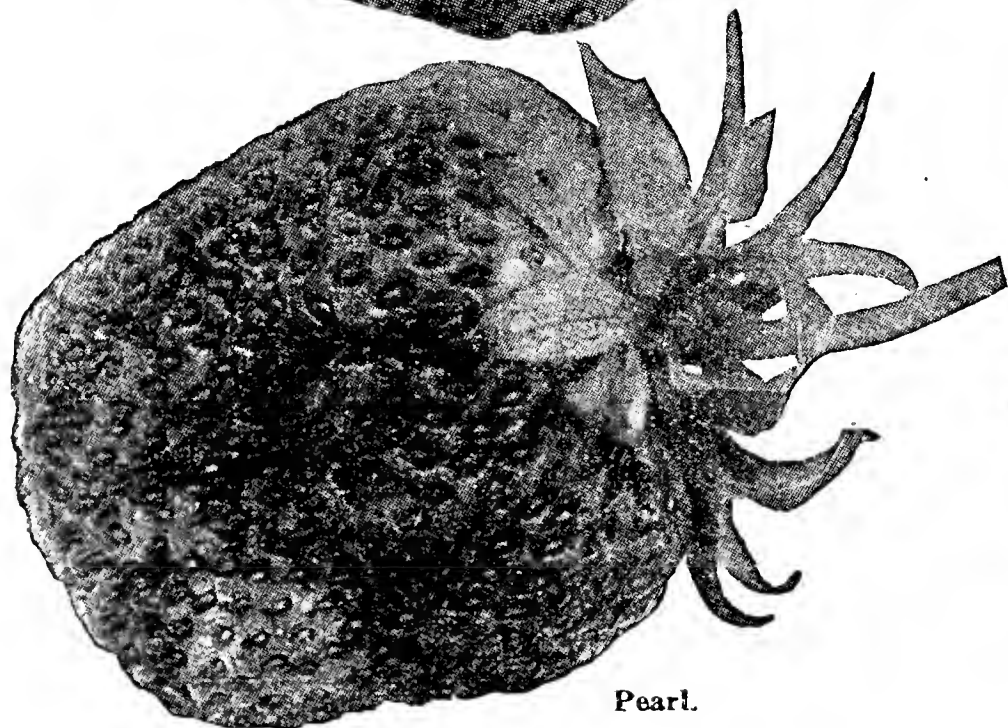

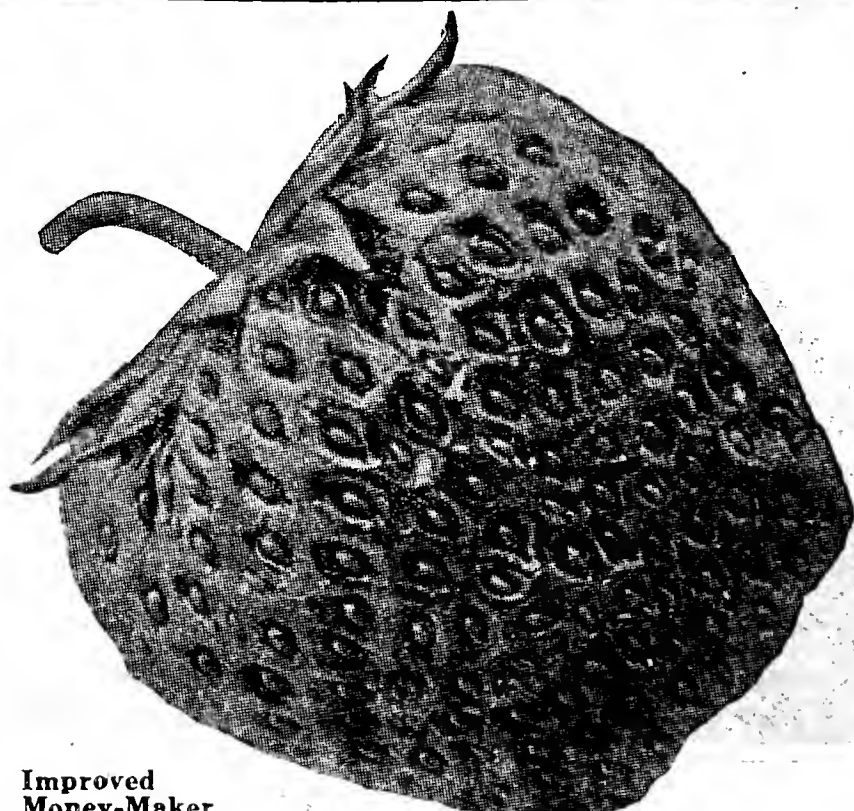

Blakemore.

Senator  
Dunlap.

Beaver.

Pearl.

Improved  
Money-Maker.

# Whitten-Ackerman

**Blakemore** Extra early, ripening same time as Beaver, and four or five days before Premier. Introduced by U. S. Department of Agriculture. A cross between Premier and Missionary. Strong, vigorous grower and extra good plant maker. Berries are bright red, and resemble Premier, although they are somewhat larger and of better color. Very firm, and a good shipper. Excellent canner. Will undoubtedly take the place of Missionary and Klondike in the South, and will do well in the North anywhere Premier has been grown.

**Senator Dunlap** This is one of the oldest varieties commonly planted today, and never for a single season since its first appearance years ago, has it lost even the smallest part of its well earned popularity that has made it famous the world over. At the present time there are more Senator Dunlap being planted than ever before, proving conclusively that it is one of the surest and most dependable all-purpose Strawberries ever offered.

**Beaver** New Strawberry recently originated in Wisconsin, a cross between Dr. Burrill and Premier. Far more certain than Premier to produce a good fruiting row under unfavorable weather or soil conditions. Berries are of a deep glossy red all the way through. Hardy and frost resistant. Fruit is very firm and of such texture that it does not require picking more than twice a week. Begins ripening 3 or 4 days before Premier. Unsurpassed as a shipper, and compares well with Premier in every way. In addition, it will make a good fruiting row on any soil.

**Pearl** The Latest Strawberry. Has large berries, which are dark red to the heart, of firm quality, and with a tough outer skin that gives them unusual firmness and keeping qualities. Berries possess a most delicate flavor. Pearl is a heavy and sure cropper. When it is in its prime, other varieties are off the market, and as it has the field to itself, the prices paid for Pearl are quite naturally the highest.

**Improved Money-Maker** The Best Midseason Variety. Introduced by us in 1932 and proving a great success. Fruit stems are stiff and upright, holding fruit well off the ground, allowing the berries to ripen more evenly than other kinds. So firm it does not have to be picked as fast as other varieties, and still carries up to distant markets. Berries are bright red, and of excellent flavor.

**MAKE MORE MONEY WITH IMPROVED MONEY-MAKER.** Improved Money-Maker is a midseason or main-crop Strawberry which will surely replace some of the old standard varieties. It is just the kind for a big crop when everyone is thinking about Strawberries and wants them. An acre or a half acre of this variety planted this spring on good ground is an investment that will pay big dividends a year later.

# Old and New Favorites

**Beauty** One of the best late Strawberries. Originated several years ago in Michigan. One of the strongest plant growers we know of, growing as tall as 15 inches, with extra large leaves. Fruit stalks grow upright, holding berries off the ground. Berries are large in size, dark red all the way through, very firm and remarkable keepers, making this berry one of the best for commercial plantings, as it will easily carry to distant markets. Does not require mulching, as it blooms late enough to escape all frosts.

**Aroma** A good late variety and long considered the standard late market Strawberry. It is still grown extensively in all sections of the country, but is especially popular in the southern states, where many fruit growers' associations plant Aroma exclusively. The berries are large, nearly round, and of firm texture, deep red in color and good flavor, making it ideal for shipping. Although good yields are sometimes produced on light ground, Aroma is at its best on the heavier soils.

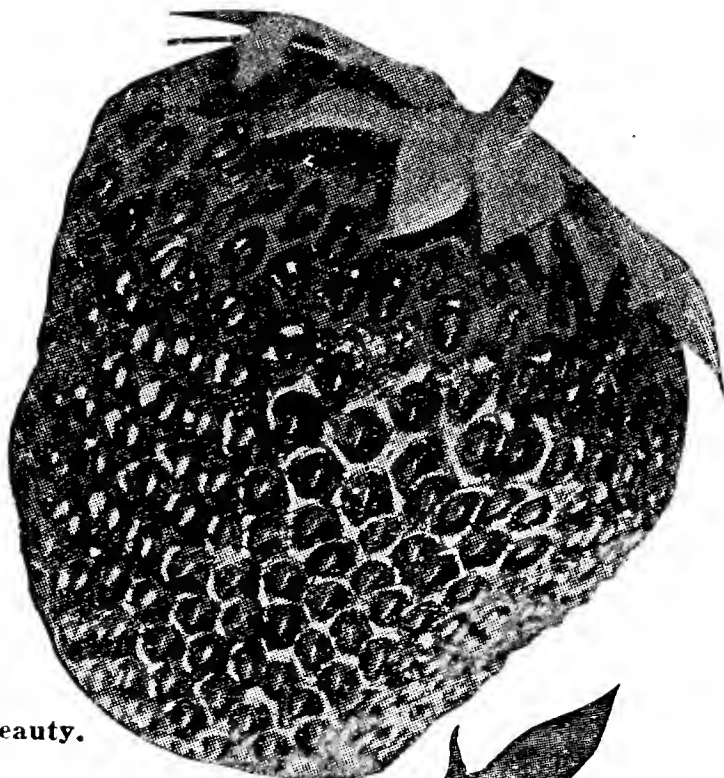

**Dr. Burrill** A dependable, all-purpose Strawberry, which stands among the very best in mid-season varieties. Closely resembles Dunlap in appearance. One of the cleanest, healthiest plants grown, never showing rust nor leaf spot, and so hardy and adaptable that it produces a good fruit crop anywhere, even in unfavorable locations. Unusually valuable for commercial purposes or for home use.

**Cooper** Beyond question this variety yields the biggest Strawberries ever produced. Its large, bushy plants are full of vigor and vitality that enable it to be grown successfully in all soils and climates. The flavor of its fruit is delicious; often being compared to that of the wild Strawberry. Cooper produces its crop early in the season, and is especially adapted to fancy, local market trade, where its large size and attractive appearance result in quick sales at big prices.

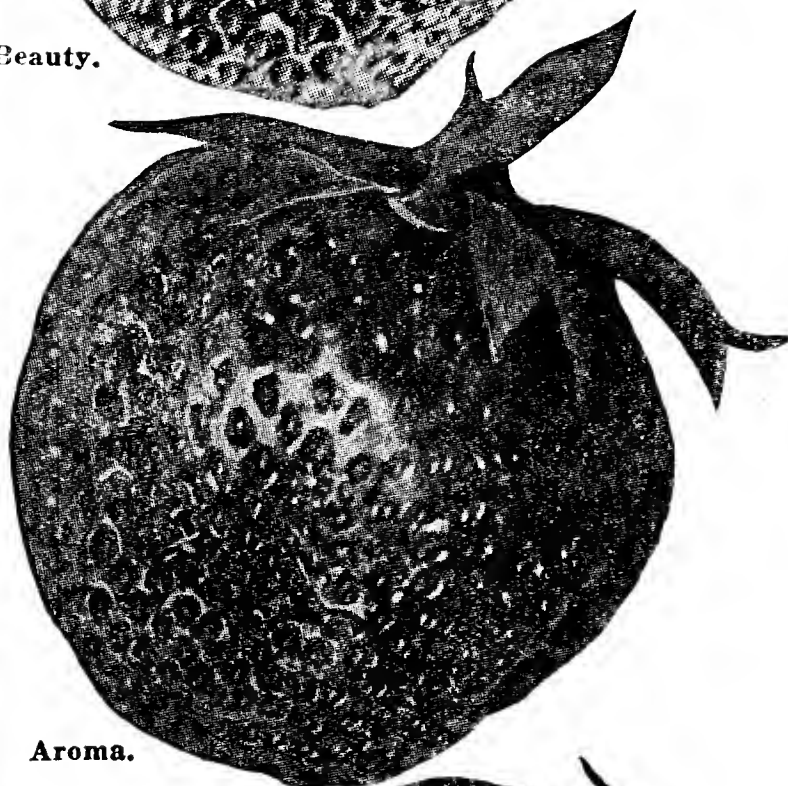

**Bellmar** New early berry of fine quality. Very firm and a good shipper. Berries are large, have an excellent flavor, and are a beautiful, dark red, with a handsome cup or hull, which parts easily from the berry, making them easy to prepare for eating or cooking. Introduced by the U. S. Department of Agriculture, and well worth trying in any locality.

Every variety of Strawberry offered by us is perfect-flowering, and requires no other kind planted with it for proper pollenization.

McGowan's Seedling

A new worth-while variety. Originated in Maine several years ago by Mr. G. E. McGowan. We have fruited this variety and given it a thorough trial for the past three years. At this time we have a small supply of the plants, and are listing it for the first time. We have found it to be the best and largest late variety. It begins to ripen after the Premier are all gone. Fruit is bright red in color, and firm. Heavy cropper, and a good plant maker. If you are interested in a good late Strawberry, be sure to include some plants of McGowan's Seedlings in your order.

Early Prolific

A new early variety, ripening 4 to 7 days before Premier. Introduced in Michigan last year. The introducer describes it as follows: "Ripens red all over and all the way through. No white, hollow centers or cores. Prolific both in plant and fruit, making a wide fruiting row on either light or heavy soil, and seems able to produce an enormous crop of fruit under the most adverse conditions. Flavor delicious. Retains its bright, sparkling red color long after picking, making it valuable for long distance shipping."

Empire State

Introduced in 1932 by a Michigan firm. Originated in New York State. Produces large, richly colored berries. Ripens medium late. Big, sturdy, hardy, heavy rooted plants, with healthy foliage. Empire State is a promising new variety which is easily grown and easily sold.

# EVERBEARING STRAWBERRIES

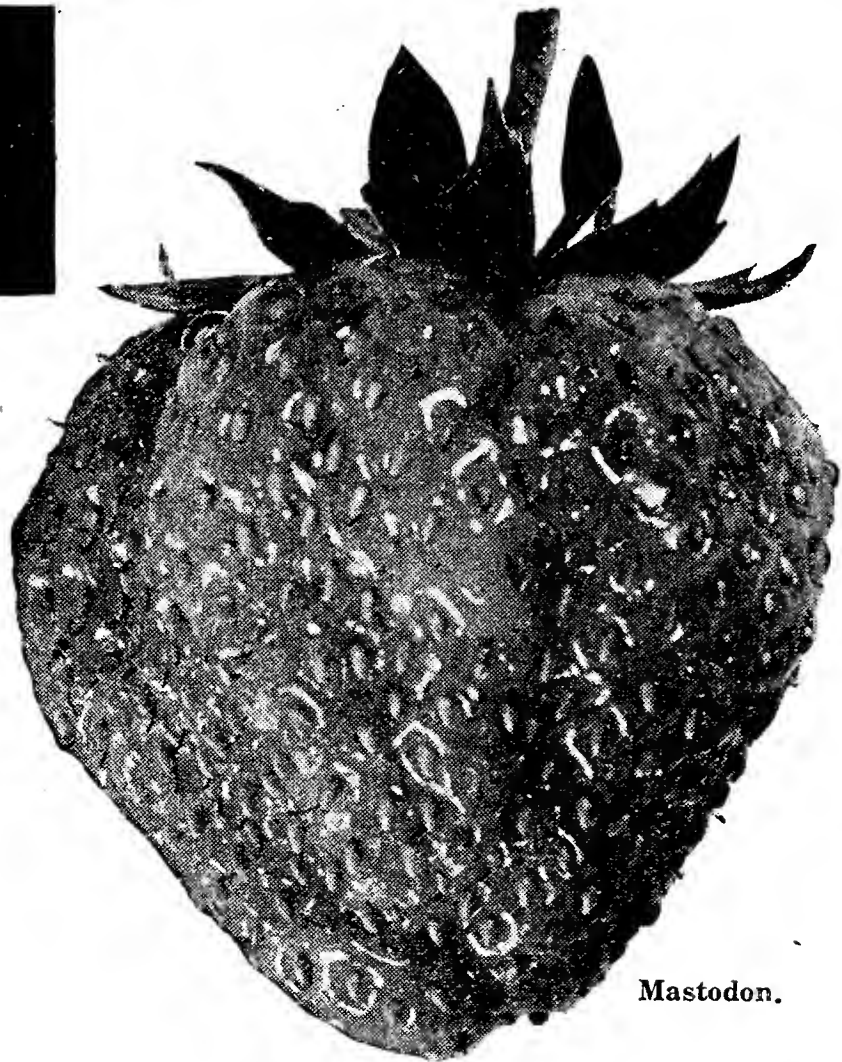

## Mastodon Everbearing - The Original Strain

RIPE STRAWBERRIES NINETY DAYS AFTER PLANTING. ALL SUMMER—ALL FALL—ALL OF NEXT YEAR—ALL FROM ONE PLANTING.

### Ten Good Reasons for Planting Whitten-Ackerman's Mastodon

- 1—There is only one true Mastodon—the Introducer's Original Strain—we have it.
- 2—The largest Everbearer grown.
- 3—Bears three crops from one planting.
- 4—Produces full crop in late autumn, when other kinds are out of season.
- 5—Grown easily with no special soil or culture.
- 6—Berries of large, uniform size from beginning to end of season.
- 7—Fruits continuously until freezing weather.
- 8—Withstands dry weather better than other everbearers.
- 9—Bears full crop next spring after planting.
- 10—First ripe berries ninety days after planting.

Every Mastodon plant sold by us bears our guarantee of genuineness and satisfaction. Do not be misled into paying fancy prices for this variety, but let us reserve yours now at one of the lowest prices available for true-to-name stock.

Mastodon.

### Imperial

The Improved Champion. Introduced by us. Originated in Michigan, being secured through a cross with Champion, which it somewhat resembles. A deep rooted plant; which is the secret of its great success, for it is able to get plenty of moisture during the dry summer and autumn months, so that it keeps right on growing big, thrifty berries, when other kinds run small and dry up. Already Imperial has demonstrated most conclusively that for real Strawberry flavor, firmness and good keeping qualities it is superior to most other Everbearers.

### Champion

An improved Progressive that is undoubtedly grown more extensively today than any other Everbearer. One that has been tried and tested, and in a few short years came to the front as a proven and worth-while variety that is a dependable source of profit and pleasure, year in and year out. Champion has never had a crop failure—something unusual, and something to bear in mind when ordering your Everbearers.

### Gem

#### The Universal Everbearer

Be the first in your locality to get started with this wonderful new variety.

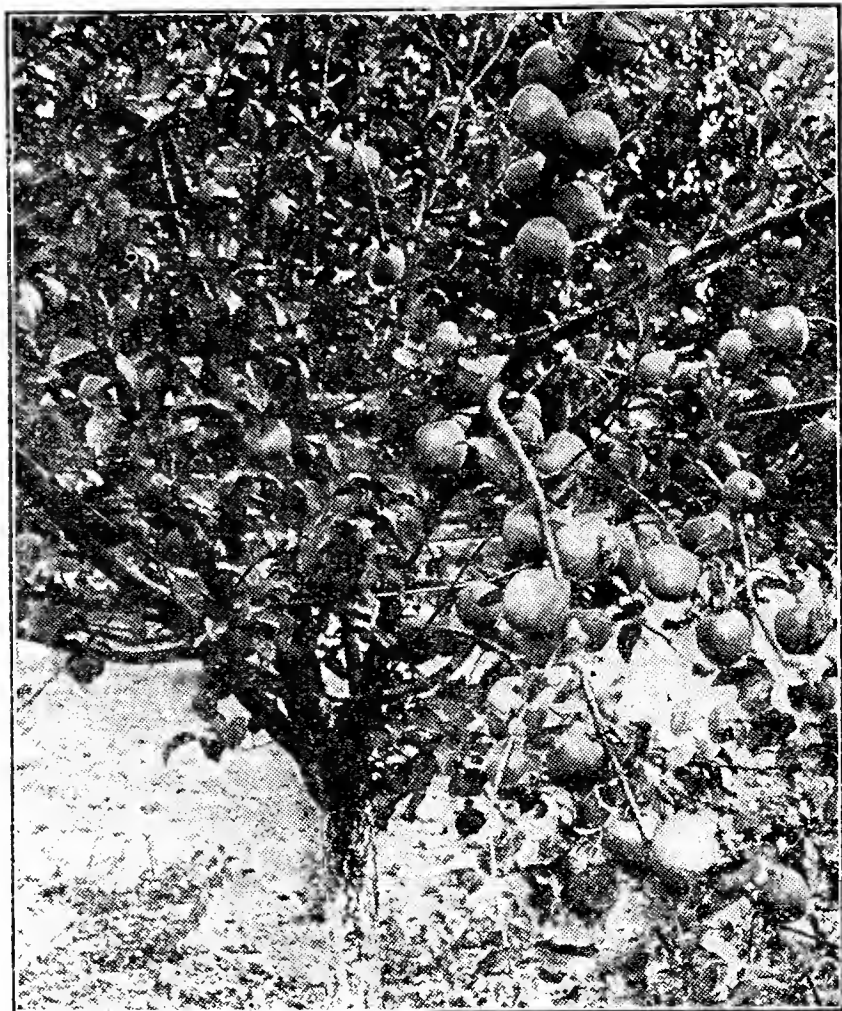

The sensation of a lifetime.

Prices on page 38.

## All Selected Specimens Budded from Bearing Trees

Whitten-Ackerman fruit trees are budded from bearing trees and grown where the snow flies, to make them more hardy and superior in quality.

At the right we show you a bundle of our apple trees. Note the heavy root system, straight and smooth trunk and well branched top. Plant trees such as these and at the end of five years you will have a bearing orchard of fine trees like the one illustrated at the left. This is a five-year-old Whitten-Ackerman Cortland Apple tree, planted on ordinary good soil. Note the bumper crop.

## WHITTEN-ACKERMAN HIGH-QUALITY FRUIT TREES

The selection of fruit trees for planting is a matter deserving great care and consideration.

Be sure to determine the caliper, grade and height before ordering from any nursery.

Unless one is experienced in orchard planting, the matter of price is often the greatest factor considered in determining the source of supply. Before buying, learn definitely just what sort of trees are being offered. Don't be influenced by height alone. While this is a desirable feature, a vigorous root system, well developed branches and a well calipered trunk are equally essential.

Notice how we grade our stock. We offer 4 to 5 ft. and 5 to 6 ft. heights. Some nurseries offer a 4 to 6 ft. grade, or "specially selected," using small calipered 4 to 5 ft. trees, which are about the same as our smallest and cheapest trees. Don't be fooled into paying a big price for a small tree.

All of our stock is plainly graded and we furnish trees of larger caliper and greater height than those offered elsewhere at or near our prices. When we tell you that only our smallest grade can be sent by mail, the greater size and added value of our stock can be better appreciated. The height of our bigger grades is too large to meet parcel post requirements, necessitating express delivery only.

Whitten-Ackerman trees are today growing in all sections of the country where orcharding is practiced. Our reputation for supplying quality stock at economical prices is established, and our policy of a square deal for every purchaser has been proven to the satisfaction of thousands of Whitten-Ackerman customers. Your next order entrusted to us will prove it to you as well.

## Selected Super-Size Fruit Trees

The best obtainable—you can't buy better trees elsewhere at any price. Other nurseries charge anywhere from \$1.00 to \$2.00 each for trees no older, larger or better. Whitten-Ackerman Super-Size Fruit Trees are the pick of the crop—they caliper no less than 1 1/16 inch, and many considerably over an inch. They run from 5 to 7 feet in height, and often higher, depending entirely on the kind and variety, as some kinds are much larger growers than others.

Two years old—the same as our smaller grades—but these trees were the strongest growers in the nursery rows, with the most pep and vitality. They'll forge right ahead and continue the same sturdy growth when planted in your own garden or orchard.

Plant Super-Size Trees Now and Save at Least a Year or Two.

# CHERRIES

Cherries bear in 2 or 3 years from planting, growing rapidly, and giving you the opportunity of a handsome profit in a short time. By planting the right varieties you can cover the entire season from the first of June until August, permitting an annual income over a long period.

## SWEET CHERRIES

**Bing** One of the best known and most popular dark sweet Cherries. Fruit large, dark colored, nearly black. Considered one of the most profitable. Tree hardy and vigorous. Seems to succeed in the East better than most Sweets. Ripens late June. Should be included in every planting.

**Black Tartarian** Very large, purplish black, heart-shaped; flesh mild and sweet, and quality considered, one of the best for market and dessert. Tree is vigorous, upright grower and immense bearer. Ripens in July. We recommend this as one of the best Sweets for home use.

**Gov. Wood** One of the best. Very large, light yellow, marbled with red; juicy, tender, rich and delicious. Tree healthy and a great bearer. Fruit hangs well on tree. Ripens last of June.

**Napoleon** (Royal Ann). Of fine appearance and very largest size. Color yellow and amber, with bright red blush; flesh firm, juicy and delicious. Profitable for market, finding a ready sale both for canning and dessert. Bears enormous crops, ripening in July.

**Windsor** Fruit large, dull red; flesh remarkably firm, of fine quality, and a good bearer. Tree hardy and prolific. Ripens middle of July. Highly recommended by some of the most prominent fruit growers of the country. A valuable addition to any garden or orchard.

## SOUR CHERRIES

**Large Montmorency** Larger and finer than Early Richmond, and ripens about 10 days later. One of the finest flavored Sour Cherries. Bears enormous crops regularly. Best all-around Cherry grown. Tree bears 2 to 3 years from planting. Ripens late June and first of July.

**Early Richmond** Medium size, dark red; acid flavor. One of the most popular Sour Cherries, and is unsurpassed for cooking purposes. Tree a splendid grower and exceedingly productive. Very hardy. Ripens in June.

**May Duke** A large, red, juicy and very rich Cherry; its acidity being pleasantly tempered to the advantage of sensitive teeth. Ripens between early part and middle of June, and is one of the best of the earlier Sour Cherries.

**Wragg** Fruit medium, dark purple, of excellent quality, ripening in August. The best late variety, commanding the highest prices.

It's New!

**Charlevoix**

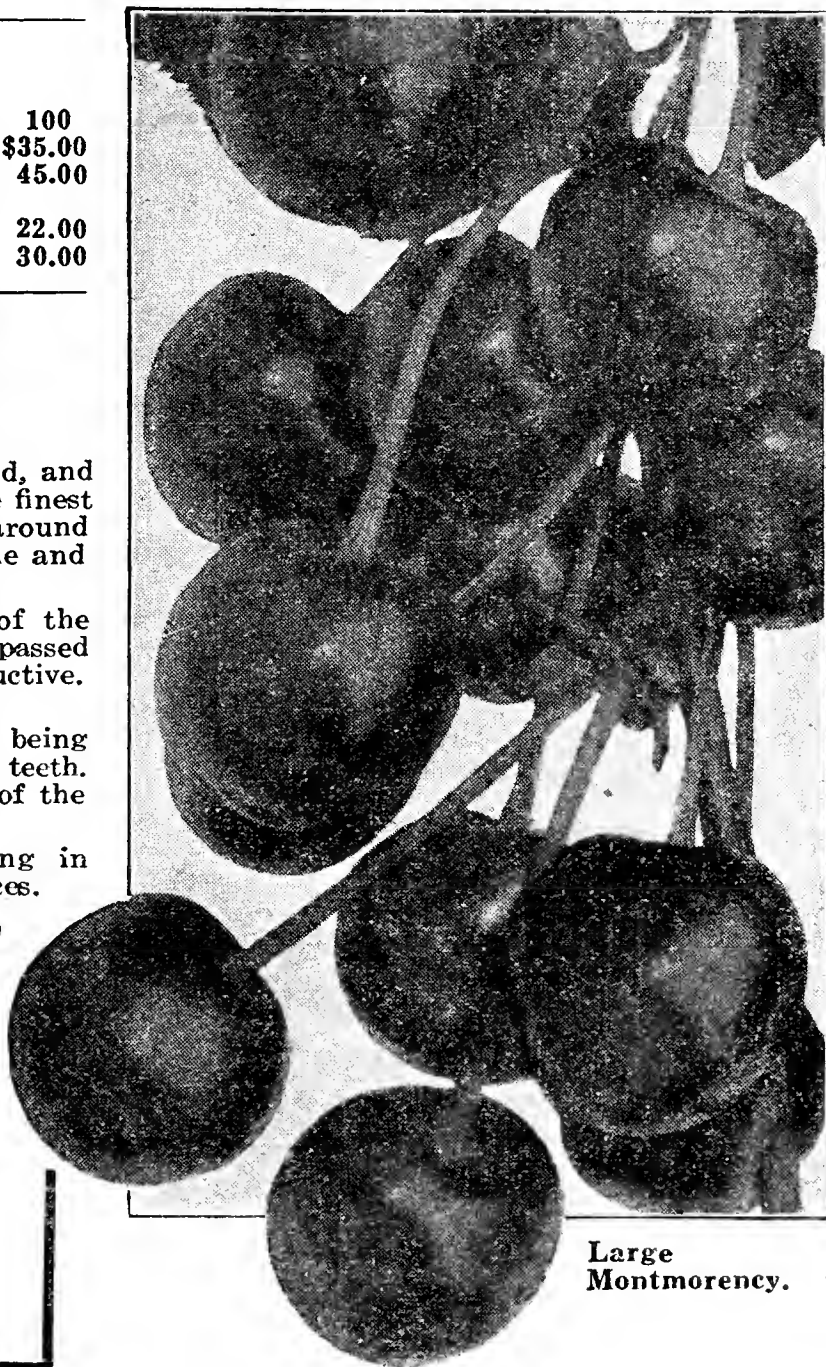

(Early Montmorency)

It's Early!

See Illustration on Front Cover. Ripens ten days to two weeks earlier than Large Montmorency, of which it is a sport. Fulfills a long-felt need by giving the grower a longer Cherry season and a better price for early fruit. Will undoubtedly replace all other early sour Cherries. Reddish in color, with very juicy flesh. Fully as large as Montmorency.

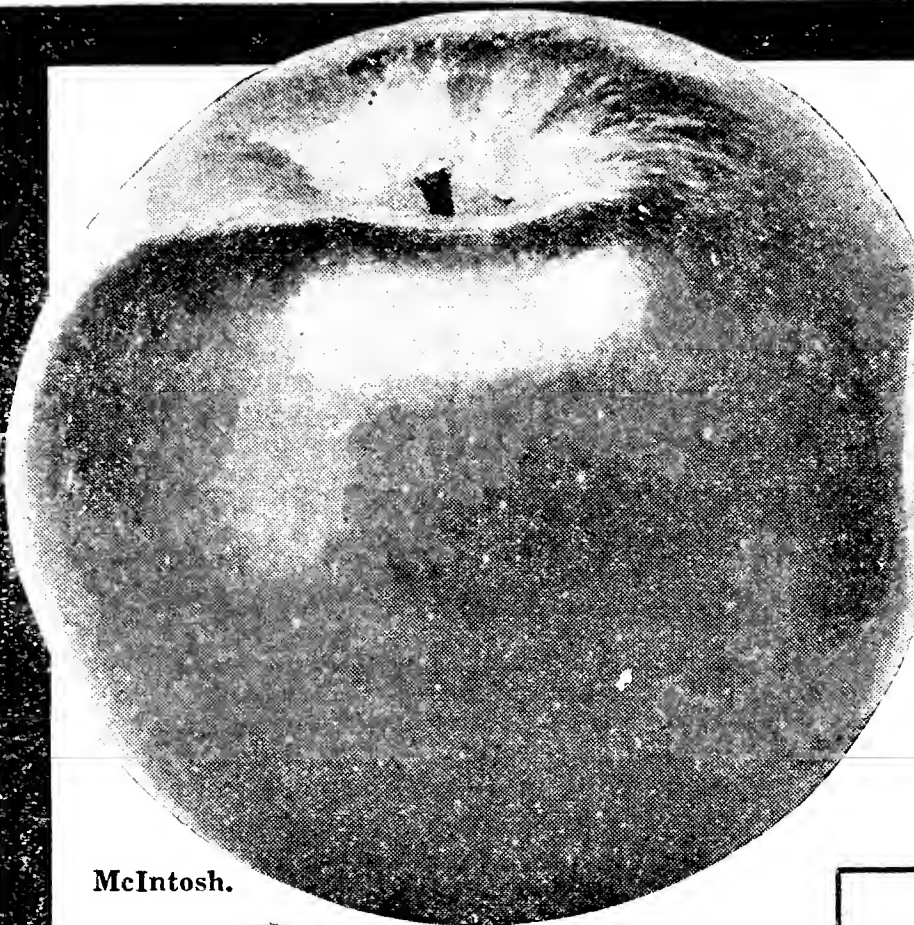

You'll want to try this new sour Cherry. It's sure to prove a success. Our supply is very limited, so order early.

2-year, Special Super-Size Trees, only 75c each; 3 for \$2.00; or 10 for \$6.00.

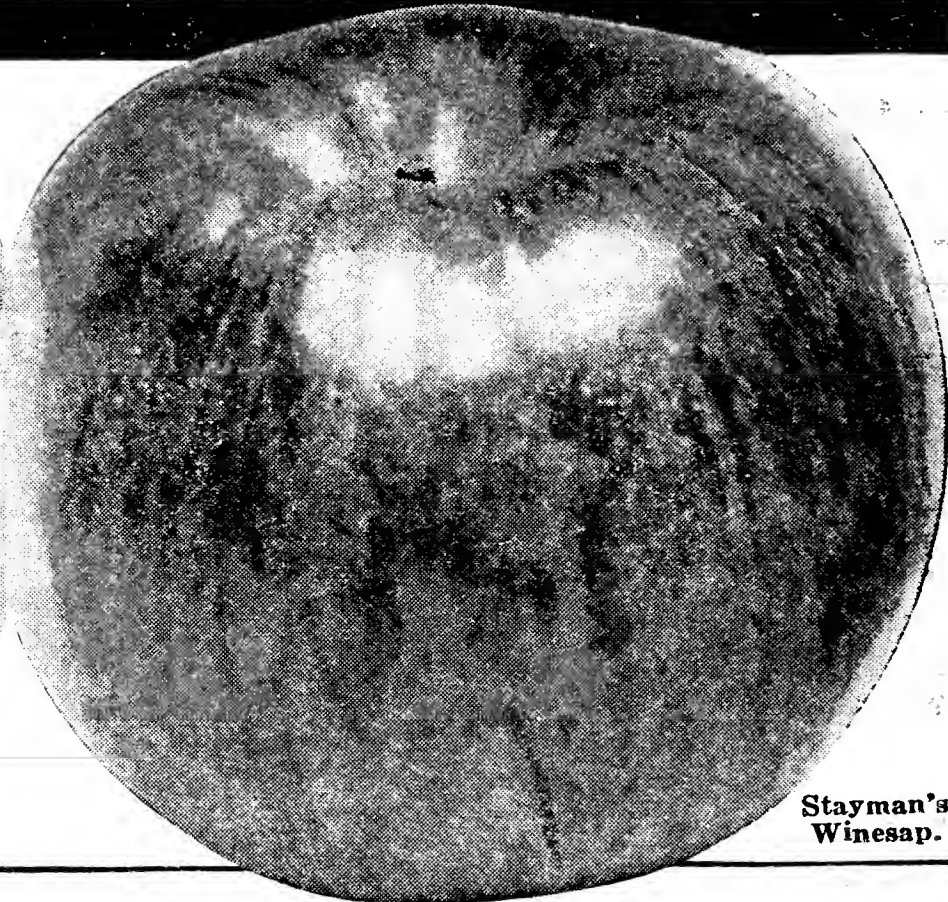

Large  
Montmorency.

McIntosh.

## WINTER APPLE

**Baldwin** Winter Apple. Large, roundish, dark red, of rich flavor. Excellent keeper well into winter, and a splendid shipper. Tree hardy, quick, strong grower. Heavy cropper.

**Delicious** Winter. Has established its claim to first rank, both for commercial and home orchards. Fruit large, flesh fine grained, crisp, juicy and really delicious. Tree hardy, vigorous grower, producing enormous annual yields.

**Grimes Golden** Winter. Medium to large size; skin golden yellow; delicious, sparkling flavor. Tree very hardy and productive. Bears young.

**Jonathan** Grand, good winter Apple. Bright, solid red. Flesh white, sometimes tinted with red; firm, fine, crisp and tender—a splendid family sort and highly profitable for market. Tree long-lived, productive and an early bearer. Will keep well without especial care, and also stand much handling.

**McIntosh** One of the very best winter Apples. Bright, deep red color. Flesh white, tender, juicy, with a rich, delicious and very distinctive flavor. Tree hardy, vigorous and healthy.

**Northern Spy** Early winter Apple. Large, roundish, somewhat ribbed, purplish red. Flesh white, tender, mild, sub-acid, rich and delicious. Blossoms very late, escaping frosts. Its large size, fine appearance and superlative quality enable it to command highest prices for fancy market trade.

**Red Astrachan** Ripens in July. Best midsummer cooking and eating Apple for home and market. Tree is hardy and regular bearer, grows vigorously, and bears fourth year. Fruit large, roundish, nearly covered with deep crimson. Juicy, rich, sub-acid flavor. Keeps well until September.

**Cortland** New. Derived from McIntosh, but fruit larger, more uniform in size, more highly colored, richer in flavor, firmer but fully as juicy. Clings to tree more tenaciously, and ripens 3 to 4 weeks later, extending the keeping period. Fine for cooking or dessert. A good shipper. Bears 2 or 3 years after planting. Prices on next page.

### Double Red Delicious

The new, superior Delicious that is creating a sensation. Fruit is red all over as early as August, when other Delicious are still green. Extra fine flavor. Brings highest prices on the market. Supply is limited, so order early. Special Super-Size Trees, only 90c each; 3 for \$2.40; 10 for \$7.50.

# ACKERMAN TREES

**Northwestern Greening** Winter Apple. Splendid for cooking. Large, greenish yellow, with firm flesh. Early and productive bearer.

**Rome Beauty** Large winter Apple of good quality; in season from December to March. Shape round, color yellowish, mottled and striped in different shades of red. Thick skinned, stands handling well and a good keeper. Bears young.

**Stayman's Winesap** A good early winter keeper. Fruit large, bright red color. Flesh tinged with yellow; firm, crisp, with pleasant, rich acid flavor appealing to everyone.

**Tolman Sweet** Fruit light yellow with faint blush. Medium large. Flesh white, very sweet and rich. Wonderful for cider.

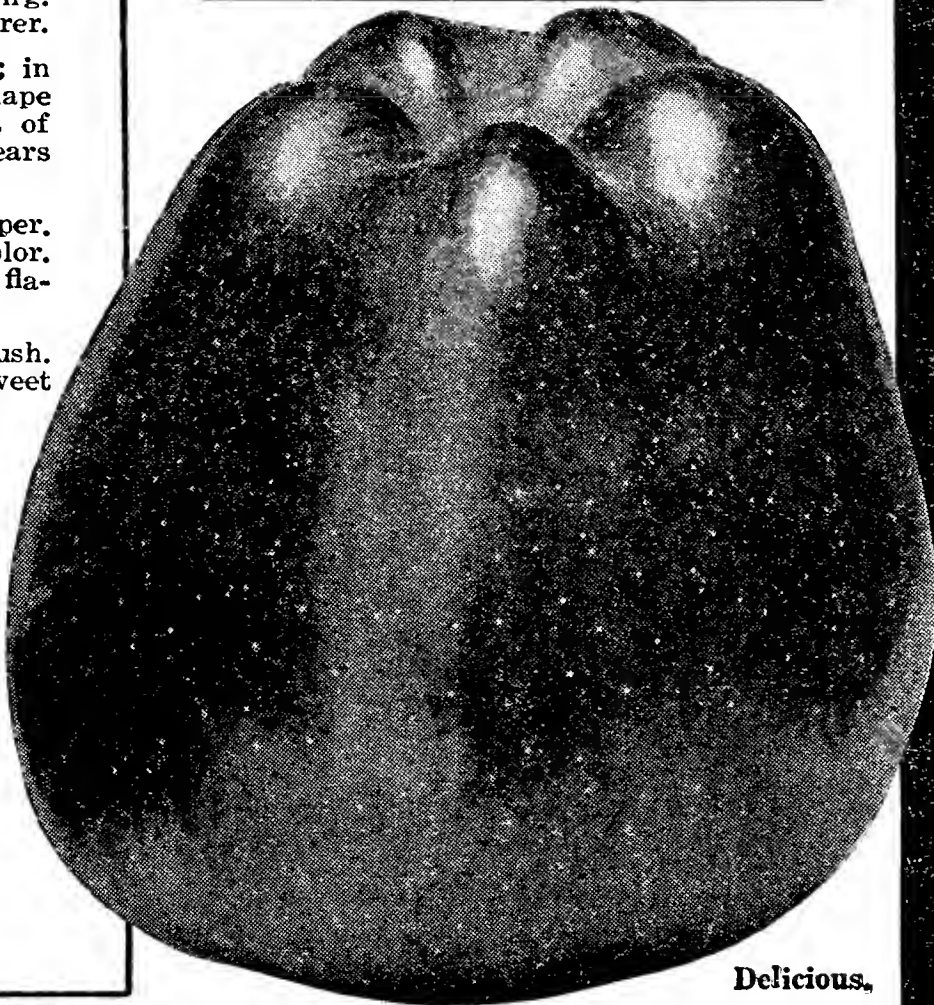

**Wealthy** Ripens late summer and early autumn. Perfectly hardy, vigorous and productive. Fruit large, red streaked with white. Quality good. A profitable market sort.

**Winter Banana** Early winter variety. Large, beautiful, brilliant waxen yellow with red cheek. A most attractive, high quality, juicy Apple, with exquisite flavor that delights everyone. Especially good for eating out of hand. Tree hardy; bears young; good crop every year.

**Yellow Transparent** Ripens in July. One of the best early varieties. Skin is clear white, changing to pale yellow when ripe. Flesh white, tender, sub-acid.

**York Imperial** Medium size, oblong shaped winter Apple. Yellow shaded red, indistinct red stripes. Flesh yellow, firm, juicy, sub-acid. Excellent shipper.

The 4- to 5-ft. trees can be shipped by Parcel Post if desired, but the two larger sizes by Express only. If trees are ordered by Mail, be sure to allow an additional sum for postage in accordance with Parcel Post schedule on page 48.

# PEACHES

**Buy Here—Save Part of Every Dollar.  
Agent's Profit is Yours**

All of our Peach trees are absolutely true-to-name, vigorous and well grown, free from insects, perfectly healthy; with well ripened wood and splendid roots, all stored in frost-proof cellars beyond the possibility of injury during the winter.

Trees should be planted 16 to 18 feet

apart. **ALL VARIETIES LISTED ARE FREE-STONE PEACHES. WE OFFER NO CLINGS.**

J. H. Hale.

## Shipper's Late Red

A new late Peach, beautifully colored red. Flesh is yellow and sweet. Fruit ripens September to October, and clings tenaciously to tree, eliminating droppage. Very hardy; bears young, annually and abundantly.

## Champion

Considered the highest in quality of all white fleshed Peaches. Flesh tender and juicy, with pleasant flavor. Skin is creamy white with splashes of carmine and darker red. Tree is vigorous, healthy and productive. Ripens in late August or early September.

## Rochester

Earliest and best yellow freestone for home and market. Fruit large, yellow, sweet, juicy and of delicious flavor. Keeps and ships well. Ripens about August 10th, when there is no other yellow freestone Peach on the market. Commands good price. Tree strong grower and hardy. An annual and prolific cropper.

## Wilma

A new variety of great promise. Supplies a long-felt want for a good, productive, yellow Peach ripening later in season than Elberta; as it is ten days later than that variety. Fruit is large, handsome and of good quality, yellow mottled and blushed with bright dark red; tender, juicy flesh of good flavor and quality.

## SOUTH HAVEN

Here's the Peach you've been looking for. Extra large, extra fancy, extra early yellow variety. Combines all the good features of Elberta—large size, excellent quality, delicious flavor, beautiful appearance and immense productiveness, but it ripens 12 to 16 days earlier, enabling one to get it on the market at a time when good Peaches are scarce and when they bring the highest prices. It is of the finest quality as an eating Peach and is also a great shipper. In fact, it has every desirable quality of a high class Peach. Remarkable in its rapid growing, young bearing habits; is certain to bring quick returns and big profits. You can't go wrong in planting South Haven.

The Famous South Haven.

All Nursery Stock Now Takes Second Class Express Rate. Big Savings on Express Shipments.

Whitten-Ackerman Quality Peach Trees

**Prices** SPECIAL DISCOUNTS from prices below allowed for all cash with orders received any time during 1934. See page 3.

South Haven, 1-year, 9/16", 5 to 6 ft. trees ....	.40	3.50	30.00

You will not find any 5/16 inch or spindly whips and poorly branched stock offered for sale in our nursery. We cannot afford to sell them and you cannot afford to plant them. When you see fruit trees advertised for less money than ours or are promised a whole orchard for only a dollar or two, just check up on the size, grade and age of the stock before you buy it, then compare it with what we are offering, and we are sure you will call our trees the best. Remember, all of our trees are absolutely guaranteed true to name.

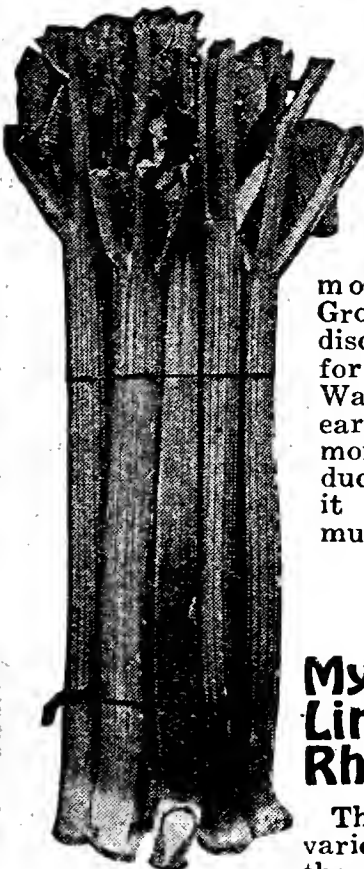

See illustrated at the right branch of a 3-year-old J. H. Hale peach tree grown on our farms. Notice the full crop—the result of planting our healthy, northern grown trees. (Note: We always plant J. H. Hale with South Haven Peach trees, and insure perfect pollenization and a full crop.)

Logan, Kansas, May 5, 1933.  
Gentlemen: I have been planting nursery stock in north central Kansas for over fifty years, but results were not completely satisfactory until I planted your hardy Northern Grown trees. This is especially true of Peach stock. Last year, 1932, we gathered a fine crop of Rochester and South Haven Peaches from trees obtained from you—some of which were set out the previous year.  
Very truly yours, ABRAM TROUP.

GARDEN ROOTS

MARY WASHINGTON

The new variety developed and introduced by the United States Department of Agriculture, and claimed to be an improvement over Martha Washington, in that Mary Washington is larger, and even more rust resistant. Growers everywhere are discarding other varieties for the famous Mary Washington, because it is earlier, the stalks larger, more tender, more productive, and best of all, it is claimed to be immune to rust.

Myatt's Linnaeus Rhubarb

Those who have grown this variety will hardly recognize the old "Pieplant." It is an early, tender variety, without being in the least tough or stringy, with a mild, sub-acid flavor. We consider this one of the most profitable market garden crops, and one that should be produced more extensively. We offer good, strong roots, priced so low that our customers can purchase in quantities at very little expense.

Pedigreed Asparagus

Nothing that comes out of the home garden is so much appreciated as the tender tips and fresh stalks of Asparagus. A small bed of them kept weed-free, or a border along the garden edge, will supply the average table for six weeks or more in late spring.

In planting, make the soil rich; dig trench; set 12 to 18 inches apart, roots spread out, crown two inches below surface; and tamp in returned soil firmly.

**Bargain No. 17**  
12 Mary Washington Asparagus.  
6 Horseradish.  
6 Rhubarb.  
**75c** Net, Postpaid

Horseradish

This popular condiment is very easily produced in the home garden, and anyone who has compared the freshly dug article with that sold over counters can appreciate the value of the good, home-grown products so easily prepared. A half dozen roots are sufficient for a moderate supply, while a dozen will generously cover the requirements of the average family. As it spreads quite rapidly, the source of supply is easily maintained.

# PEARS

The planting of Pears is rapidly increasing as their commercial value becomes more and more appreciated. Like apples, the range of varieties is such that Pears may be had in good eating condition from August until well into the winter. Pears prefer a rather heavy clay or loam, but thrive on any good soil. Plant 18 to 20 feet apart.

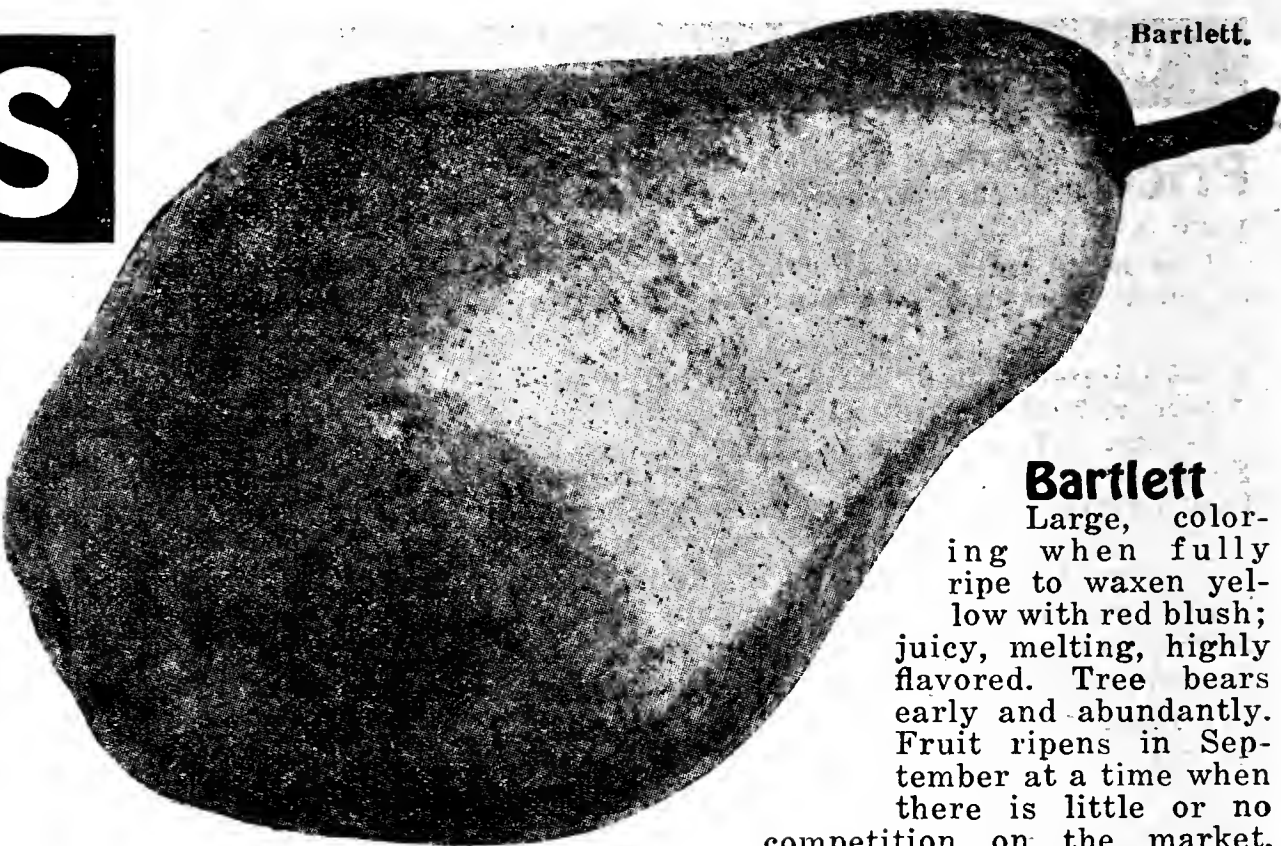

Pear trees bear young. Plant a few in your yard, and have plenty of this delicious fruit for eating and canning.

We have discontinued propagation of the Douglas Pear, for we have found that the other varieties we handle are much superior.

Clapp's Favorite.

Bartlett.

## Bartlett

Large, coloring when fully ripe to waxy yellow with red blush; juicy, melting, highly flavored. Tree bears early and abundantly. Fruit ripens in September at a time when there is little or no

competition on the market. Some nurserymen claim there have been more Bartlett planted than all other kinds of Pears combined, and you make no mistake in planting Bartlett yourself.

**Seckel** (Sugar Pear). Small size; yellowish russet, with red cheek. Flesh white, buttery, very juicy and melting. One of the highest flavored Pears. The richest and finest variety known, and extensively planted in all parts of the country. Ripens in September and October.

**Kieffer** Best Pear for large commercial plantings, because of its sure crop, heavy yield and exceptional shipping qualities. Ripens in October and November. Fruit large, and of good quality. Sometimes known as "Winter Bartlett."

**Beurre Bosc** Without doubt the highest quality and best flavored Pear of all. Should be in every garden. Fruit very large, of distinct gourd shape—roundish at blossom end, with long, thin, tapering neck. Beautiful golden russet color. Flesh fine grained, juicy and melting, very delicious and high flavored. Ripens late September or early October.

**Clapp's Favorite** A superb, large, long, yellow Pear, richly flushed with russet-red next the sun. The flesh is fine grained, juicy, melting and buttery. A cross between Bartlett and Flemish Beauty; earlier than Bartlett and resembling Flemish Beauty in growth. A fine grower and extremely productive. Ripens in early August.

PRICES OF PEAR TREES:		Each	10	100

Yellow Egg.

# PLUMS

Plums are hardy and grow vigorously in nearly all sections, succeeding on any medium fertile soil. The market for Plums is never overstocked, so that good, profitable returns are assured. Plant 16 to 18 feet apart.

**Yellow Egg** The best Yellow Plum. Trees are hardy in any climate. Fruit is very attractive, large, and rich yellow in color. It is a great canner. Bears a large crop, even when the trees are quite young.

Italian Prune.

**Italian Prune** Good sized purple Plum. Very good for canning and ideal for drying. Flesh juicy and delicious. Ripens in September.

**Burbank** Most profitable market variety. Tree hardy, spreading, vigorous and very heavy yielder. Bears young. Fruit large and of excellent quality; cherry-red, with lilac blooms. Ripens in August.

**German Prune** Large, dark purple, sweet. One of the best for commercial planting. Excellent for drying and canning. Plant a few trees or a large orchard of this variety, and you will not go wrong. Ripens in September.

**Monarch** Very large, roundish oval. A very handsome, rich, purple Plum that has attained popularity more quickly than any other Plum of recent introduction. Flesh golden yellow, juicy and sweet. Tree strong grower, bears young and yields abundant crops. One of the most valuable. Ripens in October.

**Reine Claude** (Green Gage). An unusually high quality eating Plum, and because of its rich flavor, one of the very best for canning. Large, yellow-green, juicy, melting, sugary and delicious. Ripens quite late, and hangs for a long time on the trees. Very hardy and productive.

## PRICES OF PLUM TREES:

All Varieties Listed:	Each	10	100
2-year, 9/16", 5 to 6 ft. trees .....	\$0.45	\$4.25	\$40.00

Five or more trees of a single variety at the 10 rate; 50 or more at the 100 rate.

SPECIAL DISCOUNTS for all cash with order. See page 3.

# QUINCES

The Quince crop is usually reliable and not often destroyed by capricious weather variations. The fruits are highly regarded for preserving, for jelly, and above all for that delectable, golden "Quince Honey." Both fruit and flowers are quite fragrant, and the trees and bloom highly ornamental.

**Orange** Sometimes called Apple Quince. Fruit large, round, with a short neck; color bright yellow; flesh firm and tough until cooked, when it becomes tender, juicy and of excellent flavor. We recommend the Orange as the best all-around variety to plant. Quinces always bring a good price when marketed. Tree bears young. A good tree to plant on hillsides or where land is hard to work, as it requires very little care.

## PRICES OF QUINCE TREES:

	Each	10	100
2-year, 4 to 5 ft. trees .....	\$0.45	\$4.00	\$38.00

# INSTRUCTIONS FOR ORDERING

**LOCATION.** Bridgman, Berrien County, Michigan—The World's Largest Fruit Plant Center.

**ORDER BLANK.** Be sure to use Order Blank and Return Envelope provided. It prevents errors and insures prompt attention. If you do not have an Order Blank, you may order by letter.

**ORDER EARLY.** By ordering early you will find us with a full line of stock, and your order will be shipped when you want it, with no chance of delay. Early cash buyers receive a Liberal Gift Planting of Flaming Giant Red Raspberry Plants or Climbing Hydrangea Vines. Be one of them. (See page 2 for details).

**TERMS.** 10 per cent discount on all orders accompanied by cash in full, except Special Bargain Offers or Special Quotations, which are net. C. O. D. Express or Parcel Post shipment if you prefer. (See page 3 for full details).

**CLAIMS.** All claims covering condition on arrival, shortage or errors, must be made within 5 days after arrival. If stock arrives in bad condition, be sure to furnish signed statement from express agent or postmaster, showing extent of loss or damage. All claims will be taken care of under the terms of our Guarantee printed on page 4. Claims not made in accordance with the terms and conditions of this paragraph cannot be considered.

**EXPRESS AND PARCEL POST SHIPMENTS.** On express shipments, be sure there is an express office at destination you give. When ordering by Parcel Post be sure to include additional remittance sufficient to cover postage charge in accordance with schedule on this page.

If the size or weight of the bundle is too great to comply with Parcel Post requirements, or contains nursery stock difficult to handle by parcel post, we reserve the right to change the routing to express; but in all such cases, any money advanced for the payment of postage will be immediately refunded to customer. Do not ask us to send 5 to 6 ft., or 6 to 7 ft. fruit trees by parcel post, as in order to meet parcel post requirements these trees must be cut back so far that they are very likely to be injured. If you insist on parcel post delivery of these large sizes, we cannot be held responsible for damage to trees.

Express shipments of nursery stock now travel at 2nd class rates, making charges on all packages and bundles about 25% cheaper than formerly.

**HOW TO REMIT FOR YOUR ORDER:** 1.—By postal money order. This can be purchased at your postoffice, or if you live on a rural delivery route, carrier will attend to sending it for you and bring you the receipt. 2.—By registered mail. In this way you enclose the money itself with the order, taking the Government's receipt, which is your protection. 3.—By express money order. Can be bought at any express office. 4.—By personal or cashier's check. Make it payable to The Whitten-Ackerman Nurseries. Money Orders Preferred.

Do not send cash unless you register your letter. Cash or stamps when sent by ordinary mail are likely to be lost, in which case we are not responsible. We do not pay duty to foreign countries. Please Do Not Send Postage Stamps.

**BARGAIN COLLECTIONS—Cannot Be Altered, Divided or Changed in Any Manner; Neither Can They be Shipped C. O. D. For Purchase Price, as They are For Cash With Order Only, and are Priced Net, Subject to No Discount or Free Plant Offer.**

**SUBSTITUTION.** In ordering be sure to state whether or not we shall substitute some other variety in case the kind ordered is exhausted. If not forbidden, we reserve the right to substitute some similar variety of equal or greater value, but will always label substitutes true to name.

**FALL SHIPMENTS.** Our stock is fully matured by October 1st, and to southern customers or others wishing to plant in the fall, we can make shipment during October and November.

**ACKNOWLEDGMENTS.** Orders acknowledged same day received, and shipped in season, or as per instructions you give.

**NOTE:** Should the United States, or any state, increase by taxes, legislative acts, inflation, or in any other way beyond our control, the cost or selling price of nursery stock shown in this catalog, we reserve the right to add to our quoted prices to cover such increase.

## Parcel Post Rates HOW MUCH TO INCLUDE FOR POSTAGE WHEN YOU SEND CASH WITH ORDER

# GEM *The Universal Everbearer*

By far the best everbearer ever introduced.

Will undoubtedly take the place of Mastodon in many localities as soon as sufficient planting stock is available. Since the introduction of Mastodon, Gem is the only variety which surpasses it in all respects.

The quality of the fruit cannot be beat. Flavor is really delicious and sweet, and berries "just melt in your mouth." Fruit is very large in size, and does not run small even at the end of the season—large from the first picking until the last—and is the only everbearer which holds that real strawberry flavor when cool weather sets in—never getting the grassy flavor of other varieties.

Gem berries are certainly firm and will stand an unusual amount of handling and hauling. We have kept a case of them for 36 hours after picking and at the end of that time they were still in very good condition, firm and solid enough to sell on any market.

Ripens 6 weeks after planting and is a heavy producer. Red clear through—ripens all over, all the way to the tip end of the berries. Also one of the best spring varieties—2 crops in 1 year.

Good plant maker on any soil—very hardy—not subject to leaf blight—resists drought.

Gem was first discovered 4 years ago by Frank J. Keping of north central Michigan, in a patch of Champion everbearing Strawberries. In thorough tests since then, he has found that it will do well on any soil, even producing a good crop of fine fruit on wet mucky land, or during dry seasons.

Altogether different from any other everbearer as to plant growth. The flowers need no plucking as in other varieties, for Gem does not produce anywhere near as many fruit stems as other kinds, which makes the berries hold up in size throughout the season, never running small. Will produce more quarts per acre of large, very attractive berries than any other kind—no small berries to bother with.

Our planting stock was secured direct from the originator. Because of the small quantity of plants available this year, we are forced to limit each customer to 1000 plants only. Even with this limitation, we are liable to become sold out before the season is over, so we urge you to order early.

## Our Faith in Gem

It is our belief that there never has been and probably never will be another everbearing Strawberry that even approaches Gem in the qualities that make for perfection. In our opinion Gem is soon destined to become the most widely grown Everbearing Strawberry in America.

See page 38 for prices on Gem.

### Special Bargain No. 25

25 Gem  
25 Mastodon

The two leading Everbearers. We offer a real bargain so you can try them both.
